The Council will then receive a report from the Monkfish and Skate Coordinated Committee. The report will include review and potential approval of a scoping document and schedule for a potential individual fishing quota program for the monkfish and/or skate wing fisheries, as well as a white paper summarizing coordinated monkfish and skate activities in 2025. The Council will also receive a presentation from the Woods Hole Oceanographic Institution on the Locking Away Carbon on the Northeast Shelf and Slope project. The Council will adjourn for the day at approximately 5 p.m., followed by a public outreach event in the hotel, to foster open communication among meeting attendees.

The day will conclude with an open period for public comment on Council issues not otherwise listed on the agenda.

Thursday, April 16, 2026

On the final day, the Council will receive a report from the Groundfish Committee on the Redfish Exemption Program Review draft report. Then the Council will then receive an update from the NEFSC on fishery-independent surveys, including the 2025 and 2026

Next, the Council will receive a Council planning update from the Executive Director covering the status of fishery management plan updates, Council priorities, Inflation Reduction Act initiatives, and other ongoing activities. The Council will address other business before adjourning the meeting at approximately 12 p.m.

Although non-emergency issues not contained on this agenda may come before the Council for discussion, those issues may not be the subject of formal action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the Council's intent to take final action to address the emergency.
