

U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-0856; email: Infocollects.Resource@nrc.gov.

B. Submitting Comments

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to <https://www.reginfo.gov/public/do/PRAMain>. Find this particular information collection by selecting “Currently under Review—Open for Public Comments” or by using the search function.

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. All comment submissions are posted at <https://www.regulations.gov> and entered into ADAMS. Comment submissions are not routinely edited to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the OMB, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that comment submissions are not routinely edited to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review entitled, “Scheduling Information for the Licensing of Accident Tolerant, Higher Burnup, and Increased Enrichment Fuels.” The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on December 10, 2025, 90 FR 57221.

1. *The title of the information collection:* Scheduling Information for the Licensing of Accident Tolerant, Higher Burnup, and Increased Enrichment Fuels.

2. *OMB approval number:* 3150-0258.

3. *Type of submission:* Extension.

4. *The form number, if applicable:* Not applicable.

5. *How often the collection is required or requested:* Annually.

6. *Who will be required or asked to respond:* All holders of operating licenses for nuclear power reactors under the provisions of part 50 of title 10 of the *Code of Federal Regulations* (10 CFR), “Domestic Licensing of Production and Utilization Facilities,” or holders of a combined license under 10 CFR part 52, “Licenses, Certifications, and Approvals for Nuclear Power Plants,” except those that have permanently ceased operations and have certified that fuel has been permanently removed from the reactor vessel. All holders of licenses and potential applicants for a fuel cycle facility under the provisions of 10 CFR part 70, “Domestic Licensing of Special Nuclear Material,” and holders of licenses and Certificates of Compliance and potential applicants for transportation and storage systems under the provisions of 10 CFR part 71, “Packaging and Transportation of Radioactive Material,” and 10 CFR part 72, “Licensing Requirements for the Independent Storage of Spent Nuclear Fuel, High-Level Radioactive Waste, and Reactor-Related Greater than Class C Waste.”

7. *The estimated number of annual responses:* 14.

8. *The estimated number of annual respondents:* 14.

9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 140.

10. *Abstract:* The accident tolerant fuel (ATF) program is a joint effort between the U.S. nuclear industry and the U.S. Department of Energy to design and pursue approval of various fuel types with enhanced accident tolerance. The ATF program includes development of technologies that would extend fuel burnup and enrichment limits beyond currently authorized levels. In order to deploy these new technologies, the industry will need to seek authorization for various activities throughout the fuel cycle, from fuel fabrication, transportation, and storage to installation and utilization in a reactor. In order to support the timely processing of licensing activities needed to support the deployment of these new technologies, the NRC is seeking scheduling information for licensing submittals from all respondents. This information will allow the NRC to better allocate its resources to support the activities associated with licensing these technologies while being better able to meet the industry’s desired timeline.

Dated: March 26, 2026.

For the Nuclear Regulatory Commission.

Heather Dempsey,

Acting NRC Clearance Officer, Office of the Chief Information Officer.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 40-9086; NRC-2026-0595]

International Isotopes, Inc.; Green Salt Products, LLC; Direct License Transfer Application

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice; withdrawal of application.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) has granted a request by International Isotopes Inc., on behalf of International Isotopes Fluorine Products and Green Salt Products, LLC, to withdraw its request for NRC consent to the direct transfer of control of source material license number 1011 (SUB-1011). The application concerned a proposed depleted uranium deconversion and fluorine processing venture for a site near Hobbs/Lea County, New Mexico.

DATES: March 31, 2026.

ADDRESSES: Please refer to Docket ID NRC-2026-0595 when contacting the NRC about the availability of information for this action. You may obtain publicly available information related to this action by any of the following methods:

- *Federal Rulemaking Website:* Go to <https://www.regulations.gov> and search for Docket ID NRC-2026-0595. Address questions about Docket IDs in *Regulations.gov* to Bridget Curran; telephone: 301-415-1003; email: Bridget.Curran@nrc.gov. For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION**

CONTACT section of this document.

- *NRC’s Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select “Begin ADAMS Public Search.” For problems with ADAMS, please contact the NRC’s Public Document Room (PDR) reference staff at 1-800-397-4209, at 301-415-4737, or by email to PDR.Resource@nrc.gov. The ADAMS accession number for each document referenced (if it is available in ADAMS)

is provided the first time that it is mentioned in this document.

- *NRC's PDR*: The PDR, where you may examine and order copies of publicly available documents, is open by appointment. To make an appointment to visit the PDR, please send an email to PDR.Resource@nrc.gov or call 1-800-397-4209 or 301-415-4737, between 8 a.m. and 4 p.m. eastern time (ET), Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Diana Woodyatt, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-1245; email: Diana.Woodyatt@nrc.gov.

SUPPLEMENTARY INFORMATION: The NRC has granted a request by International Isotopes Inc., on behalf of International Isotopes Fluorine Products and Green Salt Products, LLC, to withdraw its request for NRC consent for the direct transfer of control of SUB-1011 dated October 1, 2025. The application concerned a proposed depleted uranium deconversion and fluorine processing venture for a site near Hobbs/Lea County, New Mexico. On February 6, 2026, the NRC published in the **Federal Register** a notice of receipt, opportunity to comment, request a hearing, and petition for leave to intervene (91 FR 5518) for the request for NRC consent to the direct transfer of control of source material license number SUB-1011. The application and the letter requesting its withdrawal, dated March 11, 2026, are available in ADAMS under Accession Nos. ML25273A381 and ML26071A277, respectively. The NRC letter of acknowledgment of withdrawal is available in ADAMS under Accession No. ML26072A234.

Dated: March 26, 2026.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 030-37587; License No. 24-32636-01; EAF-RIII-2024-0017; NRC-2026-1256]

In the Matter of Metro Cardiovascular Diagnostics Order Imposing Civil Monetary Penalty

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) issued an Order Imposing Civil Monetary Penalty (Order) to Metro Cardiovascular Diagnostics. This Order was issued because the licensee was previously issued a Notice of Violation and Proposed Imposition of Civil Penalty (Notice) in the amount of \$36,000 on July 28, 2025. The licensee failed to respond to the Notice or pay the civil penalty. Despite multiple attempts by the NRC to contact the licensee, no response was received; therefore, the NRC is imposing the civil penalty through this Order. The NRC staff has determined that the violations occurred as described in the Notice and that the \$36,000 civil penalty proposed for the violations is appropriate and will be imposed. This Order is effective upon issuance.

DATES: This order was issued on March 4, 2026.

ADDRESSES: Please refer to Docket ID NRC-2026-1256 when contacting the NRC about the availability of information regarding this document. You may obtain publicly available information related to this document using any of the following methods:

- *Federal Rulemaking Website:* Go to <https://www.regulations.gov> and search for Docket ID NRC-2026-1256. Address questions about Docket IDs in *Regulations.gov* to Bridget Curran; telephone: 301-415-1003; email: Bridget.Curran@nrc.gov. For technical questions, contact the individual(s) listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin ADAMS Public Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, at 301-415-4737, or by email to PDR.Resource@nrc.gov.

- *NRC's PDR:* The PDR, where you may examine and order copies of publicly available documents, is open by appointment. To make an appointment to visit the PDR, please send an email to PDR.Resource@nrc.gov or call 1-800-397-4209 or 301-415-4737, between 8 a.m. and 4 p.m. eastern time (ET), Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Carmen Rivera, Office of Enforcement,

U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-0296; email: Carmen.Rivera@nrc.gov.

SUPPLEMENTARY INFORMATION: The text of the order is attached.

Dated: March 26, 2026.

For the Nuclear Regulatory Commission.

Bo Pham,

Acting Director, Office of Enforcement.

Attachment—Order Imposing Civil Monetary Penalty

United States of America

Nuclear Regulatory Commission

In the Matter of: Metro Cardiovascular Diagnostics, 030-37587, Florissant, Missouri, 24-32636-01, EAF-RIII-2024-0017

Order Imposing Civil Monetary Penalty

I

Metro Cardiovascular Diagnostics (Licensee) is the holder of NRC Materials License No. 24-32636-01 issued on July 17, 2018, by the U.S. Nuclear Regulatory Commission (NRC or Commission) pursuant to Part 30 of Title 10 of the Code of Federal Regulations (10 CFR). The license authorizes the operation of Metro Cardiovascular Diagnostics (facility) in accordance with conditions specified therein. The facility is located on the Licensee's site in Florissant, Missouri.

II

An investigation of the Licensee's activities was initiated on October 5, 2023, and completed on September 11, 2024. The results of this investigation indicated that the Licensee had not conducted its activities in full compliance with NRC requirements. A written Notice of Violation and Proposed Imposition of Civil Penalties (Notice) was served upon the Licensee by letter dated July 28, 2025. The Notice states the nature of the violations, the provisions of the NRC's requirements that the Licensee violated, and the amount of the civil penalties proposed for the violations. As of the date of this Order, the Licensee has neither provided a written response to the Notice nor paid the proposed civil penalty. NRC staff have unsuccessfully attempted to contact the Licensee multiple times since the issuance of the Notice regarding payment of the proposed civil penalties.

III

Because the Licensee did not respond to the Notice, there are no additional facts, explanation, or other information to consider. The NRC has determined that the violations occurred as stated and that the penalties proposed for the violations designated in the Notice should be imposed.

IV

In view of the foregoing and pursuant to Section 234 of the Atomic Energy Act of 1954, as amended (Act), 42 U.S.C. 2282, and 10 CFR 2.205, *it is hereby ordered that:*
