

by helping to improve the security of an important partner which is a force for political stability, peace, and economic progress in South America.

The proposed sale will improve Peru's port infrastructure to accommodate current and future naval and logistical operations and requirements. This sale will also provide a safer, more efficient platform for naval operations by reducing civilian-military interactions at the existing facility. Peru will have no difficulty absorbing these articles and services into its armed forces.

The proposed sale of this construction and support will not alter the regional military balance in the region.

The principal contractor or contractors will be determined later from a list of approved vendors, likely through a competitive process. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any

offset agreement will be defined in negotiations between the purchaser and the contractor or contractors.

Implementation of this proposed sale will require the assignment of up to twenty U.S. Government or U.S. contractor representatives to Peru for a duration of up to ten years to provide construction management and oversight.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

*Congress:* January 30, 2026

\* as defined in Section 47(6) of the Arms Export Control Act.

**POLICY JUSTIFICATION**

*Israel—Namer Armored Personnel Carrier Power Packs Less Transmissions and Integrated Logistics Support*

The Government of Israel has requested to buy Namer Armored Personnel Carrier (APC-MT883) Power Packs Less Transmissions (NPPLTs) in full and lite configurations. Also included is an integrated logistics support package that includes special tools for C-Level maintenance and transmission parts; control and diagnostic systems; preservation and packaging; containers; configuration management; technical manuals, spare parts catalogs, other documentation, and publications; U.S. Government and contractor technical assistance and contractor non-recurring engineering (NRE); and other related elements of logistics and program support. The estimated total cost is \$740 million.

This proposed sale will contribute to the foreign policy and national security of the U.S. by helping to improve the security of a strategic regional partner that has been, and continues to be, an important force for political stability and economic progress in the Middle East.

The proposed sale will improve Israel's capability to meet current and future threats by improving its ability to defend its borders, vital infrastructure, and population centers. These power packs will be used on Namer Armored Personnel Carriers (APC-MT883) that were fielded in 2008. Israel will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Rolls-Royce Solutions America, Inc., located in Novi, MI. At this time, the U.S.

Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Israel.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
