**SUPPLEMENTARY INFORMATION:** The CAS Board is issuing this notice to inform the public of the discussion topics for meetings held on November 20, 2025, December 18, 2025, and January 29, 2026, and for upcoming monthly meetings scheduled for February, and March 2026. #### Agenda for CAS Board Meetings During the First and Second Quarter, Fiscal Year 2026

1. *Conformance of Cost Accounting Standards (CAS) to Generally Accepted Accounting Principles (GAAP).* 41 U.S.C. 1501(c)(2) requires the CAS Board to review and conform CAS, where practicable, to GAAP. The CAS Board will review and discuss public comments received to the proposed rules to eliminate CAS 404, 408, 409, and 411 (90 FR 43994) and issuance of a final rule. The CAS Board will also discuss recently opened cases related to CAS 407, 415 and 416: the three remaining standards that the Board identified in its 2018 Staff Discussion Paper (84 FR 9143) on CAS-GAAP Harmonization as suitable for conformance. The CAS Board has significantly accelerated work on conformance, in furtherance of the Administration's prioritization on deregulation and reducing unnecessary transaction costs for contracting parties.

2. *Regulatory CAS Thresholds and application of CAS to Indefinite Delivery Contracts.* The CAS Board will discuss proposed rulemaking to increase the current regulatory threshold for full CAS coverage, which is \$50 million (48 CFR 9903.201-2), and the threshold for disclosure requirements, which is \$50 million (48 CFR 9903.202-1.), and to address the application of CAS to indefinite delivery contracts considering public comments received from the Staff Discussion Paper (85 FR 51491) on that topic.

3. *Cost impact of accounting changes.* The CAS Board will continue discussions on the current handling of cost impact in Part 30 of the Federal Acquisition Regulation (FAR), including the need for additional clarity of the meaning of increased costs in the aggregate, as that language is used in 41 U.S.C 1503(b), and the handling of cost impacts for unilateral cost accounting practice changes. The Board expects coverage on cost impact of accounting changes to be removed from the FAR by rulemaking and addressed in CAS through rulemaking by the CAS Board.

4. *Pension Harmonization for Extraordinary Events.* The CAS Board will discuss an ANPRM to modify CAS 412 and CAS 413. The ANPRM would be a follow-on to rulemaking issued in 2011 required by the Pension Protection Act (PPA) of 2006. The purpose of the ANPRM is to reconcile the application of the PPA and the CAS adjustment of pension costs for extraordinary events (*i.e.*, curtailment of pension plan benefits, termination of plans, and the accounting of pension plan assets or liabilities following the sale or closing of a corporate segment).

5. *Review of Court and Board Decisions Related to CAS.* 41 U.S.C 1501(c)(3) requires the CAS Board to annually review disputes brought before the Boards of Contract Appeals (BCAs) or Federal courts involving its standards and consider whether greater clarity in CAS could avoid such disputes. The CAS Board will discuss decisions by the BCAs and Courts involving its standards since the last review conducted in 2024.

This notice is published pursuant to 41 U.S.C. 1501(d), which requires the CAS Board to publish agendas of its meetings in the **Federal Register**.

#### SUPPLEMENTARY INFORMATION:

##### I. Background

In accordance with section 51.118 of title 10 of the *Code of Federal Regulations*, “Final environmental impact statement—notice of availability,” the NRC is making available to the public “Generic Environmental Impact Statement for License Renewal of Nuclear Plants, Supplement 11, Second Renewal, Regarding Subsequent License Renewal for St. Lucie Plant, Units 1 and 2, Final Report” regarding the proposed SLR of Renewed Facility Operating License Nos. DPR–67 and NPF–16 for St. Lucie, Units 1 and 2, respectively, for an additional 20 years of operation. A notice of availability of the draft EIS was published in the **Federal Register** (FR) on January 9, 2026 (91 FR 1005). The U.S. Environmental Protection Agency also issued its notice of availability of the draft EIS on January 9, 2026 (91 FR 997). The public comment period on the draft EIS ended on February 23, 2026, and the comments received on the draft EIS are addressed in the final EIS.

##### II. Discussion

The draft EIS was issued in December 2025. The final EIS addresses the comments received on the draft EIS. As discussed in Chapter 4 of the final EIS, the NRC staff has determined that the adverse environmental impacts of SLR for St. Lucie (*i.e.*, the continued operation of St. Lucie for a period of 20 years beyond the expiration dates of the renewed facility operating licenses) are not so great that preserving the option of SLR for energy-planning decision-makers would be unreasonable.
