ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA-R01-OAR-2025-1741; FRL- 13115-02-R1]

Air Plan Approval; New Hampshire; Single Source VOC RACT Order for Hutchinson Sealing Systems

AGENCY: Environmental Protection Agency (EPA).
ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is approving a State Implementation Plan (SIP) revision submitted by the State of New Hampshire. This revision approves of a revised reasonably available control technology (RACT) order for Hutchinson Sealing Systems, located in Newfields, New Hampshire. This action is being taken in accordance with the Clean Air Act.

DATES: This rule is effective on April 22, 2026.

ADDRESSES: EPA has established a docket for this action under Docket Identification No. EPA-R01-OAR-2025-1741. All documents in the docket are listed on the <https://www.regulations.gov> website. Although listed in the index, some information is not publicly available, *i.e.*, CBI or other

information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. Publicly available docket materials are available at <https://www.regulations.gov> or at the U.S. Environmental Protection Agency, EPA Region 1 Regional Office, Air and Radiation Division, 5 Post Office Square—Suite 100, Boston, MA. EPA requests that if at all possible, you contact the contact listed in the **FOR FURTHER INFORMATION CONTACT** section to schedule your inspection.

FOR FURTHER INFORMATION CONTACT: Meredith Gutierrez, Energy and Resilience Branch (ERB), Air and Radiation Division (ARD) (Mail Code 5-MD), U.S. Environmental Protection Agency, Region 1, 5 Post Office Square, Suite 100, Boston, Massachusetts, 02109-3912; telephone: (617) 918-1193; email: gutierrez.meredith@epa.gov.

SUPPLEMENTARY INFORMATION: Throughout this document whenever “we,” “us,” or “our” is used, we mean EPA.

Table of Contents

- I. Background and Purpose
- II. Final Action
- III. Incorporation by Reference
- IV. Statutory and Executive Order Reviews

I. Background and Purpose

On December 11, 2025 (90 FR 57416), EPA published a Notice of Proposed Rulemaking (NPRM) for the State of New Hampshire. The NPRM proposed

approval of revised RACT Order ARD-11-001 for Hutchinson Sealing Systems, Inc., located in Newfields, New Hampshire. The formal SIP revision was submitted by New Hampshire on April 17, 2025.

Other specific requirements of New Hampshire’s RACT order and the rationale for EPA’s proposed action are explained in the NPRM and will not be restated here. No public comments were received on the NPRM.

II. Final Action

EPA is approving revised RACT Order ARD-11-001 for Hutchinson Sealing Systems as a revision to the New Hampshire SIP.

III. Incorporation by Reference

In this rule, the EPA is finalizing regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, the EPA is finalizing the incorporation by reference of the RACT Order ARD-11-001 dated April 17, 2025, issued by the New Hampshire DES to Hutchinson Sealing Systems as set forth below in the amendments to 40 CFR part 52. Amended RACT Order ARD-11-001 dated January 24, 2025, maintains the previously established limits of volatile organic compound content in motor vehicle weatherstrip adhesive coatings produced by Hutchinson Sealing Systems. The EPA has made, and will continue to make, these documents generally available through <https://www.regulations.gov> and at the EPA Region 1 Office (please

contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section of this preamble for more information). Therefore, these materials have been approved by EPA for inclusion in the State implementation plan, have been incorporated by reference by EPA into that plan, are fully federally enforceable under sections 110 and 113 of the CAA as of the effective date of the final rulemaking of EPA's approval, and will be incorporated by reference in the next update to the SIP compilation.¹

IV. Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Clean Air Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993);
- Is not subject to Executive Order 14192 (90 FR 9065, February 6, 2025) because SIP actions are exempt from review under Executive Order 12866;
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a

substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);

- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);
 - Does not have federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
 - Is not subject to Executive Order 13045 (62 FR 19885, April 23, 1997) because it approves a state program;
 - Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001); and
 - Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act.
- In addition, the SIP is not approved to apply on any Indian reservation land or in any other area where EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. Section 804, however, exempts from section 801 the following types of rules: rules of

particular applicability; rules relating to agency management or personnel; and rules of agency organization, procedure, or practice that do not substantially affect the rights or obligations of non-agency parties. 5 U.S.C. 804(3). Because this is a rule of particular applicability, EPA is not required to submit a rule report regarding this action under section 801.

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Incorporation by reference, Intergovernmental relations, Ozone, Reporting and recordkeeping requirements, Volatile organic compounds.

Authority: 42 U.S.C. 7401 *et seq.*

Dated: March 11, 2026.

Mark Sanborn,

Regional Administrator, EPA Region 1.

For the reasons stated in the preamble the Environmental Protection Agency amends part 52 of chapter I, title 40 of the Code of Federal Regulations to read as follows:

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

- 1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart EE—New Hampshire

- 2. In § 52.1520(d), amend the table by revising the entry “Hutchinson Sealing Systems” to read as follows:

§ 52.1520 Identification of plan.

ENVIRONMENTAL PROTECTION AGENCY**40 CFR Part 52**

[EPA-R05-OAR-2025-0232; FRL-12930-02-R5]

Air Plan Approval; Ohio; Volatile Organic Compounds RFD Beaufort**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is approving a May 2, 2025, State Implementation Plan (SIP) submittal from the Ohio Environmental Protection Agency (Ohio EPA). The SIP submittal consists of an alternate control technology emission limit of 5.9 pounds of volatile organic compounds per gallon (lbs. VOC/gallon) for RFD Beaufort, Inc.'s life raft manufacturing plant at 1420 Wolf Creek Trail, Wadsworth, Ohio. This limit applies to the facility's nylon reinforced polyurethane adhesive process. The limitation is established through the Ohio SIP for control of emissions of volatile organic compounds (VOCs) from stationary sources and is listed as an enforceable condition in the facility's operating permit, issued by Ohio EPA on March 25, 2025.

DATES: This final rule is effective on April 22, 2026.

ADDRESSES: The EPA has established a docket for this action under Docket ID No. EPA-R05-OAR-2025-0232. All documents in the docket are listed on the <https://www.regulations.gov> website. Although listed in the index, some information is not publicly available, *i.e.*, Confidential Business Information (CBI), Proprietary Business Information (PBI), or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. Publicly available docket materials are available either through <https://www.regulations.gov> or at the Environmental Protection Agency, Region 5, Air and Radiation Division, 77 West Jackson Boulevard Chicago, Illinois 60604. This facility is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding Federal holidays. We recommend that you telephone Tyler Salamasick, at (312) 886-6206 before visiting the Region 5 office.

FOR FURTHER INFORMATION CONTACT:

Tyler Salamasick, Air and Radiation Division (AR18), Environmental Protection Agency, Region 5, 77 West Jackson Boulevard Chicago, Illinois 60604, telephone number: (312) 886-6206, email address: salamasick.tyler@epa.gov.

SUPPLEMENTARY INFORMATION:

Throughout this document whenever "we," "us," or "our" is used, we mean the EPA.

I. Background Information

On September 25, 2025 (90 FR 46120), the EPA proposed to approve a SIP submittal from the Ohio EPA. The SIP submittal consists of an alternate control technology emission limit of 5.9 lbs. VOC/gallon for RFD Beaufort, Inc.'s life raft manufacturing plant at 1420 Wolf Creek Trail, Wadsworth, Ohio. This limit applies to the facility's nylon reinforced polyurethane adhesive process. An explanation of the Clean Air Act requirements, a detailed analysis of the revisions, and the EPA's reasons for proposing approval were provided in the notice of proposed rulemaking (NPRM) and will not be restated here. The public comment period for this proposed rule ended on October 27, 2025.

During the comment period, the EPA received comments from one commenter regarding the Regulatory Flexibility Act (RFA), the Paperwork Reduction Act (PRA) and materials incorporated by reference. The comments are included in the docket for this action.

These comments were in regard to the EPA procedures and not the substance of the NPRM. None of the comments address a specific regulation or provision in question. We are finalizing our action as proposed.

II. Response to Comments

The commenter requested the EPA withdraw the direct final rule and provide an additional 30 days of public comment period. The EPA had published a proposed rule, not a direct final rule. The proposed rule included a comment period.

The commenter also made arguments regarding the applicability of the RFA and the PRA. The RFA and PRA are not applicable to the rulemaking because this rule will not have a significant economic impact on a substantial number of small entities. The regulatory analysis provisions of the RFA are only triggered by a threshold determination by the Agency that the rule will have a significant economic impact on a substantial number of small entities.

This rulemaking does not impose any regulatory requirements beyond those imposed by State law.

The EPA has complied with the PRA by certifying in the rule that the PRA does not apply because the action does not involve an information collection burden as defined by the Clean Air Act. Specifically, the EPA is not posing identical questions or imposing identical reporting and recordkeeping requirements on "ten or more persons." See 40 CFR 1320.3(c).

The commenter requested that the EPA include the documents that are being incorporated by reference in the docket. The EPA provided those materials during the proposed rulemaking in docket EPA-R05-OAR-2025-0232 on <https://www.regulations.gov>.

III. What action is the EPA taking?

The EPA is approving the alternative emissions limitation for Emission Unit Group 1: R001, R002, R003, R004, R005, R006, R007, R008, R009, R010 by approving permit conditions C.1.b)(1)c. and C.1.b)(2)c. into the Ohio SIP as listed in the March 25, 2025, final permit to install and operate (P0127562).

IV. Incorporation by Reference

In this rule, the EPA is finalizing regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, the EPA is finalizing the incorporation by reference of the Ohio permit conditions in section III of this preamble and set forth in the amendments to 40 CFR part 52 below. The EPA has made, and will continue to make, these documents generally available through <https://www.regulations.gov>, and at the EPA Region 5 Office (please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section of this preamble for more information). Therefore, these materials have been approved by the EPA for inclusion in the SIP, have been incorporated by reference by the EPA into that plan, are fully federally enforceable under sections 110 and 113 of the Clean Air Act as of the effective date of the final rulemaking of the EPA's approval, and will be incorporated by reference in the next update to the SIP compilation.¹

V. Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the

¹ 62 FR 27968 (May 22, 1997).
