

mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personally identifying information (PII) in your comment, you should be aware that your entire comment—including your PII—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

**Abstract:** As part of the USGS Ecosystems Mission Area effort to provide science that is used by managers, policymakers, and others for decisions that protect, conserve, and enhance healthy fish and wildlife populations across the United States and beyond, the Alaska Science Center Landbird Program conducts research on avian populations within Alaska. Beginning in the late 1990s, an outbreak of beak deformities in Black-capped Chickadees and other species emerged in southcentral Alaska. USGS scientists launched a study to understand the scope of this problem and its effect on wild birds. Since that time, researchers have gathered important information about the deformities—they have identified a new virus as the likely cause and the geographical distribution appears to be expanding. The collection of PII is requested as part of this ongoing research in North American birds. Members of the public provide observation reports of birds with deformities from Alaska and other regions. These reports are very important in that they allow researchers to determine the geographical distribution of the beak deformities and species affected. Data collection over such a large and remote area would not be possible without the public's assistance. As part of the online reporting system, an individual's phone number, email address, and mailing address are requested. This information allows researchers to request additional details or verify reports if necessary but is not required for submission. PII is used only for contact purposes, is stored in a separate table that is encrypted, and is not shared in any way with other individuals, groups, or organizations.

**Title of Collection:** Alaska Beak Deformity Observations.

**OMB Control Number:** 1028-0116.

**Form Number:** None.

**Type of Review:** Extension of a currently approved collection.

**Respondents/Affected Public:** Individuals/households.

**Total Estimated Number of Annual Respondents:** 150.

**Total Estimated Number of Annual Responses:** 175.

**Estimated Completion Time per Response:** Approximately 5 minutes.

**Total Estimated Number of Annual Burden Hours:** 15 hours.

**Respondent's Obligation:** Voluntary.

**Frequency of Collection:** One time.

**Total Estimated Annual Nonhour Burden Cost:** None.

The authority for this action is the PRA of 1995 (44 U.S.C. 3501 *et seq.*).

## DEPARTMENT OF THE INTERIOR

### Bureau of Land Management

**[A2407-014-004-065516, #O2509-014-004-125222]**

#### Notice of Realty Action: Direct Sale of Public Lands in La Paz County, AZ

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice of realty action.

**SUMMARY:** The Bureau of Land Management (BLM) proposes a non-competitive (direct) sale of a parcel of BLM-managed public lands in Arizona to permanently resolve management challenges of an isolated tract without public access, to resolve its split-estate status, and to facilitate orderly economic development in a way that would benefit local communities. The parcel, located in La Paz County, contains 640 acres and, if approved, would be sold to 174 Power Global, LLC. The sale would be subject to the applicable provisions of the Federal Land Policy and Management Act of 1976, as amended (FLPMA), and the BLM land sale regulations.

**DATES:** Interested parties must submit written comments, postmarked or delivered no later than May 15, 2026. The land would not be offered for sale until after May 15, 2026.

**ADDRESSES:** Mail written comments to James Holden, Field Manager, BLM Hassayampa Field Office, 2020 E Bell Rd., Phoenix, AZ 85022. Comments may also be emailed to: [blm\\_az\\_pdo\\_solar@blm.gov](mailto:blm_az_pdo_solar@blm.gov). Documents pertinent to this

proposed sale may be viewed online at: <https://eplanning.blm.gov/Project-Home/?id=D6DD86E1-AC24-F111-8341-001DD800B811>.

#### FOR FURTHER INFORMATION CONTACT:

Derek Eysenbach, Project Manager, at [deysenbach@blm.gov](mailto:deysenbach@blm.gov), at the mailing address above, or by phone at (602) 417-9505. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services for contacting Mr. Eysenbach. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

**SUPPLEMENTARY INFORMATION:** The BLM will consider a direct sale in accordance with applicable provisions of Section 203 of FLPMA. The surface estate would be sold for no less than the appraised fair market value of \$350,000.

#### Gila and Salt River Meridian, Arizona

T. 3 N., R. 12 W.,  
Sec. 16.

The area described contains 640 acres, according to the official plat of the survey of the said land on file with the BLM.

The mineral estate is reserved to the State of Arizona; therefore, no mineral estate would convey with the sale. The proposed sale is in conformance with the BLM Bradshaw-Harquahala Resource Management Plan approved in April 2010, as amended by Renewable Arizona: Restoration Design Energy Project Resource Management Plan Amendments approved in January 2013. The BLM is preparing a parcel-specific Environmental Assessment (EA) in connection with this realty action. It can be viewed online (see **ADDRESSES**).

Regulations at 43 CFR 2710.0-3(a) and 43 CFR 2711.3-3(a) authorize the BLM to utilize a direct sale of public land when a competitive sale is not appropriate, and the public interest would best be served by a direct sale. The BLM would offer the lands to 174 Power Global, LLC since the company holds an exclusive long-term commercial lease with the Arizona State Land Department on all adjacent parcels. The subject parcel has been determined to meet FLPMA section 203(a) sale criteria. Private ownership of the parcel would facilitate timely and efficient development of the lands which would benefit economic development in La Paz County. The isolated parcel has no public access, and no known scenic or recreation values.

Pursuant to the requirements of 43 CFR 2711.1-2(d), publication of this

notice in the **Federal Register** will segregate the land from all forms of appropriation under the public land laws, including the mining laws, except for the sale provisions of FLPMA. Until completion of the sale, the BLM will no longer accept land use applications affecting the public land. The effect of this segregation will terminate upon issuance of a patent, publication in the **Federal Register** of a termination of the segregation, or 2 years after the date of publication in the **Federal Register**, unless extended by the BLM Arizona State Director in accordance with 43 CFR 2711.1–2(d) prior to the termination date. The BLM will publish this notice in the *Parker Pioneer* newspaper once a week for 3 consecutive weeks.

The conveyance document, if issued, will include the following terms, conditions, and reservations:

1. A reservation to the United States for ditches and canals constructed by the authority of the United States under the Act of August 30, 1890 (43 U.S.C. 945);

2. An appropriate indemnification clause protecting the United States from claims arising out of the patentee's use, occupancy, or operations on the patented land;

3. Valid existing rights issued prior to conveyance; and

4. Additional terms and conditions that the authorized officer deems appropriate.

The BLM will make available reports pertaining to the land, which include an appraisal; environmental site assessment, per the Comprehensive Environmental Response, Compensation, and Liability Act; and a draft EA, per the National Environmental Policy Act, for review at the Hassayampa Field Office and online (see **ADDRESSES** above). Interested parties may submit, in writing, any comments concerning the land being considered for sale, including notification of any encumbrances or other claims relating to the parcel, at the address listed in the **ADDRESSES** section by the deadline listed in the **DATES** section.

The land is suitable for direct sale under FLPMA, without competition, consistent with 43 CFR 2711.3–3(a)(4), as direct sales may be used “when in the opinion of the authorized officer, a competitive sale is not appropriate and the public interest would best be served by a direct sale,” including when “the adjoining ownership pattern and access indicate a direct sale is appropriate.”

The BLM Arizona State Director will review adverse comments regarding the parcel and may sustain, vacate, or

modify this realty action, in-whole or in-part. In the absence of timely objections, this realty action will become the final determination of the Department of the Interior.

Before including your address, phone number, email address, or other personal identifying information in your comment, be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask us, in your comment, to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

(Authority: 43 CFR 2711.1–2)

## INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 701–TA–748–749 and 731–TA–1726–1727 (Final)]

### Float Glass Products From China and Malaysia; Determinations

On the basis of the record<sup>1</sup> developed in the subject investigations, the United States International Trade Commission (“Commission”) determines, pursuant to the Tariff Act of 1930 (“the Act”), that an industry in the United States is materially injured by reason of imports of float glass products from China, provided for in subheadings 7005.10.80, 7005.21.10, 7005.21.20, 7005.29.18, 7005.29.25, 7007.29.00, 7008.00.00, 7009.91.50, and 7009.92.50 of the Harmonized Tariff Schedule of the United States, that have been found by the U.S. Department of Commerce (“Commerce”) to be sold in the United States at less than fair value (“LTFV”), and imports of the subject merchandise from China and Malaysia that have been found to be subsidized by the governments of China and Malaysia.<sup>2,3</sup> The Commission further determines that imports of float glass products from Malaysia found by Commerce to be sold in the United States at LTFV are negligible and terminates the antidumping duty investigation concerning Malaysia.<sup>4</sup>

<sup>1</sup> The record is defined in § 207.2(f) of the Commission's Rules of Practice and Procedure (19 CFR 207.2(f)).

<sup>2</sup> 91 FR 5708, 91 FR 5713, 91 FR 5720, and 91 FR 5723 (February 9, 2026).

<sup>3</sup> Commissioner David S. Johanson dissenting.

<sup>4</sup> The Commission initially voted in these investigations on March 5, 2026. The Commission

## Background

The Commission instituted these investigations effective November 21, 2024, following receipt of petitions filed with the Commission and Commerce by Vitro Flat Glass, LLC, Cheswick, Pennsylvania, and Vitro Meadville Flat Glass, LLC, Cochranton, Pennsylvania. The final phase of the investigations was scheduled by the Commission following notification of preliminary determinations by Commerce that imports of float glass products from China and Malaysia were subsidized within the meaning of section 703(b) of the Act (19 U.S.C. 1671b(b)) and sold at LTFV within the meaning of 733(b) of the Act (19 U.S.C. 1673b(b)). Notice of the scheduling of the final phase of the Commission's investigations and of a public hearing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** on August 13, 2025 (90 FR 38991).<sup>5</sup> The public hearing in connection with the investigations, scheduled for February 5, 2026, was cancelled.<sup>6</sup>

The Commission made these determinations pursuant to §§ 705(b) and 735(b) of the Act (19 U.S.C. 1671d(b) and 19 U.S.C. 1673d(b)). It completed and filed its determinations in these investigations on March 26, 2026. The views of the Commission are contained in USITC Publication 5715 (March 2026), entitled *Float Glass Products from China and Malaysia: Investigation Nos. 701–TA–748–749 and 731–TA–1726–1727 (Final)*.

By order of the Commission.

Issued: March 26, 2026.

**Lisa Barton,**

*Secretary to the Commission.*

[FR Doc. 2026–06129 Filed 3–30–26; 8:45 am]

**BILLING CODE 7020–02–P**

found that imports of float glass products from Malaysia determined by Commerce to be sold at LTFV were not negligible. Chair Amy A. Karpel, Commissioner Jason E. Kearns, and Commissioner David S. Johanson voted to reconsider their votes in these investigations on March 20, 2026. On March 23, 2026, following this decision to reconsider, the Commission changed its determination in the antidumping duty investigation of imports from Malaysia from affirmative to negative based on negligibility grounds.

<sup>5</sup> Due to the lapse in appropriations and ensuing cessation of Commission operations, the Commission tolled its schedule for this proceeding. The schedule was revised in subsequent notices published in the **Federal Register** on November 24, 2025 (90 FR 52999) and December 11, 2025 (90 FR 57483).

<sup>6</sup> 91 FR 5510, February 6, 2026.
