Title: National Culvert Removal, Replacement, and Restoration Grant Program (Culvert AOP).

Background: FHWA administers the Culvert AOP. It was established by Infrastructure Investment and Jobs Act (IIJA) in section 21203 of IJA and codified at 49 U.S.C. 6703. The Culvert AOP Program prioritizes projects that would improve fish passage for: (A) anadromous fish stocks listed as an endangered species or a threatened species under section 4 of the Endangered Species Act of 1973 (16 U.S.C. 1533); (B) anadromous fish stocks identified by the National Marine Fisheries Service (NMFS) or the U.S. Fish and Wildlife Service (USFWS) that could reasonably become listed as an endangered species or a threatened species under that section; (C) anadromous fish stocks identified by the NMFS or the USFWS as prey for endangered species, threatened species, or protected species, including Southern resident orcas (*Orcinus orca*); or (D) anadromous fish stocks identified by the NMFS or the USFWS as climate resilient stocks. 49 U.S.C. 6703(e)(1). The program also prioritizes projects that would open more than 200 meters of upstream habitat for anadromous fish before the end of the natural habitat. Under IIJA, Congress authorized \$1

billion for Fiscal Years (FY) 2022 through 2026 to provide financial assistance to Culvert AOP Program eligible projects. In 2022, FHWA awarded \$196 million in grants to 59 tribal, state and local governments to fix or remove 169 culvert barriers to improve fish passage.

Respondents: The NOFO announcing up to \$784 million of Fiscal Year (FY) 2023, 2024, 2025, and 2026, funding for Culvert AOP competitive grants will be available for tribal, state, and local governments on *grants.gov*. FHWA is expecting roughly 200 applicants to apply for Culvert AOP grant funding.

Frequency: NOFOs and grant solicitations may be published annually by FHWA but are subject to the availability of funds in appropriations or any legislation signed into law authorizing funds.

Estimated Average Burden per Response: The burden per response varies depending on the phase of the Culvert AOP program. The application phase will take approximately 20 hours per respondent. The grant agreement and project management phase will take approximately 2 hours per phase.

Estimated Total Annual Burden Hours: Approximately 5,150 total annual burden hours.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for the FHWA's performance;

(2) the accuracy of the estimated burdens; (3) ways for the FHWA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized, including the use of electronic technology, without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. chapter 35, as amended; and 49 CFR 1.48.

Issued on: March 23, 2026.

Jazmyne Lewis,

Information Collection Officer.
