[Docket No. FWS-R4-ES-2026-0232; FXES1114040000-267-FF04AL4000]

General Conservation Plan for the Alabama Beach Mouse; Categorical Exclusion; Baldwin County, AL

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comment.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), announce receipt of an application from each of Kitty Bowden, Tracey Thompson, and Douglas J. Spurling (applicant/applicants) for three separate incidental take permits (ITP) pursuant to the Endangered Species Act (ESA) and the National Environmental Policy Act under the Service's approved General Conservation Plan (GCP) and final environmental impact statement for the Alabama beach mouse. A GCP is a conservation plan under the ESA that enables the programmatic permitting and conservation process to address a defined suite of proposed activities over a defined planning area. Each applicant requests an ITP to take the federally listed Alabama Beach Mouse incidental to the construction of deck additions, a single-family home, and a pool with deck in Baldwin County, Alabama. We request public comment on these applications, which include each applicant's proposed habitat conservation plan (HCP), as well as on the Service's preliminary determination that the proposed permitting action may qualify under the terms of the Alabama beach mouse GCP. We certify that each of the applications received is

statutorily complete and include the necessary information to enroll in the GCP.

SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service (Service), announce receipt of an application under the approved General Conservation Plan (GCP) for the Alabama Beach Mouse from Kitty Bowden, Tracey Thompson, and Douglas J. Spurling for an incidental take permit (ITP) under the Endangered Species Act, as amended (ESA; 16 U.S.C. 1531 *et seq.*). Each applicant requests an ITP to take the federally listed Alabama Beach Mouse (ABM; *Peromyscus polionotus ammobates*). One applicant will take ABM incidental to the construction, maintenance, and operation of a deck and pool addition, one will take ABM due to a deck expansion, and one will take ABM incidental to construction of a single-family home in Baldwin County, Alabama. We request public comment on the applications, on the applicants' HCPs, and on the Service's preliminary determination that the proposed ITPs may qualify for a categorical exclusion under the General Conservation Plan (GCP) and final environmental impact statement (FEIS) for the ABM published on March 28, 2012 (FWS-R4-ES-2012-N063).

Proposed Projects

Permit Number: PER22978544

Kitty Bowden, applicant, requests a 50-year ITP to take ABM via the conversion of 0.007 acres (ac) of occupied nesting, foraging, and sheltering habitat incidental to the construction of a deck expansion to an existing house on a 0.145-ac parcel located at 330 Buchana Ct. West in Gulf Shores, Alabama. The applicant proposes to mitigate for the take of ABM through an in-lieu fee of \$676.20 to the Alabama Coastal Heritage Trust's ABM conservation fund.

Permit Number: PER22254010

Tracey Thompson, applicant, requests a 50-year ITP to take Alabama beach mice via the conversion of 0.056 ac of

occupied nesting, foraging, and sheltering ABM habitat incidental to the construction of a single-family home on a 0.140-ac parcel located at 8400 Zeanah Road in Gulf Shores, Alabama. The applicant proposes to mitigate for the take of ABM through an in-lieu fee of \$5,609.70 to the Alabama Coastal Heritage Trust's ABM conservation fund.

Permit Number: PER23007373

Douglas J. Spurling, applicant, requests transfer and modify an existing 30-year ITP to take Alabama beach mice via the conversion of 0.016 ac of occupied nesting, foraging, and sheltering ABM habitat incidental to the construction of a pool with deck to an existing house on a 0.451-ac lot located at 2177 Ponce de Leon Court, Gulf Shores, Alabama. The applicant proposes to mitigate for the take of ABM through an in-lieu fee of \$1,619.20 to the Alabama Coastal Heritage Trust's ABM conservation fund.

Our Preliminary Determination

The Service has made a preliminary determination that reasonably foreseeable effects of the applicants' proposed projects, including the construction of a deck with a pool and a single-family home and associated infrastructure (e.g., electric, water, and sewer lines), would have a minor effect on ABM and the human environment. Therefore, we have preliminarily determined that the proposed ESA section 10(a)(1)(B) permit would meet the requirements of the GCP and FEIS.

Next Steps

The Service will evaluate the application and the comments to determine whether to issue the requested ITP. We also will conduct an intra-Service consultation pursuant to section 7 of the ESA to evaluate the effects of the proposed take. After considering the preceding and other matters, we will determine whether the permit issuance criteria of section 10(a)(1)(B) of the ESA have been met. If met, the Service will issue ITP number PER22978544 to Kitty P. Bowden, ITP number PER2254010 to Tracey Thompson, and ITP Number PER23007373 to Douglas J. Spurling.
