

students attending schools across the state. As the WDPI is not an eligible grant recipient, we are unable to provide feedback on the agency's estimated burden for this information collection or on the validity of the methodology and assumptions used. The WDPI views the proposed information collection as a valuable resource for Tribal education departments of Wisconsin and across the United States. However, gathering this data efficiently can be challenging. Simplifying data entry portals or sites to be clear, straightforward, and user-friendly could help streamline the data collection process.

Agency Response to Comment 1: The BIE is committed to process improvement; and will continue to work with stakeholders, and interested parties, to refine and improve this information collection, within the bounds of available and appropriate technological resources.

As part of our continuing effort to reduce paperwork and respondent burdens, we are again soliciting comments from the public and other Federal agencies on the proposed ICR that is described below. We are especially interested in public comment addressing the following:

(1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;

(2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) How might the agency minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: The Youth Conservation Corps (YCC) is a summer youth employment program that engages young people in meaningful work experiences at national parks, forests, wildlife refuges, and fish hatcheries while developing an ethic of environmental stewardship and civic responsibility. SUPPLEMENTARY INFORMATION:

Background.—In November 2024, the Commission determined that an industry in the United States was materially injured by reason of imports of aluminum lithographic printing plates from China and Japan that were sold in the United States at less than fair value and subsidized by the government of China. *Aluminum Lithographic Printing Plates from China and Japan*, Inv. Nos. 701–TA–694 and 731–TA–1641–1642 (Final), USITC Pub. No. 5559 (Nov. 2024). Respondents Fujifilm North America Corporation, Fujifilm Corporation, and Fujifilm Printing Plate (China) Co. Ltd. contested the Commission’s determinations before the U.S. Court of International Trade (“CIT”). The CIT remanded for the Commission to reconsider “whether {Fujifilm Manufacturing USA, Inc. (“Fujifilm Greenwood”)} is a related party,” discussing “the four factors in 19 U.S.C. 1677(4)(B)(ii),” and whether “appropriate circumstances exist to exclude Fujifilm Greenwood from the domestic industry,” addressing “how the instant facts are an ‘appropriate’ case for excluding a related party in light of the example provided in the legislative history” *Fujifilm N. Am. Corp. v. United States*, Court No. 24–00251, Slip Op. 26–17 (Ct. Int’l Trade Feb. 18, 2026).
