Title of Collection: NSF Small Business Innovation Research (SBIR) Program Phase I, NSF Small Business Technology Transfer (STTR) Program Phase I, and NSF Fast-Track Pilot Pre-submission Project Pitch Form.

OMB Control No.: 3145-0282.

Abstract: The NSF Small Business Innovation Research Program (SBIR) Phase I, Small Business Technology Transfer Program (STTR) Phase I, and SBIR/STTR Fast-Track Pilot Project Pitch is an NSF SBIR/STTR pre-submission process that conveys information needed to direct the proposed SBIR/STTR project to the appropriate NSF Program Director (PD) for review and possible proposal submission invitation. The Project Pitch is to be submitted by the applying small business concern (as “proposer”) to the relevant NSF SBIR/STTR Phase I or Fast-Track Pilot technology topic. The Project Pitch outlines solicitation-specific aspects of the project (such as the proposed technology innovation)) and captures the same requested information, as outlined in the NSF SBIR/STTR Phase I and Fast-Track Program solicitations, but all within one secure, web-based form. Specifically, the form collects the submitting proposer company and team information, the proposed technology innovation; the technical objectives and challenges, and the market opportunity. The form also allows the proposer to choose (from a drop-down menu) the most relevant NSF SBIR/STTR Phase I and Fast-Track Pilot technical topic area, ensuring that the submitted Project Pitch goes to the most appropriate Program Director. For the SBIR/STTR Fast-Track Pilot submission, the Project Pitch encompasses the same questions as outlined in the Phase I Project Pitch but also seeks responses to three key eligibility requirements: NSF lineage, customer-discovery experience, and confirmation that the team members are currently employed by the company. These requirements expand on the

details of the previously required information on the proposed technology innovation, the market opportunity, and the company and team, respectively.

Respondents: Small business concerns who submit proposals to NSF’s SBIR/STTR Phase I and Fast-Track Pilot Programs.

Estimated Number of Annual Respondents: 15,000.

Burden on the Public: 2 hours (per response) for an annual total of 30,000 hours.

Dated: March 27, 2026.

Suzanne H. Plimpton,
Reports Clearance Officer, National Science Foundation.
