SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501-3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. The term "collection of information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3506(c)(2)(A)) requires federal agencies to publish a 30-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension or reinstatement of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, CMS is publishing this notice that summarizes the following proposed collection(s) of information for public comment.

Issuers can offer individual and small group market plans outside of the Exchanges that are not QHPs.

Issuers can offer individual and small group market plans outside of the Exchanges that are not QHPs. Such plans are referred to in this document as “non-Exchange.” For the risk adjustment program, administrative information is used to identify all non-grandfathered small group and individual market non-Exchange plan offerings eligible for the program. This information collection request serves as a formal request for the revision of the data collection clearance. We intend to use the instruments in this information collection for the 2025 certification process and beyond, and believe that providing these instruments now will give issuers and other stakeholders more opportunity to familiarize themselves with the instruments before releasing the 2025 application. While we intend to use these instruments in 2025, we may propose further revisions to this data collection in the future as necessary which will include seeking comments through the full 60-day and 30-day public comment periods. *Form Number:* CMS-10433 (OMB control number: 0938-1187); *Frequency:* Annually; *Affected Public:* Private Sector—Business or other for-profits; State, Local, or Tribal Governments; *Number of Respondents:* 1,073; *Number of Responses:* 1,073; *Total Annual Hours:* 61,154. DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

[Office of Management and Budget (OMB) #: 0970-0248]

Submission for OMB Review; Annual Report on Temporary Assistance for Needy Families Programs and State Maintenance-of-Effort Programs—ACF-204 (Annual TANF and MOE Report)

AGENCY: Office of Family Assistance, Administration for Children and Families, U.S. Department of Health and Human Services.

ACTION: Request for public comments.

SUMMARY: The Administration for Children and Families (ACF) is requesting a 3-year extension of the ACF-204: Annual Temporary Assistance for Needy Families (TANF) and State Maintenance-of-Effort (MOE) Report (Office of Management and Budget #0970-0248, expiration March 31, 2026). There are no substantive changes requested to the form, but instructions have been updated, and burden estimates adjusted.

DATES: *Comments due* April 27, 2026.

ADDRESSES: The public may view and comment on this information collection request at: https://www.reginfo.gov/public/do/PRAViewICR?ref_nbr=202603-0970-007. You can also obtain copies of the proposed collection of information by emailing infocollection@acf.hhs.gov. Identify all emailed requests by the title of the information collection.

SUPPLEMENTARY INFORMATION:

Description: The Annual TANF and MOE Report is used to collect descriptive program characteristics information on the programs operated by states and territories in association with their TANF programs. All state and territory expenditures claimed toward states and territories MOE requirements must be appropriate, *i.e.*, meet all applicable MOE requirements. The Annual TANF and MOE Report provides the ability to learn about and to monitor the nature of state and

territory expenditures used to meet states and territories MOE requirements, and it is an important source of information about the different ways that states and territories are using their resources to help families attain and maintain self-sufficiency. In addition, the report is used to obtain state and territory program characteristics for ACF's annual report to Congress, and the report serves as a useful resource to use in Congressional hearings about how TANF programs are evolving, in assessing state and territory MOE expenditures, and in assessing the need for legislative changes. This information collection will support administration and agency priorities to enhance oversight mechanisms and reinforce accountability across programs. Further, this information collection addresses a recommendation issued by the U.S. Government Accountability Office (GAO) in its final report, GAO-25-107235, that the Secretary of the Department of Health and Human Services should ensure ACF conducts a review of all TANF reporting requirements and forms and make appropriate changes within its statutory authority to enhance reporting for oversight of TANF funds. The Annual TANF and MOE Report requires states to relate each TANF and MOE benefit or service program to the third and fourth statutory purposes of TANF, which is responsive to GAO's recommendation and aligns with the agency's values of program integrity and fiscal stewardship. This request includes clarifications within instructions, a reduction in burden hours, and a change in collection title to better reflect the content of the collection.

Respondents: The 50 states of the U.S., the District of Columbia, Guam, Puerto Rico, and the Virgin Islands.

Annual Burden Estimates

ACF proposes a 32 percent reduction in estimated average time per response to reflect the intent of existing regulations. 45 CFR 265.9(d) indicates that states that have already incorporated the information required in their TANF State Plan may meet the annual reporting requirements by reference in lieu of completing a re-submission of a particular data element. If the information in the annual report has not changed since the previous annual report, the state may reference this information in lieu of re-submission of a particular data element. Instructions have been updated to make clear both opportunities to reference in lieu of re-submission.
