

reference staff at 1-800-397-4209, at 301-415-4737, or by email to PDR.Resource@nrc.gov. The draft EIS is available in ADAMS under Accession No. ML26061A085.

- *NRC's PDR*: The PDR, where you may examine and order copies of publicly available documents, is open by appointment. To make an appointment to visit the PDR, please send an email to PDR.Resource@nrc.gov or call 1-800-397-4209 or 301-415-4737, between 8 a.m. and 4 p.m. eastern time (ET), Monday through Friday, except Federal holidays.

- *Public Library*: A copy of the draft EIS will be available for public review at the McCracken County Public Library, 555 Washington St., Paducah, KY 42003.

B. Submitting Comments

The NRC encourages electronic comment submission through the Federal Rulemaking website (<https://www.regulations.gov>). Please include Docket ID NRC-2025-1007 in your comment submission.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at <https://www.regulations.gov> as well as enter the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Discussion

The NRC has prepared a draft EIS as part of its environmental review of GLE's application for a license to construct and operate a uranium enrichment facility on a 322-acre greenfield site in McCracken County, Kentucky. This draft EIS assesses the potential environmental impacts of the GLE license application and the associated proposal to construct, operate, and decommission the enrichment facility, as well as the no-action alternative to the proposed action (*i.e.*, denying the license application).

The proposed Federal action is the issuance of a license that would authorize GLE to receive title to, own, acquire, receive, possess, use, transfer, and/or deliver source material, special nuclear material, and byproduct material as specified in the license for the purposes of constructing, and then operating for up to 40 years, a facility that uses laser-based isotope separation technology to enrich uranium. The facility would be authorized to re-enrich depleted uranium hexafluoride (DUF₆) tails to natural levels and enrich natural-grade UF₆ up to 8 percent uranium-235 (U-235) by weight.

The draft EIS contains the NRC staff's preliminary analysis of the environmental impacts of the proposed action and the no-action alternative to the proposed action. The draft EIS also contains the NRC staff's preliminary recommendation on the proposed action, which is based on the following factors:

- The NRC staff's review of GLE's environmental report (included as part of the GLE license application) and associated responses from GLE to requests from the NRC staff for clarifying information;
- The NRC staff's review of comments received as part of the scoping process;
- The NRC staff's communications with Federal, State, and local agencies, as well as Tribal officials; and
- The NRC staff's independent environmental review.

The NRC staff's preliminary recommendation, unless safety issues mandate otherwise, is that the NRC issue the license to construct and operate the proposed enrichment facility to GLE.

Dated: March 24, 2026.

For the Nuclear Regulatory Commission.

Robert Sun,

Chief, Environmental Project Management Branch 2, Division of Rulemaking, Environmental, and Financial Support, Office of Nuclear Material Safety, and Safeguards.

NUCLEAR REGULATORY COMMISSION

[NRC-2026-0001]

Sunshine Act Meetings

TIME AND DATE: Week of March 23, 2026.

PLACE: Via Teleconference.

STATUS: Open.

MATTERS TO BE CONSIDERED:

Week of March 23, 2026

Wednesday, March 25, 2026.

3:30 p.m. Affirmation Session (Public Meeting) (Tentative)

(a) *Final Rule:* Categorical Exclusions from Environmental Review (Tentative)

(b) *Final Rule:* Risk-Informed, Technology-Inclusive Regulatory Framework for Advanced Reactors (Tentative) (Contact: Wesley Held: 301-287-3591)

ADDITIONAL INFORMATION: By a vote of 5-0 on March 25, 2026, the Commission determined pursuant to 5 U.S.C. 552b(e)(1) and 10 CFR 9.107 that this item be affirmed with less than one week notice to the public. The item will be affirmed in the meeting being held on March 25, 2026. The public is invited to attend the Commission's meeting live; via teleconference. Details for joining the teleconference in listen only mode can be found at <https://www.nrc.gov/pmns/mtg>.

CONTACT PERSON FOR MORE INFORMATION:

For more information or to verify the status of meetings, contact Wesley Held at 301-287-3591 or via email at Wesley.Held@nrc.gov. The schedule for Commission meetings is subject to change on short notice.

The NRC Commission Meeting Schedule can be found on the internet at: <https://www.nrc.gov/public-involve/public-meetings/schedule.html>.

The NRC provides reasonable accommodation to individuals with disabilities where appropriate. If you need a reasonable accommodation to participate in these public meetings or need this meeting notice or the transcript or other information from the public meetings in another format (*e.g.*, braille, large print), please contact the Reasonable Accommodations Resource by email at Reasonable_Accommodations.Resource@nrc.gov. Determinations on requests for reasonable accommodation will be made on a case-by-case basis.

Members of the public may request to receive this information electronically. If you would like to be added to the distribution, please contact the Nuclear Regulatory Commission, Office of the Secretary, Washington, DC 20555, at 301-415-1969, or by email at Betty.Thweatt@nrc.gov or Samantha.Miklaszewski@nrc.gov.

The NRC is holding the meetings under the authority of the Government in the Sunshine Act, 5 U.S.C. 552b.

Dated: March 25, 2026.

For the Nuclear Regulatory Commission.
Wesley W. Held,
 Policy Coordinator, Office of the Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-105071; File No. SR-
 NYSEAMER-2026-22]

Self-Regulatory Organizations; NYSE American LLC; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Adopt a New Methodology for Assessment and Collection of the Options Regulatory Fee (ORF)

March 24, 2026.

Pursuant to Section 19(b)(1)¹ of the Securities Exchange Act of 1934 (the “Act”),² and Rule 19b-4 thereunder,³ notice is hereby given that on March 16, 2026, NYSE American LLC (“NYSE American” or the “Exchange”) filed with the Securities and Exchange Commission (the “Commission”) a proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend the NYSE American Options Fee Schedule (“Fee Schedule”) regarding the Options Regulatory Fee (“ORF”). The proposed rule change is available on the Exchange’s website at www.nyse.com and at the principal office of the Exchange.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend the Fee Schedule⁴ to amend its methodology of assessment and collection of the ORF to assess ORF only for options transactions that occur on the Exchange and that are cleared in the Customer range at The Options Clearing Corporation (“OCC”), in alignment with new ORF methodology proposed by other options exchanges.⁵ Consistent with that methodology, the Exchange intends to collect ORF under its current methodology until at least June 30, 2026. The Exchange is prepared to implement the new ORF methodology, as proposed in this filing, effective July 1, 2026, provided that all U.S. options exchanges charging an ORF have filed to modify their current methodologies of assessing ORF to limit the fee to transactions occurring on their respective exchange by April 1, 2026.⁶ If all other options exchanges have not filed to adopt a similar methodology by such date, the Exchange will delay implementation commensurate with the additional time required for other options exchanges to adopt a similar method for collection and assessment of ORF (and will continue collecting ORF under its current methodology until such time that the new ORF methodology is implemented).⁷ In this

⁴ The Exchange previously filed to amend the Fee Schedule on March 2, 2026 (SR-NYSEAMER-2026-16) and withdrew such filing on March 16, 2026.

⁵ See, e.g., Securities Exchange Act Release No. 103558 (July 28, 2025), 90 FR 36080 (July 31, 2025) (SR-ISE-2025-20) (Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Amend the Methodology for Its Options Regulatory Fee (ORF) as of January 2, 2026); 104417 (December 17, 2025) (SR-CBOE-2025-086) (Notice of Filing and Immediate Effectiveness of a Proposed Rule Change to Adopt a New Methodology for Assessment and Collection of the Options Regulatory Fee (ORF)); 104707 (January 28, 2026), 90 FR 4754 (February 2, 2026) (SR-MIAX-2026-01) (Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Adopt a New Methodology for Assessment and Collection of the Options Regulatory Fee (ORF)); 104745 (January 29, 2026), 90 FR 4985 (February 3, 2026) (SR-MEMX-2026-02) (Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Amend the Exchange’s Fee Schedule To Adopt a New Methodology for Assessment and Collection of the Options Regulatory Fee (ORF)).

⁶ The Exchange notes that, as of the date of this filing, all U.S. options exchanges have filed proposed rule changes to adopt similar new ORF methodology.

⁷ The Exchange may also delay implementation if certain currently unresolved operational issues remain so and impact the industry’s ability to transition to the new methodology on July 1, 2026, commensurate with any additional time required to resolve such issues (and will continue collecting

filing, the Exchange proposes only to amend the method by which it will assess and collect ORF as of July 1, 2026. The Exchange will file a separate rule filing with the ORF rate that would take effect on July 1, 2026, in advance of assessing and collecting ORF under the new methodology. As is the case today, the Exchange will provide at least 30 days’ notice of the applicable rate by Trader Update.

Background

As a general matter, the Exchange may only use regulatory funds such as the ORF “to fund the legal, regulatory, and surveillance operations” of the Exchange.⁸ More specifically, the ORF is designed to recover a material portion, but not all, of the Exchange’s costs for the supervision and regulation of ATP Holders’ Customer options business, including the Exchange’s regulatory program and legal expenses associated with Customer options regulation, such as the costs related to in-house staff, third-party service providers, and technology that facilitate regulatory functions such as surveillance, investigation, examinations, and enforcement (collectively, the “ORF Costs”). ORF Costs may also include indirect expenses such as human resources and other administrative costs related to the supervision and regulation of Customer activity. The Exchange monitors the amount of ORF collection to ensure that this amount, in combination with other regulatory fees and fines, does not exceed regulatory costs.

Today, the ORF is assessed on ATP Holders for options transactions that are cleared by the ATP Holder through the OCC in the Customer range regardless of the exchange on which the transaction occurs and is collected from ATP Holder clearing firms by the OCC on behalf of NYSE American.⁹ All options transactions must clear via a clearing firm, and such clearing firms can then

ORF under its current methodology until such time that the new ORF methodology is implemented).

⁸ The Exchange considers surveillance operations part of regulatory operations. The limitation on the use of regulatory funds also provides that they shall not be distributed. See Thirteenth Amended and Restated Operating Agreement of NYSE American LLC, Article IV, Section 4.05 and Securities Exchange Act Release No. 87993 (January 16, 2020), 85 FR 4050 (January 23, 2020) (SR-NYSEAMER-2020-04).

⁹ See Fee Schedule, Section VII.A., Options Regulatory Fee (“ORF”), available at: https://www.nyse.com/publicdocs/nyse/markets/american-options/NYSE_American_Options_Fee_Schedule.pdf. The Exchange uses reports from OCC when assessing and collecting the ORF. The ORF is not assessed on outbound linkage trades. An ATP Holder is not assessed the fee until it has satisfied applicable technological requirements necessary to commence operations on NYSE American. See *id.*
