**Overview of This Information Collection**

1. *Type of Information Collection:* Reinstatement with change, of a previously approved collection for which approval has expired: Census of Prosecutor Offices.

2. *The Title of the Form/Collection:* 2025 Census of Prosecutor Offices (CPO).

3. *The agency form number, if any, and the applicable component of the Department sponsoring the collection:* Form number(s): The instrument is CPO-25. The applicable component within the Department of Justice is the Bureau of Justice Statistics (Judicial Statistics Unit), in the Office of Justice Programs.

4. *Affected public who will be asked or required to respond, as well as a brief abstract:* Respondents will be leaders of prosecutor offices and delegated staff. The Census of Prosecutor Offices (CPO, OMB Number 1121-0149) is the only national data collection identifying and surveying all prosecutor offices in the U.S. BJS has collected data from state court prosecutors through a survey or census since 1990. For the purposes of this project, prosecutor offices are eligible for inclusion if they handle felony cases in courts of general jurisdiction in the 50 states and District of Columbia. The last census was conducted in 2007, and the last survey was conducted in 2020.

After locating all state prosecutor offices in the U.S., the CPO-25 will gather important metrics on these offices. Developed in consultation with chief prosecutors, the survey includes sections addressing staffing, office expenditures, and caseloads.

The 2025 instrument is a combination of questions from the 2007 census, the 2020 National Survey of Prosecutors, and new or updated questions. Retaining historical questions will allow for trend analysis while the newer questions will provide informative data useful for practitioners, researchers and policymakers. Some examples of information that will be provided by the 2025 CPO include:

- Staff sizes and roles
- Demographics of chief prosecutor and staff attorneys
- Caseloads

- Expenditures
- Use of case management systems

BJS will use the information gathered in CPO in published reports and statistics. The reports will be made available to the U.S. Congress, Executive Office of the President, practitioners, researchers, students, the media, others interested in criminal justice statistics, and the general public via the BJS website.

5. *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* BJS will send the survey to

2,349 prosecutor offices in 50 states and the District of Columbia. The obligation to respond is voluntary. The expected burden placed on each respondent is about 45 minutes. This includes 15 minutes to review initial outreach and participate in data quality follow up, as well as 30 minutes to complete the survey.

6. *An estimate of the total public burden (in hours) associated with the collection:* The total respondent burden is about 1,762 hours for all offices included in the census.

	Total annual responses	Participation time (min)	Total burden (hours)	Hourly rate *	Monetized value of respondent time
Data collection .....	2,349	30	1,175	\$63.60	\$74,730
Outreach and data quality follow-up .....	2,349	15	587	63.60	37,333
<b>Total .....</b>	<b>2,349</b>	<b>45</b>	<b>1,762</b>	<b>.....</b>	<b>112,063</b>

7. *An estimate of the total annual cost burden associated with the collection, if applicable:* No costs other than the cost of the hour burden exist for this data collection.
