

Members of the public may request to receive the information in these notices electronically. If you would like to be added to the distribution, please contact the Nuclear Regulatory Commission, Office of the Secretary, Washington, DC 20555, at 301-415-1969, or by email at Betty.Thweatt@nrc.gov or Samantha.Miklaszewski@nrc.gov.

MATTERS TO BE CONSIDERED:

Week of March 23, 2026

There are no meetings scheduled for the week of March 23, 2026.

Week of March 30, 2026—Tentative

There are no meetings scheduled for the week of March 30, 2026.

Week of April 6, 2026—Tentative

There are no meetings scheduled for the week of April 6, 2026.

Week of April 13, 2026—Tentative

There are no meetings scheduled for the week of April 13, 2026.

Week of April 20, 2026—Tentative

Tuesday, April 21, 2026

10:00 a.m. Meeting with the Advisory Committee on the Medical Uses of Isotopes (Public Meeting) (Contact: Ally Mara: 301-415-2509)

Additional Information: The meeting will be held in the Commissioners' Hearing Room, 11555 Rockville Pike, Rockville, Maryland. The public is invited to attend the Commission's meeting in person or watch live via webcast at the Web address—<https://video.nrc.gov/>.

Week of April 27, 2026—Tentative

There are no meetings scheduled for the week of April 27, 2026.

CONTACT PERSON FOR MORE INFORMATION: For more information or to verify the status of meetings, contact Wesley Held at 301-287-3591 or via email at Wesley.Held@nrc.gov.

The NRC is holding the meetings under the authority of the Government in the Sunshine Act, 5 U.S.C. 552b.

Dated: March 18, 2026.

For the Nuclear Regulatory Commission.

Wesley W. Held,

Policy Coordinator, Office of the Secretary.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-261; SEIS-429-00-000-1764730803; NRC-2025-0076]

Duke Energy Progress, LLC; H.B. Robinson Steam Electric Plant, Unit No. 2; Final Environmental Impact Statement

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC, the Commission) has published a final environmental impact statement (EIS), which is a supplement to NUREG-1437 and is issued as "Generic Environmental Impact Statement for License Renewal of Nuclear Plants, Supplement 13, Second Renewal, Regarding Subsequent License Renewal for H.B. Robinson Steam Electric Plant, Unit No. 2, Final Report." This final EIS evaluates the environmental impacts of the proposed subsequent license renewal of Renewed Facility Operating License No. DRP-23 for an additional 20 years of operation for H.B. Robinson Steam Electric Plant, Unit No. 2 (RNP). RNP is located in Darlington County, South Carolina, approximately 5 miles west-northwest of Hartsville, South Carolina.

DATES: "Generic Environmental Impact Statement for License Renewal of Nuclear Plants, Supplement 13, Second Renewal, Regarding Subsequent License Renewal for H.B. Robinson Steam Electric Plant, Unit No. 2, Final Report" is available as of March 12, 2026.

ADDRESSES: Please refer to Docket ID NRC-2025-0076 when contacting the NRC about the availability of information regarding this document. You may obtain publicly available information related to this document using any of the following methods:

- *Federal Rulemaking Website:* Go to <https://www.regulations.gov> and search for Docket ID NRC-2025-0076. Address questions about Docket IDs in *Regulations.gov* to Bridget Curran; telephone: 301-415-1003; email: Bridget.Curran@nrc.gov. For technical questions contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may access publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin ADAMS Public Search." For problems with ADAMS, please contact

the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, at 301-415-4737, or by email to PDR.Resource@nrc.gov. "Generic Environmental Impact Statement for License Renewal of Nuclear Plants, Supplement 13, Second Renewal, Regarding Subsequent License Renewal for H.B. Robinson Steam Electric Plant, Unit No. 2, Final Report" is available in ADAMS under Accession No. ML26062A118.

- *NRC's PDR:* The PDR, where you may examine and order copies of publicly available documents, is open by appointment. To make an appointment to visit the PDR, please send an email to PDR.Resource@nrc.gov or call 1-800-397-4209 or 301-415-4737, between 8 a.m. and 4 p.m. eastern time, Monday through Friday, except Federal holidays.

- *Public Library:* A copy of "Generic Environmental Impact Statement for License Renewal of Nuclear Plants, Supplement 13, Second Renewal, Regarding Subsequent License Renewal for H.B. Robinson Steam Electric Plant, Unit No. 2, Final Report" will be available for public review at the Hartsville Memorial Library, 147 West College Ave., Hartsville, South Carolina 29550.

FOR FURTHER INFORMATION CONTACT: Karen Loomis, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-5142; email: Karen.Loomis@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Background

In accordance with section 51.118 of title 10 of the *Code of Federal Regulations*, "Final environmental impact statement—notice of availability," the NRC is making available for public inspection "Generic Environmental Impact Statement for License Renewal of Nuclear Plants, Supplement 13, Second Renewal, Regarding Subsequent License Renewal for H.B. Robinson Steam Electric Plant, Unit No. 2, Final Report" regarding the proposed subsequent license renewal of Renewed Facility Operating License No. DRP-23 for an additional 20 years of operation for RNP. A notice of availability of the draft EIS was published in the **Federal Register** (FR) on January 9, 2026 (91 FR 1007). The U.S. Environmental Protection Agency also issued its notice of availability of the draft EIS on January 9, 2026 (91 FR 997). The public comment period on the draft EIS ended on February 23, 2026,

and the comments received on the draft EIS are addressed in the final EIS.

II. Discussion

The draft EIS was issued for public comment on January 9, 2026. The final EIS addresses the comments received on the draft EIS. As discussed in Chapter 4 of the final EIS, the NRC staff has determined that the adverse environmental impacts of subsequent license renewal for RNP (*i.e.*, the continued operation of RNP for a period of 20 years beyond the expiration date of the renewed license) are not so great that preserving the option of subsequent license renewal for energy-planning decision-makers would be unreasonable. This recommendation is based on: (1) the analysis and findings in NUREG-1437, Revision 2, "Generic Environmental Impact Statement for License Renewal of Nuclear Plants, Final Report," dated August 2024; (2) information provided in the environmental report, and other documents submitted by Duke Energy Progress, LLC; (3) the NRC staff's consultation with Federal, State, and local governmental agencies and Indian Tribes; (4) the NRC staff's independent environmental review; and (5) the NRC staff's consideration of public comments received during the scoping process and on the draft EIS.

Dated: March 16, 2026.

For the Nuclear Regulatory Commission.

Kimyata Savoy,

Acting Deputy Director, Division of Rulemaking, Environmental, and Financial Support, Office of Nuclear Material Safety, and Safeguards.

BILLING CODE 7590-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-105036; File No. SR-NYSEAMER-2026-17]

Self-Regulatory Organizations; NYSE American LLC; Notice of Filing of Proposed Change To Amend Section 1003 of the NYSE American Company Guide

March 17, 2026.

Pursuant to Section 19(b)(1)¹ of the Securities Exchange Act of 1934 ("Act")² and Rule 19b-4 thereunder,³ notice is hereby given that, on March 6, 2026, NYSE American LLC ("NYSE American" or the "Exchange") filed

with the Securities and Exchange Commission (the "Commission") the proposed rule change as described in Items II and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend Section 1003 of the NYSE American Company Guide (the "Company Guide") to establish that an issuer must maintain a certain market capitalization in order to remain listed on the Exchange. The proposed rule change is available on the Exchange's website at www.nyse.com and at the principal office of the Exchange.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

Section 1003 of the Company Guide sets forth minimum quantitative and qualitative continued listing standards for securities listed on the Exchange. Issuers of common stock are required to maintain certain quantitative minimum standards related to stockholders' equity,⁴ publicly held shares,⁵ public shareholders⁶ and aggregate market value of publicly held shares.⁷ In addition, Section 1003 also sets forth qualitative continued listing standards related to, among other things, operations contrary to public interest⁸ and reduction of operations.⁹

While the Exchange believes that its existing rules provide meaningful assurance that only financially sound and quality issuers remain listed on the Exchange, it has noticed a recent increase in companies that have a very small market capitalization. The Exchange believes that an issuer having a small market capitalization is potentially susceptible to manipulation and more likely to experience trading volatility in its shares because, at smaller sizes, less capital is required to undertake manipulative trading activity. As such, the Exchange now proposes to amend Section 1003 to specify that an issuer must maintain a certain market capitalization in order to remain listed on the Exchange.

Minimum Market Capitalization

Section 1003(b)(i) of the Company Guide enumerates circumstances where a class of common stock has sufficiently limited distribution of shares so as to warrant suspension and delisting. While reduced value of publicly held shares is grounds for suspension and delisting,¹⁰ Section 1003(b)(i) does not contain a minimum market capitalization requirement. The Exchange now proposes to adopt new Section 1003(b)(i)(D) to specify that an issuer's class of common stock will be subject to immediate suspension and delisting if it has an average market capitalization over a consecutive 30 trading-day period of less than \$5,000,000.¹¹ The Exchange further proposes that an issuer falling below this standard will not be eligible to submit a compliance plan pursuant to Section 1009 of the Company Guide.

The Exchange believes it is appropriate to adopt a minimum market capitalization standard for continued listing because, in its experience, a company with a sustained market capitalization below \$5,000,000 is likely to be financially distressed and is increasingly susceptible to manipulation due to its small size. In

¹⁰ Section 1003(b)(i)(C) states that a class of common stock will be subject to suspension and delisting if its aggregate market value of shares publicly held is less than \$1,000,000 for more than 90 consecutive days.

¹¹ The footnote to Section 1003 specifies how a company's market capitalization is calculated for purposes of the requirements contained in Section 1003. The Exchange notes that the New York Stock Exchange ("NYSE") has a comparable requirement contained in Section 802.01B of the NYSE Listed Company Manual where it will delist a security that is determined to have average global market capitalization over a consecutive 30 trading-day period of less than \$15,000,000. Given that issuers listed on the Exchange tend to be smaller than those listed on the NYSE, the Exchange believes it is appropriate to establish a lower minimum market capitalization threshold of \$5,000,000.
