

it to accept Effective Financing Statement filings electronically.

**DATES:** This notice is applicable March 16, 2026.

**SUPPLEMENTARY INFORMATION:** The Packers and Stockyards Division of the Agricultural Marketing Service administers the Clear Title Program on behalf of the Secretary of Agriculture. The Clear Title Program is authorized by section 1324 of the Food Security Act of 1985 (7 U.S.C. 1631), which requires States implementing central filing system for notification of liens on farm products have such systems certified by the Secretary of Agriculture.

A list of the states with certified central filing systems is available on the AMS website at <https://www.ams.usda.gov/rules-regulations/food-security-act/clear-title>. Farm products covered by a State's central filing system are also identified through the AMS website. The Oklahoma central filing system covers all farm products.

The Department of Agriculture originally certified the central filing system for Oklahoma on December 29, 1987 (52 FR 49056). The certification was last amended on February 5, 2001 (66 FR 13876). The Oklahoma County Clerk Office requested its certification be amended to transfer statutory authority of the central filing system for effective financing statements from the Oklahoma Secretary of State to the Oklahoma County Clerk's office.

The Oklahoma County Clerk will oversee the amended central filing system including electronic filings of effective financing statements that owners of security interests would file with the Clerk's existing Uniform Commercial Code Central Filing System. In the central filing system, filers have the option of uploading completed documents or using an online fillable form. For paper filings, documents are to be mailed to the County Clerk's office accompanied by payment. The documents are then scanned, processed and officially recorded. Each document will be assigned a unique instrument number. Once recorded, the original document will be returned to the customer along with a receipt indicating the instrument number. Documents are to be returned to the customer by mail or in person, depending on how they were submitted.

This notice announces AMS approval of the amended certification for Oklahoma's central filing system.

(Authority: 7 U.S.C. 1631, 7 CFR 2.22(a)(3)(v) and 2.81(a)(5), and 9 CFR 205.101.)

**Erin Morris**,  
Administrator, Agricultural Marketing Service.

## DEPARTMENT OF AGRICULTURE

### Submission for OMB Review; Comment Request

March 12, 2026.

The Department of Agriculture will submit the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13 on or after the date of publication of this notice. Comments are requested regarding: (1) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding these information collections are best assured of having their full effect if received by April 15, 2026. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

### National Agricultural Statistics Service (NASS)

*Title:* Agricultural Surveys Program—Substantive Change.

*OMB Control Number:* 0535-0213.

*Summary of Collection:* General authority for these data collection activities is granted under U.S. Code Title 7, Section 2204 which specifies that "The Secretary of Agriculture shall procure and preserve all information concerning agriculture which he can obtain . . . by the collection of statistics . . .". The primary objective of the National Agricultural Statistics Service (NASS) is to provide data users with timely and reliable agricultural production and economic statistics, as well as environmental and specialty agricultural related statistics. To accomplish this objective, NASS relies on the use of diverse surveys that show changes within the farming industry over time.

The National Agricultural Statistics Service (NASS) is requesting a substantive change to the Agricultural Surveys Program information collection request (OMB No. 0535-0213) to increase the sample size for the Crop Acreage and Grain Stocks (Quarterly Agricultural Surveys), reinstate the Agricultural Coverage Evaluation Survey (ACES), and update the June Area Survey questionnaire to be fully compliant with Statistical Policy directive No. 15: Standards for Maintaining, Collecting, and Presenting Federal Data on Race and Ethnicity (SPD-15). The changes in this request increase burden hours.

*Need and Use of the Information:* The surveys provide the basis for estimates of the current season's crop and livestock production and supplies of grain in storage. Crop and livestock statistics help develop a stable economic atmosphere and reduce risk for production, marketing, and distribution operations. These commodities affect the well-being of the nation's farmers, commodities markets, and national and global agricultural policy. Users of agricultural statistics are farm organizations, agribusiness, state and national farm policy makers, and foreign buyers of agricultural products but the primary user of the statistical information is the producer. Agricultural statistics are also used to plan and administer other related federal and state programs in such areas as school lunch program, conservation, foreign trade, education, and recreation. Collecting the information less frequent would eliminate needed data to keep the government and agricultural

industry abreast of changes at the state and national levels.

*Description of Respondents:* Farms and Ranches.

*Number of Respondents:* 596,600.

*Frequency of Responses:* Reporting: Quarterly; Semi-annually; Monthly; Annually.

*Total Burden Hours:* 206,959.

**Levi S. Harrell,**

*Departmental Information Collection Clearance Officer.*

## DEPARTMENT OF AGRICULTURE

### Submission for OMB Review; Comment Request

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments are requested regarding; whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by April 15, 2026 will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function. An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

### Food and Nutrition Service

*Title:* 7 CFR Part 235—State Administrative Expense (SAE) Funds.

*OMB Control Number:* 0584-0067.

*Summary of Collection:* This is a reinstatement, with change, of a previously approved collection for which approval has expired. The authority for this collection is provided in Section 7 of the Child Nutrition Act of 1966, 80 Stat. 888, 889, as amended (42 U.S.C. 1776, 1779). As required, the Food and Nutrition Service (FNS) issued regulations in 7 CFR part 235, which prescribes the methods for making payments of funds to State agencies to use for administrative expenses incurred in overseeing and providing technical assistance in connection with activities undertaken under the National School Lunch Program (NSLP), the Special Milk Program (SMP), the School Breakfast Program (SBP), the Child and Adult Care Food Program (CACFP), and the Food Distribution Program (FDP). This information collection is required to administer these Programs in accordance with the Act. For this reinstatement, FNS adjusted the number of respondents for the reporting requirement at 235.7(b) and adjusted the frequency of the recordkeeping responses for the recordkeeping requirement at 235.7(a) for the FNS-525 form. Although this is a reinstatement and as such is not reducing the burden, FNS estimates that these changes would have reduced the responses and burden hours for this collection.

*Need and Use of the Information:* This is a mandatory information collection. Under this collection, FNS collects the information necessary for making payments of funds to State agencies to use for the administrative expenses incurred in supervising and providing technical assistance in connection with the activities undertaken by them under the NSLP, SMP, SBP, CACFP, and the FDP. The Federal regulations in 7 CFR part 235 SAE Funds require the collection of information associated with this collection. The respondents for reporting information and for maintaining the records consist of the State educational agencies and the alternate State agencies that have agreements with FNS for the administration of NSLP, SBP, SMP, CACFP, FDP or some combination thereof. This information is collected through written agreements that cover the operation of the Program during a specified period; State Administrative Expense plans that outline funding and activities; State Administrative Expense

Funds Reallocation Reports that describe the use of SAE funds and which are used to reallocate SAE funds; and annual reports containing information on the number of School Food Authorities under agreement with the State agency to participate in the National School Lunch or Commodity School Programs. Under this collection, State agencies also maintain current accounting records of State administrative expense funds which identify fund authorizations, obligations, unobligated balances, assets, liabilities, outlays, and income.

*Description of Respondents:* State, Local, or Tribal Government.

*Number of Respondents:* 83.

*Frequency of Responses:* Recordkeeping; Reporting: Annually, Quarterly, Semi-annually, and bi-weekly.

*Total Burden Hours:* 2,155.

**Rachelle Ragland-Greene,**

*Departmental Information Collection Clearance Officer.*
