[Release No. 34-105088; File No. SR-NYSEARCA-2026-32]

Self-Regulatory Organizations; NYSE Arca, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Modify the NYSE Arca Options Fee Schedule To Waive the Combined Cap on Submitting Broker Credits Paid for QCC Trades and Floor Broker Rebates Paid Through the Manual Billable Rebate Program for the Month of March 2026

March 26, 2026.

Pursuant to Section 19(b)(1)¹ of the Securities Exchange Act of 1934 ("Act"),² and Rule 19b-4 thereunder,³ notice is hereby given that on March 17, 2026, NYSE Arca, Inc. ("NYSE Arca" or the "Exchange") filed with the Securities and Exchange Commission (the "Commission") the proposed rule change as described in Items I and II below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to modify the NYSE Arca Options Fee Schedule (the "Fee Schedule") to waive the maximum combined Submitting Broker credits paid for QCC trades and Floor Broker rebates paid through the Manual Billable Rebate Program for the month of March 2026. The proposed rule change is available on the Exchange's website at www.nyse.com and at the principal office of the Exchange.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of this filing is to amend the Fee Schedule to waive the maximum combined Submitting Broker credits paid for QCC trades and Floor Broker rebates paid through the Manual Billable Rebate Program for the month of March 2026.

The Exchange imposes a limit on the maximum combined Submitting Broker credits paid for QCC trades and Floor Broker rebates paid through the Manual Billable Rebate Program per month per firm (the "Cap").⁴ Because of elevated volumes on the Exchange, the Exchange proposes to waive the Cap for the month of March 2026 and to use the period during which the Cap is waived to evaluate an adjustment to the amount of the Cap. The proposed waiver is being adopted in anticipation of firms reaching the Cap before month's end and potentially redirecting their order flow away from the Exchange. In the absence of the proposed waiver, firms may choose to redirect such order flow to a competing market. Accordingly, the

⁴ See Fee Schedule, Endnote 17 (providing that Submitting Broker credits paid for QCC trades and Floor Broker rebates paid through the Manual Billable Rebate Program shall not combine to exceed \$3,000,000 per month per firm).

purpose of the proposal is to encourage Submitting Brokers and Floor Brokers to continue to direct order flow to the Exchange, despite increasing industry volumes making it less difficult to reach the Cap.

Although the Exchange cannot predict with certainty how many firms would be impacted by this change, the Exchange believes that the proposed change would incent firms to continue to direct their order flow to the Exchange, thus increasing liquidity to the benefit of all market participants.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with Section 6(b) of the Act,⁵ in general, and furthers the objectives of Sections 6(b)(4) and (5) of the Act,⁶ in particular, because it provides for the equitable allocation of reasonable dues, fees, and other charges among its members, issuers and other persons using its facilities and does not unfairly discriminate between customers, issuers, brokers or dealers.

The proposed change is reasonable, equitable, and not unfairly discriminatory. As a threshold matter, the Exchange is subject to significant competitive forces in the market for options securities transaction services that constrain its pricing determinations in that market. The Commission has repeatedly expressed its preference for competition over regulatory intervention in determining prices, products, and services in the securities markets. In Regulation NMS, the Commission highlighted the importance of market forces in determining prices and SRO revenues and, also, recognized that current regulation of the market system "has been remarkably successful in promoting market competition in its broader forms that are most important to investors and listed companies."⁷

There are currently 18 registered options exchanges competing for order flow. Based on publicly-available information, and excluding index-based options, no single exchange has more than 16% of the market share of executed volume of multiply-listed equity and ETF options trades.⁸ Therefore, currently no exchange possesses significant pricing power in

⁷ See Securities Exchange Act Release No. 51808 (June 9, 2005), 70 FR 37496, 37499 (June 29, 2005) (S7-10-04) ("Reg NMS Adopting Release").

the execution of multiply-listed equity and ETF options order flow. More specifically, in January 2026, the Exchange had 10.39% market share of executed volume of multiply-listed equity and ETF options trades.⁹ In such a low-concentrated and highly competitive market, no single options exchange possesses significant pricing power in the execution of options order flow. Within this environment, market participants can freely and often do shift their order flow among the Exchange and competing venues in response to changes in their respective pricing schedules.

The proposed waiver of the Cap is reasonable because it is designed to encourage the role performed by Submitting Brokers and Floor Brokers in facilitating the execution of orders via open outcry, functions that the Exchange wishes to support for the benefit of all market participants, and would allow the Exchange time to evaluate changes to the amount of the Cap. Absent the proposed waiver, the Exchange believes that, as soon as firms reach the Cap, they are likely to redirect order flow away from the Exchange, which may adversely impact other market participants trading on the Exchange. To the extent that the proposed waiver encourages Submitting Brokers and Floor Brokers to facilitate transactions on the Exchange instead of on a competing market, all market participants at the Exchange would benefit from the increased liquidity. The Exchange believes the proposed waiver should continue to incent Submitting Brokers and Floor Brokers to encourage market participants to aggregate their executions at the Exchange as a primary execution venue. To the extent that the proposed change achieves its purpose in attracting more volume to the Exchange, this increased order flow would continue to make the Exchange a more competitive venue for order execution, thus improving market quality for all market participants.

The Exchange believes the proposed waiver of the Cap is an equitable allocation of its fees and credits and is not unfairly discriminatory because the proposal is based on the amount and type of business transacted on the Exchange. Submitting Brokers and Floor Brokers are not obligated to execute QCC transactions or manual transactions to earn credits and rebates

⁹ Based on a compilation of OCC data for monthly volume of equity-based options and monthly volume of ETF-based options, *see id.*, the Exchange's market share in multiply-listed equity and ETF options decreased from 13.08% in January 2025 to 10.39% for the month of January 2026.

applied toward the Cap. However, the proposed waiver is designed to continue to encourage the roles performed by Submitting Brokers and Floor Brokers in facilitating the execution of QCC transactions and orders via open outcry, functions that the Exchange wishes to support for the benefit of all market participants.

To the extent that the proposed waiver of the Cap continues to attract manual transactions and QCCs to the Exchange, this increased order flow would continue to make the Exchange a more competitive venue for order execution. Thus, the Exchange believes the proposed waiver would improve market quality for all market participants on the Exchange and attract more order flow to the Exchange, thereby improving market-wide quality and price discovery. The resulting increased volume and liquidity would provide more trading opportunities and tighter spreads to all market participants and thus would promote just and equitable principles of trade, remove impediments to and perfect the mechanism of a free and open market and a national market system and, in general, protect investors and the public interest.

Finally, the Exchange believes that it is subject to significant competitive forces, as described below in the Exchange's statement regarding the burden on competition.

B. Self-Regulatory Organization's Statement on Burden on Competition

In accordance with Section 6(b)(8) of the Act, the Exchange does not believe that the proposed rule change would impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. Instead, as discussed above the Exchange believes that the proposed changes would encourage the submission of additional liquidity to a public exchange, thereby promoting market depth, price discovery and transparency and enhancing order execution opportunities for all market participants. As a result, the Exchange believes that the proposed change furthers the Commission's goal in adopting Regulation NMS of fostering integrated competition among orders, which promotes "more efficient pricing of individual stocks for all types of orders, large and small."¹⁰

Intramarket Competition. The proposed waiver of the Cap would apply equally to all similarly situated Submitting Brokers and Floor Brokers.

To the extent that there is an additional competitive burden on non-Submitting Brokers or non-Floor Brokers, the Exchange believes that any such burden would be appropriate because Submitting Brokers and Floor Brokers serve an important function in facilitating the execution of QCC transactions and orders in open outcry, to the benefit of all market participants.

Intermarket Competition. The Exchange operates in a highly competitive market in which market participants can readily favor one of the other 17 competing options exchanges if they deem the Exchange's fee levels to be excessive. In such an environment, the Exchange must continually adjust its fees to remain competitive with other exchanges and to attract order flow to the Exchange. Based on publicly-available information, and excluding index-based options, no single exchange has more than 16% of the market share of executed volume of multiply-listed equity and ETF options trades.¹¹ Therefore, currently no exchange possesses significant pricing power in the execution of multiply-listed equity and ETF options order flow. More specifically, in January 2026, the Exchange had 10.39% market share of executed volume of multiply-listed equity and ETF options trades.¹²

The Exchange believes that the proposed waiver of the Cap reflects this competitive environment because it is designed to continue to incent Submitting Brokers and Floor Brokers to direct manual and QCC transactions to the Exchange, to provide liquidity and to attract order flow. To the extent that Submitting Brokers and Floor Brokers are encouraged to utilize the Exchange as a primary trading venue for all transactions, all Exchange market participants stand to benefit from the improved market quality and increased opportunities for price improvement. The Exchange notes that it operates in a highly competitive market in which market participants can readily favor competing venues. In such an environment, the Exchange must continually review, and consider adjusting, its fees and credits to remain competitive with other exchanges. For the reasons described above, the

Exchange believes that the proposed rule change reflects this competitive environment.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change is effective upon filing pursuant to Section 19(b)(3)(A) of the Act¹³ and subparagraph (f)(2) of Rule 19b-4¹⁴ thereunder, because it establishes a due, fee, or other charge imposed by the Exchange.

At any time within 60 days of the filing of such proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings under Section 19(b)(2)(B)¹⁵ of the Act to determine whether the proposed rule change should be approved or disapproved.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-105087; File No. SR-NYSEAMER-2026-23]

Self-Regulatory Organizations; NYSE American LLC; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Amend the NYSE American Options Fee Schedule To Adopt Fees for Trading in Options Overlying the MSCI EAFE Index and the MSCI Emerging Markets Index

March 26, 2026.

Pursuant to Section 19(b)(1)¹ of the Securities Exchange Act of 1934 ("Act")² and Rule 19b-4 thereunder,³

notice is hereby given that, on March 16, 2026, NYSE American LLC ("NYSE American" or the "Exchange") filed with the Securities and Exchange Commission (the "Commission") the proposed rule change as described in Items I and II below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend the NYSE American Options Fee Schedule ("Fee Schedule") to adopt fees applicable to trading in options that overlie each of the MSCI EAFE Index and the MSCI Emerging Markets Index. The proposed rule change is available on the Exchange's website at www.nyse.com and at the principal office of the Exchange.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of this filing is to amend the Fee Schedule to establish fees in connection with the launch of trading in options that overlie the MSCI EAFE Index ("EAFE options" or "MXEA") and the MSCI Emerging Markets Index ("EM options" or "MXEF"). The Exchange recently filed a proposed rule change to adopt rules to facilitate the transfer and trading of EAFE options and EM options, which currently trade on Cboe Exchange, Inc. ("Cboe Options").⁴ The Exchange proposes that the fees set forth in this filing will take effect on March 16, 2026, the day that trading in EAFE options and EM options begins on the Exchange.⁵

The MSCI EAFE Index ("EAFE Index") and MSCI Emerging Markets Index ("EM Index") are both free float-adjusted market capitalization indexes calculated by MSCI Inc. ("MSCI"). The EAFE Index is designed to measure the equity market performance of developed markets, excluding the United States and Canada,⁶ and the EM Index is designed to measure equity market performance of emerging markets.⁷ Both indexes consist of large and midcap components, and each covers approximately 85% of the free float-adjusted market capitalization in each country included in the respective index.

The Exchange proposes to adopt the following per contract transaction fees for manual executions in MXEA and MXEF, which are largely based on the fees currently assessed by Cboe Options:⁸

| Participant | Penny/Non-Penny | Rate per contract MXEA, MXEF manual transactions |
|---------------------|-----------------|---|
| Broker-Dealer | Penny | \$0.25 |
| | Non-Penny | 0.25 |

⁶ The MSCI EAFE Index consists currently of the following 21 developed market country indexes: Australia, Austria, Belgium, Denmark, Finland, France, Germany, Hong Kong, Ireland, Israel, Italy, Japan, the Netherlands, New Zealand, Norway, Portugal, Singapore, Spain, Sweden, Switzerland, and the United Kingdom.

⁷ The MSCI EM Index consists currently of the following 24 emerging market country indexes: Brazil, Chile, China, Colombia, Czech Republic, Egypt, Greece, Hungary, India, Indonesia, Korea, Malaysia, Mexico, Pakistan, Peru, Philippines, Poland, Qatar, Russia, South Africa, Taiwan, Thailand, Turkey and United Arab Emirates.

As further discussed below, the Exchange's proposed fee structure for transactions in MXEA and MXEF is consistent with Cboe Options' fee structure except for differences in the pricing programs from which transactions in MXEA and MXEF are excluded (based on differences between the programs offered by the Exchange and those offered by Cboe Options) and the amount of the proposed Index License Surcharge.
