

of the scope, with each other, or with posts, create a free-standing fence. Temporary steel fence panels are covered by the scope regardless of whether they attach to a stand or the type of stand to which they connect.

Temporary steel fence panels have a welded frame of steel tubing and an interior consisting of chain link, steel wire mesh, or other steel materials that are not more than ten millimeters in actual diameter or width. The steel tubing may surround all edges of the temporary steel fence panel or only be attached along two parallel sides of the panel. All temporary steel fence panels with at least two framed sides are covered by the scope, regardless of the number of edges framed with steel tubing.

Temporary steel fence panels are typically between 10 and 12 feet long and six to eight feet high, though all temporary steel fence panels are covered by the scope regardless of dimension or weight as long as a single panel meets each of the three following criteria: (1) it has over seven and a half square feet in actual surface area; (2) it weighs more than four pounds; and (3) it weighs less than 1.92 pounds per square foot. Temporary steel fence panels may be square, rectangular, or have rounded edges, and may or may not have gates, doors, wheels, or barbed wire or other features, though all temporary steel fence panels are covered by the scope regardless of shape and other features. Temporary steel fence panels may have one or more horizontal, vertical, or diagonal reinforcement tubes made of steel welded to the inside frame, though all temporary steel fence panels are covered by the scope regardless of the existence, number, or type of reinforcement tubes attached to the panel. Temporary steel fence panels may have extensions, pins, tubes, or holes at the bottom of the panel, but all temporary steel fence panels are covered regardless of the existence of such features.

Steel fence stands are shapes made of steel that stand flat on the ground and have one or two open tubes or solid pins into which temporary steel fence panels are inserted to stand erect. The steel fence stand may be made of welded steel tubing or may be a flat steel plate with one or two tubes or pins welded onto the plate for connecting the panels.

Temporary steel fencing is covered by the scope regardless of coating, painting, or other finish. Both temporary steel fence panels and temporary steel fence stands are covered by the scope, whether imported assembled or unassembled, and whether imported together or separately.

Subject merchandise includes material matching the above description that has been finished, assembled, or packaged in a third country, including by coating, painting, assembling, attaching to, or packaging with another product, or any other finishing, assembly, or packaging operation that would not otherwise remove the merchandise from the scope of the investigation if performed in the country of manufacture of the temporary steel fencing.

Temporary steel fencing is included in the scope of this investigation whether or not imported attached to, or in conjunction with, other parts and accessories such as posts,

hooks, rings, brackets, couplers, clips, connectors, handles, brackets, or latches. If temporary steel fencing is imported attached to, or in conjunction with, such non-subject merchandise, only the temporary steel fencing is included in the scope.

Excluded from the scope of this investigation are decorative steel fence panels. Decorative steel fence panels are steel fence panels that have all of the following characteristics: (i) the panel's long ends are no more than 48 inches; (ii) the panel's short ends are no more than 38 inches; (iii) the panel weighs 7 pounds or less; (iv) the panel is framed on all sides with steel tubing no wider than 10 mm; and (v) the panel's the interior contains a decorative pattern (meaning a pattern other than square, rectangular, diamond, or hexagonal meshing) accounting for at least 5 percent of the area within the frame.

Merchandise covered by this investigation is currently classified in the Harmonized Tariff Schedule of the United States (HTSUS) under the subheading 7308.90.9590. Subject merchandise may also enter under subheadings 7326.90.8688 and 7323.99.9080 of the HTSUS. The HTSUS subheadings set forth above are provided for convenience and U.S. Customs purposes only. The written description of the scope is dispositive.

#### Steel Concrete Reinforcing Bar From the Republic of Türkiye: Final Results of the Expedited Second Sunset Review of the Countervailing Duty Order

**AGENCY:** Enforcement and Compliance, International Trade Administration, Department of Commerce.

**SUMMARY:** The U.S. Department of Commerce (Commerce) finds that revocation of the countervailing duty (CVD) order on steel concrete reinforcing bar (rebar) from the Republic of Türkiye (Türkiye) would be likely to lead to continuation or recurrence of countervailable subsidies at the levels indicated in the “Final Results of Sunset Review” section of this notice.

**DATES:** Applicable March 16, 2026.

**FOR FURTHER INFORMATION CONTACT:** David de Falco, Trade Agreements Policy and Negotiations, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–2178.

#### SUPPLEMENTARY INFORMATION:

##### Background

On November 6, 2014, Commerce published the *Order* on rebar from Türkiye.<sup>1</sup> On September 2, 2025, Commerce published the notice of initiation of the second sunset review of the *Order*, pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.218(c).<sup>2</sup> On September 16, 2025, Commerce received a notice of intent to participate in this sunset review from the Rebar Trade Action Coalition (RTAC), the domestic interested party, within the deadline specified in 19 CFR 351.218(d)(1)(i).<sup>3</sup> RTAC claims that it has interested party status within the meaning of section 771(9)(F) of the Act and 19 CFR 351.102(b)(29)(v) as a coalition of U.S. producers of the domestic like product.<sup>4</sup>

On October 2, 2025, Commerce received an adequate substantive response from the domestic interested party, within the 30-day deadline

<sup>1</sup> See *Steel Concrete Reinforcing Bar from the Republic of Turkey: Countervailing Duty Order*, 79 FR 65926, (November 6, 2014) (*Order*).

<sup>2</sup> See *Initiation of Five-Year (Sunset) Reviews*, 90 FR 42388 (September 2, 2025).

<sup>3</sup> See RTAC's Letter, “Steel Concrete Reinforcing Bar from the Republic of Turkey: Notice of Intent to Participate in Sunset Review,” dated September 16, 2025.

<sup>4</sup> *Id.* at 2.

specified in 19 CFR 351.218(d)(3)(i).<sup>5</sup> Commerce did not receive a substantive response from either the Government of Türkiye or a respondent interested party to this proceeding. On December 8, 2025, Commerce notified the U.S. International Trade Commission (ITC) that it did not receive an adequate substantive response from respondent interested parties.<sup>6</sup> As a result, Commerce conducted an expedited (120-day) sunset review of the *Order*, pursuant to section 751(c)(3)(B) of the Act and 19 CFR 351.218(e)(1)(ii)(B)(2) and (C)(2).

Due to the lapse in appropriations and Federal Government shutdown, on November 14, 2025, Commerce tolled all deadlines in administrative proceedings by 47 days.<sup>7</sup> Additionally, due to a backlog of documents that were electronically filed via Enforcement and Compliance’s Antidumping and

Countervailing Duty Centralized Electronic Service System (ACCESS) during the Federal Government shutdown, on November 24, 2025, Commerce tolled all deadlines in administrative proceedings by an additional 21 days.<sup>8</sup> Accordingly, the deadline for these final results is now March 9, 2026.

**Scope of the Order**

The product covered by this *Order* is rebar from Türkiye. For a full description of the scope of the *Order*, see the Issues and Decisions Memorandum.<sup>9</sup>

**Analysis of Comments Received**

A complete discussion of all issues raised in this sunset review, including the likelihood of continuation or recurrence of subsidization and the countervailable subsidy rates likely to prevail if the *Order* were to be revoked,

is contained in the Issues and Decision Memorandum. A list of the topics discussed in the Issues and Decision Memorandum is attached as an appendix to this notice. The Issues and Decision Memorandum is a public document and is on file electronically via ACCESS, which is available to registered users at <https://access.trade.gov>. In addition, complete versions of the Issues and Decision Memorandum can be accessed directly at <https://access.trade.gov/public/FRNoticesListLayout.aspx>.

**Final Results of Sunset Review**

Pursuant to sections 751(c) and 752(b) of the Act, Commerce determines that revocation of the *Order* would be likely to lead to continuation or recurrence of countervailable subsidies at the following net countervailable subsidy rates:

Producers/exporters	Net countervailable subsidy rate (percent <i>ad valorem</i> )
Icdas Celik Enerji Tersanev e Ulasim Sanayi A.S .....	7.71.
Habas Sinai ve Tibbi Gazlar Istihsal Endustrisi .....	Excluded from <i>Order</i> .
All Others .....	6.58.

**Administrative Protective Order (APO)**

This notice also serves as the only reminder to parties subject to an APO of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely notification of the return or destruction of APO materials, or conversion to judicial protective, orders is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

**Notification to Interested Parties**

We are issuing and publishing these final results in accordance with sections 751(c), 752(b), and 777(i)(1) of the Act, and 19 CFR 351.221(c)(5)(ii).

Dated: March 9, 2026.
