**Abstract:** The TSCA amendments of June 22, 2016, known as the Frank R. Lautenberg Chemical Safety for the 21st Century Act, expanded the categories of people to whom EPA may disclose TSCA confidential business information (CBI). The amendments authorize EPA to disclose TSCA CBI to state, tribal, and local governments; environmental, health, and medical professionals; and emergency responders, under certain conditions, including consistency with guidance that EPA is required to develop. Three guidance documents were developed, corresponding to the new authorities in TSCA section 14(d)(4), (5), and (6). The conditions for access vary under each of the provisions, but generally include the following: requesters must show that they have a need for the information related to their employment, professional, or legal duties; recipients of TSCA CBI are prohibited from disclosing or permitting further disclosure of the information to individuals not authorized to receive it (physicians/nurses may disclose the

information to their patient); and except in emergency situations EPA must notify the entity that made the CBI claim at least 15 days prior to disclosing the CBI. In addition, under these new provisions, requesters (except in some emergency situations) are required to sign an agreement and may be required to submit a statement of need to EPA. In accordance with the requirements of TSCA section 14(c)(4)(B), the guidance documents cover the content and form of the agreements and statements required under each provision and include information on where and how to submit requests to EPA.
