**SUPPLEMENTARY INFORMATION:** In accordance with the PRA and 5 CFR 1320.8(d)(1), all information collections require approval under the PRA. We may not conduct or sponsor, and you are not required to respond to, a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number.

A **Federal Register** notice with a 60-day public comment period soliciting comments on this collection of information was published on September 11, 2025 (90 FR 44097). We did not receive any comments in response.

As part of our continuing effort to reduce paperwork and respondent burdens, we invite the public and other Federal agencies to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize

the public’s reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are especially interested in public comment addressing the following:

- (1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;
- (2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;
- (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and
- (4) How might the agency minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

*Abstract:* Authorized by the NPS Organic Act, 54 U.S.C. 100101 *et seq.*, and the Public Health Service Act, 42 U.S. Code Chapter 6A, the NPS Office of Public Health (OPH) is called upon by National Park Service leadership and others to conduct disease surveillance, respond to urgent outbreaks, and prevent illnesses within or associated with National Parks. In some areas of the National Park System, state and local health departments may not have jurisdiction; even where state and local health departments do have jurisdiction, they may rely on the NPS for public health response on public lands.

This collection will allow the NPS OPH to conduct epidemiological investigations in response to public health events of concern, including:

- Incidents where three or more visitors, employees, or volunteers have similar symptoms or illnesses

- Single reports of rare or reportable diseases
- Incidents that result in death, cause serious injury or illness, and/or lead to overnight hospitalization
- Wildlife encounters of concern such as bites, scratches, or attacks and wildlife deaths that do not fit known patterns
- Any additional illnesses of public health concern

The information collected will be used to determine the agents, sources, modes of transmission, or risk factors so that effective prevention and control measures can be implemented.

**Abstract:** The National Park Service (NPS) is authorized by regulations codified in 36 CFR 7.13(l), Special Regulations; Areas of the National Park System; Yellowstone National Park; Winter Use, to establish a management framework that allows the public to experience the unique winter resources and recreational opportunities at Yellowstone National Park (YELL). Access to most of the park in the winter is limited by distance and the harsh winter environment which presents challenges to safety and park operations. In response, the NPS provides opportunities for park visitors to experience Yellowstone in the winter via over-snow vehicles (snowmobiles and snow coaches, collectively OSVs). The final rule includes provisions that allow greater flexibility for commercial tour operators, provide mechanisms to make the park cleaner and quieter during the winter seasons, reward OSV

innovations and technologies, and allow increases in visitation. All OSVs operating in the park are required to meet air and sound emission standards and be accompanied by a guide. As directed by the regulation, commercial OSV operators must complete the Form 10-650, “OSV Monthly Use Report” to:

- Transportation Events (§ 7.13(l)(11)(i)–(iii))
- Emission and Sound Standards (§ 7.13(l)(4)(vii) and (5)) and
- Enhanced Emission Standards (§ 7.13(l)(11)(iv))

Form 10-650, “OSV Monthly Use Report,” will be added to Plan Your Visit—Yellowstone National Park U.S. National Park Service upon approval. This form collects information to: (1) ensure that OSVs meet NPS emission standards to operate in the park; (2) evaluate commercial tour operators’ compliance with allocated transportation events and daily and seasonal OSV group size limits; (3) ensure that established daily transportation event limits for the park are not exceeded; (4) confirm that commercial tour operators do not run out of authorizations before the end of the season and create a gap when prospective visitors cannot be accommodated; and (5) guarantee compliance with applicable laws and regulations.
