

The Act generally covers all Tribal trust funds including judgment funds as well as some settlements funds, but excludes funds held in individual Indian money accounts and other trust funds. Both the Act and the regulations state that upon withdrawal of the funds, the Department of the Interior (and the Federal Government) have no further liability for such funds. Accompanying their application for withdrawal of trust funds, Tribes are required to submit a management plan for managing the funds being withdrawn to protect the funds once they are out of trust status. This information collection allows the BTFAs to collect a Tribe's applications for withdrawal of funds held in trust by the Department of the Interior.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995 (PRA, 44 U.S.C. 3501 *et seq.*) and 5 CFR 1320.8(d)(1), we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's

reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

A **Federal Register** notice with a 60-day public comment period soliciting comments on this collection of information was published on September 22, 2025 (90 FR 45406). We received one comment, available at <https://www.regulations.gov/comment/BIA-2022-0005-0025> with pertinent summary below.

Comment 1: The Navajo Partitioned Lands are tribal lands; therefore, grazing decisions must reflect tribal laws, customs, and governance systems, not unilateral federal control; and require Navajo Nation review and concurrence for all NPL grazing permit decisions; and initiate formal, government-to-government consultation before any approval, implementation, or modification of NPL grazing information collection activities.

Agency Response to Comment 1: The Department is proposing to extend an existing information collection authorized under 25 CFR part 161, to maintain services for (a) individual Navajo Tribal members wanting to obtain or modify a grazing permit and (b) by departments and officials of the Navajo Nation. Under 25 CFR 161.101, unless prohibited by federal law, BIA will recognize and comply with tribal laws regulating activities on the Navajo Partitioned Lands, including tribal laws relating to land use, environmental protection, and historic or cultural preservation.

The Department is not proposing to modify 25 CFR part 161. The following formal, government-to-government consultation occurred under RIN 1076-AE46.

- For 25 CFR part 161, the proposed regulation was published on November 12, 2003 (68 FR 64023) and the final regulation was published October 7, 2005 (70 FR 58882).

- On October 27, 2004, the Navajo Hopi Land Commission, by a 6-0 vote, passed a resolution recommending concurrence in the final regulation. On February 10, 2005, the Navajo Nation Resources Committee, by a 7-0 vote, recommended concurrence, and referred the final regulation to the Navajo Nation Intergovernmental Relations Committee for final concurrence.

- On April 8, 2005, the Navajo Nation Intergovernmental Relations Committee, by an 8-0 vote, passed a resolution concurring in and approving the final regulation.

As part of our continuing effort to reduce paperwork and respondent burdens, we are again soliciting

comments from the public and other Federal agencies on the proposed ICR that is described below. We are especially interested in public comment addressing the following:

(1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;

(2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) How might the agency minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: This information collection is authorized under 25 CFR part 161, which implements the Navajo-Hopi Indian Relocation Amendments Act of 1980, 94 Stat. 929, and the Federal court decisions of *Healing v. Ariz. 1982), and *Hopi Tribe v. Watt*, 719 F.2d 314 (9th Cir. 1983). This information collection allows BIA to receive the information necessary to determine whether an applicant to obtain, modify, or assign a grazing permit on Navajo Partitioned Lands is eligible and complies with all applicable grazing permit requirements. The data is collected by electronic global positioning systems and field office interviews by BIA & Navajo Nation staff. The data is maintained by BIA's Navajo Partitioned Lands office.
