

removal of all dedicated GPS antennas, as proposed, will not cause any burden on inter-market competition. Additionally, there is no burden to intra-market competition because the direct GPS antenna service is ultimately being terminated for all customers. The Exchange is merely proposing to extend the designated time for the termination of the dedicated GPS service and removal of all dedicated GPS antennas, which would provide all customers with the same timeline for terminating or converting to the shared GPS antenna service on a non-discriminatory basis. Continuing with the service until the proposed extended termination date of April 30, 2026, however, is voluntary, and customers are free to terminate their dedicated GPS antenna service at any time before the proposed extension date. Use of any co-location service is completely voluntary, and each market participant can determine whether to use co-location services based on the requirements of its business operations.

The purpose of this proposal is to extend the designated date for termination of the GPS dedicated antenna service (and removal of all dedicated GPS antennas) from April 1, 2026, as previously scheduled,¹⁶ to April 30, 2026, and to inform the Commission and market participants of that change. The removal of the Exchange's dedicated GPS antenna service under Rule General 8, Section 1(d) was proposed in a previous rule filing that was submitted to the SEC,¹⁷ and the Exchange is not proposing in this filing any changes to that filing other than to modify the designated date for the termination of the dedicated GPS antenna service and associated fee and the removal of all dedicated GPS antennas. The Exchange is extending that termination date to April 30, 2026, in light of delays associated with the completion of the new shared GPS antenna offering, and in order to provide customers who have opted for the shared GPS antenna service with sufficient time to test that service before termination of their dedicated GPS antenna service takes effect on April 30, 2026, as proposed. As discussed above, continuation of that service until the proposed extended termination date of April 30, 2026, is voluntary, and customers are free to terminate their dedicated GPS antenna service at any time before the proposed extension date.

Notice is hereby given that, pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission (SEC or "Commission") is soliciting comments on the proposed collection of information provided for in Rule 15c2-11 (17 CFR 240.15c2-11) ("Rule"), under the Securities Exchange Act of 1934 (15 U.S.C. 78a *et seq.*).

Rule 15c2-11 governs the publication of quotations for securities in a quotation medium other than a national securities exchange (*i.e.*, over the counter ("OTC") securities). The Rule is designed to prevent broker-dealers from publishing or submitting quotations for OTC securities that may facilitate a fraudulent or manipulative scheme. Subject to certain exceptions, the Rule prohibits broker-dealers from publishing any quotation for a security or, directly or indirectly, submitting any quotation for publication, in a quotation medium unless they have reviewed specified information concerning the issuer.

Based on the current structure of the market, the Commission staff believes that the recordkeeping and review requirements under Rule 15c2-11 apply to 196 broker-dealers, one qualified interdealer quotation system ("QIDQS"), and one registered national securities association ("RNSA"). Based on information provided by the Financial Industry Regulatory Authority, Inc. ("FINRA"), the Commission staff

understands that in the 2024 calendar year, 266 Form 211 applications were filed to initiate the publication or submission of quotations of OTC securities: 76 of these Forms 211 concerned OTC securities of prospectus issuers, Regulation A (“Reg. A”) issuers, and reporting issuers; 163 concerned OTC securities of “exempt foreign private issuers”; and 27 concerned OTC securities of “catch-all issuers.” The collection of information that is submitted to FINRA for review and approval is currently not available to the public from FINRA. Commission staff estimates that the total annual burden of the information collection requirements prescribed in the Rule is 1,771,343 hours.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number.

Written comments are invited on: (a) whether this proposed collection of information is necessary for the proper performance of the functions of the SEC, including whether the information will have practical utility; (b) the accuracy of the SEC’s estimate of the burden imposed by the proposed collection of information, including the validity of the methodology and the assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated, electronic collection techniques or other forms of information technology.

Please direct your written comments on this 60-Day Collection Notice to Austin Gerig, Director/Chief Data Officer, Securities and Exchange Commission, c/o Tanya Ruttenberg via email to PaperworkReductionAct@sec.gov by June 1, 2026. SECURITIES AND EXCHANGE COMMISSION

[OMB Control No. 3235–0375]

Agency Information Collection Activities; Submission for OMB Review; Comment Request; Extension: Schedule 13E–4F

Upon Written Request, Copies Available From: Securities and Exchange Commission, Office of FOIA Services, 100 F Street NE, Washington, DC 20549–2736

Notice is hereby given that, pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission (“Commission”) has submitted to the Office of Management and Budget this request for extension of the previously approved collection of information discussed below.

Schedule 13E–4F (17 CFR 240.13e–102) may be used by a Canadian foreign private issuer to make a cash tender or exchange offer for the issuer’s own securities if less than 40 percent of the class of securities subject to the offer is held by U.S. holders. Schedule 13E–4F is designed to provide U.S. investors in relevant Canadian securities with adequate information concerning the cash tender or exchange offer, the Canadian foreign private issuer, and the securities subject to the offer so that investors can make informed voting and investment decisions. The information collected is mandatory and is made publicly available on the Commission’s Electronic Data Gathering, Analysis, and Retrieval (“EDGAR”) system. We estimate that Schedule 13E–4F takes approximately 3.33 hours per response to prepare and that approximately 1 response is made per year. We estimate that 100% of the burden is carried out internally by the Canadian issuer. Based on our estimates, we calculate a total annual reporting burden of 3 hours ((3.33 hours per response × 100%) × 1 response per year), when rounded to the nearest dollar. Because we estimate that 100% of the burden will be carried internally by the issuer, we estimate that there is no cost burden associated with Schedule 13E–4F.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number.

The public may view and comment on this information collection request at: https://www.reginfo.gov/public/do/PRAViewICR?ref_nbr=202512-3235-018 or send an email comment to MBX.OMB.OIRA.SEC_desk_officer@

omb.eop.gov within 30 days of the day after publication of this notice by May 4, 2026.
