BILLING CODE 8011–01–P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–105112; File No. SR–NASDAQ–2026–021]

Self-Regulatory Organizations; The Nasdaq Stock Market LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Establish Fees for Its Expanded Co-Location Services

March 30, 2026.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),¹ and Rule 19b–4 thereunder,² notice is hereby given that on March 24, 2026, The Nasdaq Stock Market LLC (“Nasdaq” or “Exchange”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to establish fees for its expanded colocation services, as described further below. While these amendments are effective upon filing, the Exchange has designated the proposed amendments to be operative on April 1, 2026.

The text of the proposed rule change is available on the Exchange’s website at <https://listingcenter.nasdaq.com/rulebook/nasdaq/rulefilings>, and at the principal office of the Exchange.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange’s data center in Carteret, NJ consists of the original data center hall (“NY11”), the expanded data center area (“NY11–4”) as well as a future expanded data center area (“NY11–5”). The Exchange filed a proposal to expand its colocation services by making available in NY11–5 certain colocation offerings that were previously available only in NY11–4.³ This proposed rule change seeks to establish fees for such expanded colocation services.

Fees for Cabinet Offering in NY11–5

The Exchange filed a proposal to introduce in NY11–5 the cabinet option that was previously only available in NY11–4 (“Cabinet”).⁴ The Exchange now proposes to establish an installation fee for that Cabinet offering in NY11–5.

First, the Exchange proposes an *installation* fee for that Cabinet offering in NY11–5. Consistent with corresponding installation fees established for NY11–4, the Exchange proposes an installation fee of \$5,940 for the Cabinet offering in NY11–5.⁵

³ See Securities Exchange Act Release No. 105026 (Mar. 17, 2026), 91 FR 13680 (Mar. 20, 2026) (SR–NASDAQ–2026–015).

⁴ See SR–NASDAQ–2026–015, *supra* note 3.

⁵ To effect this change, the Exchange proposes to amend Rule General 8, Section 1(a) as follows. The Exchange proposes to delete, from entry applicable to the Cabinet offering under the column titled “NY11–4/–5 Installation Fee” the forward slash and acronym “/TBD.” The Exchange further proposes to insert, immediately following the only sentence in the current footnote designated with a dagger, the following sentence: “Fees depicted hereunder apply to NY11–4 and NY11–5.” The Exchange believes the proposed changes are appropriate to indicate that the fees shown on Rule General 8, Section 1(a) for the Cabinet offering under the column titled “NY11–4/–5” apply equally to Cabinets in NY11–4 as well as NY11–5. See proposed Rule General 8, Section 1(a).

Consistent with the approach in NY11 and NY11–4, the Exchange is *not* proposing an ongoing monthly fee for the proposed Cabinet offering in NY11–5.⁶

The Exchange believes that establishing an installation fee for the Cabinet offering in NY11–5 that is equivalent to the corresponding installation fee for the same Cabinet option in NY11–4 is appropriate because NY11–4 and NY11–5 are data center expansion areas that share similar infrastructure features and the proposed Cabinet offering for NY11–5 in particular offers the same features as those of the corresponding cabinet option in NY11–4. Thus, the Exchange is establishing NY11–5 fees that mirror the fees for the corresponding cabinet option in NY11–4.

Fees for Cabinet Power Options in NY11–5

Rule General 8, Section 1(c) provides that the following (five) cabinet power options are available exclusively in NY11–4: Phase 1 20 amp 240 volt, Phase 1 32 amp 240 volt, Phase 1 40 amp 240 volt, Phase 3 20 amp 415 volt, and Phase 3 32 amp 415 volt (collectively, “Extension Area Power Circuit Offerings”).⁷ The Exchange filed a proposal to introduce such Extension Area Power Circuit Offerings (which were previously available only in NY11–4) in NY11–5.⁸ The Exchange now proposes to establish fees for Extension Area Power Circuit Offerings in NY11–5. In alignment with established fees for NY11–4, the Exchange proposes installation and ongoing monthly fees for Extension Area Power Circuit Offerings in NY11–5 that are identical to the fees applicable to the corresponding power circuits in NY11–4 as follows.

First, the Exchange proposes to establish power installation fees for Extension Area Power Circuit Offerings in NY11–5 that are equivalent to corresponding power installation fees for the corresponding power circuit offerings in NY11–4. Installation fees for the various cabinet power options in NY11–4 are as follows: \$3,600 for all Phase 1 options and \$4,560 for Phase 3 options.⁹ Accordingly, proposed installation fees for Extension Area Power Circuit Offerings in NY11–5 are as follows: \$3,600 for all Phase 1

⁶ See proposed Rule General 8, Section 1(a).

⁷ See Rule General 8, Section 1(c).

⁸ See SR–NASDAQ–2026–015, *supra* note 3.

⁹ See Rule General 8, Section 1(c).

³⁰ 17 CFR 200.30–3(a)(12).

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b–4.

options and \$4,560 for Phase 3 options.¹⁰

Next, the Exchange proposes ongoing *monthly* fees for Extension Area Power Circuit Offerings in NY11–5 that are equal to the ongoing monthly fees established for the corresponding power circuit offerings in NY11–4.¹¹ The ongoing monthly fee for the Phase 1 20 amp 240 volt power circuit offering in NY11–4 is \$2,640.00. Accordingly, the Exchange proposes to establish an ongoing monthly fee of \$2,640.00 for the identical Phase 1 20 amp 240 volt power circuit offering in NY11–5.¹² The ongoing monthly fee for the Phase 1 32 amp 240 volt power circuit offering in NY11–4 is \$4,224.00. The Exchange therefore proposes to establish an ongoing monthly fee of \$4,224.00 for the identical power circuit offering in NY11–5.¹³ The ongoing monthly fee for the Phase 1 40 amp 240 volt power circuit offering in NY11–4 is \$5,280.00. The Exchange thus proposes an ongoing monthly fee of \$5,280.00 for the identical power circuit offering in NY11–5.¹⁴ The ongoing monthly fee for the Phase 3 20 amp 415 volt power circuit offering in NY11–4 is \$7,906.58. Accordingly, the Exchange proposes an ongoing monthly fee of \$7,906.58 for the identical power circuit offering in NY11–5.¹⁵ Finally, the ongoing monthly fee for the Phase 3 32 amp 415 volt power circuit offering in NY11–4 is \$12,650.53. The Exchange thus proposes an ongoing monthly fee of \$12,650.53

¹⁰ See proposed Rule General 8, Section 1(c). To effect this change, the Exchange proposes to amend Rule General 8, Section 1(c) as follows. First, the Exchange proposes to delete the forward slash and acronym “TBD” (“/TBD”) in all instances where that acronym appears in Rule General 8, Section 1(c). Next, the Exchange proposes to insert, in the footnote designated with a single asterisk (“*”), the following sentence: “All installation and ongoing monthly fees depicted for these power circuits options apply to both NY11–4 and NY11–5.” The Exchange believes these proposed changes are appropriate to remove obsolete text as well as to indicate that the fees depicted for the Extension Area Power Circuit Offerings under this subparagraph of Rule General 8, Section 1(c) apply equally to NY11–4 and NY11–5.

¹¹ See proposed Rule General 8, Section 1(c).

¹² To effect this change, the Exchange proposes to amend Rule General 8, Section 1(c) as follows. As discussed above, the Exchange proposes to insert, immediately following the conclusion of the footnote designated with an asterisk (“*”), the following sentence: “All installation fees and ongoing monthly fees depicted for these power circuit options apply to both NY11–4 and NY11–5.” The Exchange believes this proposed change is appropriate to indicate that the fees depicted for these power circuit options—which currently apply only to NY11–4—would apply equally to NY11–4 and NY11–5.

¹³ See *supra* note 10 and accompanying text.

¹⁴ See *supra* note 10 and accompanying text.

¹⁵ See *supra* note 10 and accompanying text.

for the corresponding identical power circuit offering in NY11–5.¹⁶

The Exchange believes proposing installation fees as well as ongoing monthly-fees for Extension Area Power Circuit Offerings in NY11–5 that are the same in amount and frequency as corresponding fees for Extension Area Power Circuit Offerings in NY11–4 is reasonable because the offered power circuit options are the same in terms of featured power capabilities and limitations as those in NY11–4. The Exchange is merely making those identical offerings available in NY11–5.

Fees for Power Distribution Unit Options: NY11–5

As a convenience to its customers, the Exchange recently introduced certain power distribution units (“PDU”) in NY11–5:¹⁷ Specifically, the Exchange introduced the following PDUs in NY11–5: Phase 1, Phase 3,¹⁸ as well as a switch monitored PDU add on (“Switch Monitored PDU Add On”) (collectively, “Extension Area PDUs”).²⁰ The Exchange now proposes to establish fees for such Extension Area PDUs in NY11–5. Specifically, the Exchange proposes establishing an installation fee as well as an ongoing monthly fee for Extension Area PDUs in NY11–5 that are equal in amount to the corresponding installation and ongoing monthly fees for the same Extension Area PDUs in NY11–4.

First, the Exchange proposes *installation* fees for Extension Area PDUs in NY11–5 that are equal in amount to corresponding installation fees established for the same service in NY11–4. Current installation fees for Extension Area PDUs in NY11–4 are as follows: \$4,100 for Phase 1, \$5,260 for Phase 3, and \$2,000 for the Switch Monitored PDU Add On.²¹ Accordingly, the Exchange proposes the following power installation fees for NY11–5: \$4,100 for Phase 1, \$5,260 for Phase 3, and \$2,000 for the Switch Monitored PDU Add On.²²

¹⁶ See *supra* note 10 and accompanying text.

¹⁷ PDUs are devices fitted with multiple outputs designed to distribute electric power.

¹⁸ See SR–NASDAQ–2026–015, *supra* note 3.

¹⁹ See SR–NASDAQ–2026–015, *supra* note 3; Rule General 8, Section 1(d). Phase 1 PDUs are compatible with the following power options: Phase 1 20 amp 240 volt, Phase 1 32 amp 240 volt, and Phase 1 40 amp 240 volt. Phase 3 PDUs are compatible with the following power options: Phase 3 20 amp 415 volt and Phase 3 32 amp 415 volt. Phase 1 and Phase 3 are available in NY11 and NY11–4. Phase 3 PDUs provide greater power density than Phase 1 PDUs by delivering power over three wires as opposed to one wire.

²⁰ See Rule General 8, Section, 1(d).

²¹ See Rule General 8, Section 1(d).

²² See proposed Rule General 8, Section 1(d). To effect this change, the Exchange proposes to amend

Second, the Exchange proposes ongoing *monthly* fees for Extension Area PDUs in NY11–5 that are equal in amount to corresponding ongoing monthly fees established for the same services in NY11–4. The Exchange does not charge an ongoing monthly fee for such Extension Area PDUs in NY11–4.²³ Accordingly, the Exchange proposes to provide that the ongoing monthly fee for Extension Area PDUs in NY11–5 is \$0.²⁴

The Exchange believes that the proposed fees for Extension Area PDUs in NY11–5 are reasonable because they are identical to established fees for the corresponding Extension Area PDUs offered in NY11–4, which offer the same technological features, capacities, and limitations as those being offered in NY11–5. The Exchange notes that, as in NY11–4, the proposed fees for Extension Area PDUs in NY11–5 include a primary and redundant PDU. As such, Extension Area PDU fees for both NY11–4 and NY11–5 cover a pair of PDUs. In addition, customers using a Phase 1 or Phase 3 PDU provided by the Exchange have the ability to upgrade or downgrade between amperage levels without replacing the PDU, by a simple upgrade of the facility cord and a receptacle update. The Exchange notes that the offered Extension Area PDUs are optional, and that customers may choose to provide their own PDUs as appropriate for their power choices.

Implementation

Although the timing is subject to change,²⁵ the Exchange anticipates providing access to the proposed offerings in NY11–5 on or about April 1, 2026. Customer orders will not be fee liable until customers are provided access to the space for their immediate use in connection with their data center operations.²⁶

Rule General 8, Section 1(d) as follows. The Exchange proposes to amend the footnote designated with a single asterisk (“*”) to insert, immediately after “NY11–4” in the first full sentence of that footnote, the following: “and NY11–5.” The Exchange then proposes to delete, from the second sentence in that footnote, the word “only.” Finally, the Exchange proposes to delete the final sentence in that footnote. As proposed, the Exchange would thus delete the words “Fees for NY11–5 have yet to be established.” See proposed Rule General 8, Section 1(d).

²³ See Rule General 8, Section 1(d).

²⁴ See *supra* note 22 and accompanying text; proposed Rule General 8, Section 1(d).

²⁵ The Exchange will announce modifications to the proposed timing via the Nasdaq Customer Portal, which is the web portal used for order and inventory management of colocation services, and email communication to all colocation customers.

²⁶ Charging customers once access is provided is consistent with current practice and allows customers to set up equipment and begin using power.

2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,²⁷ in general, and furthers the objectives of Sections 6(b)(4) and 6(b)(5) of the Act,²⁸ in particular, in that it provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using any facility, and is not designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

The Exchange believes that its proposal to establish fees for extended connectivity services in NY11-5, including those for a Cabinet Offering, Extension Area Power Circuit Offerings, and Extension Area PDUs, is reasonable.

The Exchange believes that the proposed installation fee for the Cabinet Offering in NY11-5 is reasonable because, as discussed above, the proposed fee is equivalent in all respects to established fees for the corresponding cabinet offering in expansion area NY11-4, which offerings feature substantially identical power capacities and limitations as those in NY11-5. The Exchange is merely extending the availability of that Cabinet offering at the proposed fees to NY11-5.

For extension areas NY11-4 and NY11-5, these higher voltage power options are designed to meet the growing demand for greater power and capacity options across the data center.

The Exchange believes that the proposed ongoing monthly fees for Extension Area Power Circuit Offerings in NY11-5, which are the same in amount and frequency as corresponding fees for Extension Area Power Circuit Offerings in NY11-4 are reasonable because the two services offer technologically similar features in terms of offered power capacities and limitations. The Exchange is merely extending the availability of such Extension Power Circuit Offerings at the proposed fees to NY11-5.

The Exchange believes that the proposed fees for Extension Area PDUs in NY11-5 are reasonable because they offer identical features as those in NY11-4 and the Exchange is proposing fees for Extension Area PDUs in NY11-5 that are the same in all respects as those for Extension Area PDUs in NY11-4. The Exchange is merely extending the availability of such Extension Area PDUs at the proposed fees to NY11-5.

The Exchange notes that, as in NY11-4, the proposed fees for Extension Area

PDUs in NY11-5 include a primary and redundant PDU. In addition, customers using a Phase 1 or Phase 3 PDU provided by the Exchange have the ability to upgrade or downgrade between amperage levels without replacing the PDU. Finally, the Exchange notes that the offered Extension Area PDUs are optional, and that customers may choose to provide their own PDUs as appropriate for their power choices.

The Exchange believes that the proposed fee changes are not unfairly discriminatory because the proposed NY11-5 Cabinet fees, Extension Area Power Circuit Offerings in NY11-5, and Extension Area PDUs for NY11-5 are available to and assessed uniformly across all market participants. In addition, all customers have the choice of whether to colocate with the Exchange.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

Nothing in the proposal burdens inter-market competition because approval of the proposal does not impose any burden on the ability of other exchanges to compete. The Exchange operates in a highly competitive market in which market participants can determine whether or not to connect to the Exchange based on the value received compared to the cost of doing so. Indeed, market participants have numerous alternative exchanges that they may participate on and direct their order flow, as well as off-exchange venues, where competitive products are available for trading.

Nothing in the proposal burdens intra-market competition because the NY11-5 Cabinets, Extension Area Power Circuit Offerings and Extension Area PDU optionality in NY11-5 are available to any customer under the same fees as any other customer, and any customer that wishes to order cabinets, power and PDUs can do so on a non-discriminatory basis.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act.²⁹

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (<https://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include file number SR-NASDAQ-2026-021 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549-1090.

All submissions should refer to file number SR-NASDAQ-2026-021. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (<https://www.sec.gov/rules/sro.shtml>). Copies of the filing will be available for inspection and copying at the principal office of the Exchange. Do not include personal identifiable information in submissions; you should submit only information that you wish to make available publicly. We may redact in part or withhold entirely from publication submitted material that is obscene or subject to copyright protection. All submissions should refer to file number SR-NASDAQ-2026-021 and should be submitted on or before April 23, 2026.

²⁷ 15 U.S.C. 78f(b).

²⁸ 15 U.S.C. 78f(b)(4) and (5).

²⁹ 15 U.S.C. 78s(b)(3)(A)(ii).

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.³⁰

Sherry R. Haywood,

Assistant Secretary.

BILLING CODE 8011-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-105121; File No. SR-NYSEArca-2026-31]

Self-Regulatory Organizations; NYSE Arca, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Amend the NYSE Arca Equities Proprietary Market Data Fees

March 30, 2026.

Pursuant to Section 19(b)(1)¹ of the Securities Exchange Act of 1934 (“Act”),² and Rule 19b-4 thereunder,³ notice is hereby given that on March 16, 2026, NYSE Arca, Inc. (“NYSE Arca” or the “Exchange”) filed with the Securities and Exchange Commission (the “Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend the NYSE Arca Equities Proprietary Market Data Fees (“Fee Schedule”) to (1) establish a NYSE Arca BBO Digital Media Enterprise Fee, (2) extend the proposed NYSE Arca BBO Digital Media Enterprise Fee to NYSE Arca BBO Enterprise Fee subscribers, and (3) extend the NYSE Arca Trades Digital Media Enterprise Fee to NYSE Arca BBO Enterprise Fee subscribers. The proposed rule change is available on the Exchange’s website at www.nyse.com and at the principal office of the Exchange.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change

and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend the Fee Schedule to (1) establish a NYSE Arca BBO Digital Media Enterprise Fee, (2) extend the proposed NYSE Arca BBO Digital Media Enterprise Fee to NYSE Arca BBO Enterprise Fee subscribers, and (3) extend the NYSE Arca Trades Digital Media Enterprise Fee to NYSE Arca Trades Enterprise Fee subscribers.⁴

NYSE Arca BBO Digital Media

NYSE Arca BBO is a NYSE Arca-only market data product that allows a vendor to redistribute on a real-time basis the same best-bid-and-offer information that NYSE Arca reports under the Consolidated Quotation Plan (“CQ Plan”) for inclusion in the CQ Plan’s consolidated quotation information data stream (“NYSE Arca BBO Information”).⁵ NYSE Arca BBO Information includes the best bids and offers for all securities that are traded on the Exchange and for which NYSE Arca reports quotes under the CQ Plan. NYSE Arca BBO is available over a single data feed, regardless of the markets on which the securities are listed. NYSE Arca BBO is made available to its subscribers no earlier than the information it contains is made available to the processor under the CQ Plan.

The Exchange proposes to amend the Fee Schedule to establish a Digital Media Enterprise Fee of \$20,000 per month for NYSE Arca BBO. As proposed, a NYSE Arca BBO Digital Media Enterprise subscription will include, as with NYSE Arca BBO as currently offered, access to real-time best-bid-and-offer information. As proposed, NYSE Arca BBO Digital Media Enterprise use will permit market data vendors, television broadcasters,

website and mobile device service providers, and others to distribute bid and offer data to their customers for viewing via television, website, and mobile devices. Vendors will not be permitted to provide NYSE Arca BBO Digital Media Enterprise in a context in which a trading or order routing decision can be implemented. A single Digital Media Enterprise Fee will apply for subscribers receiving both NYSE Arca BBO and NYSE Arca Trades. To reflect this new use case, the Exchange proposes to amend the Fee Schedule to adopt a Digital Media Enterprise Fee under NYSE Arca BBO and a corresponding footnote with the following rule text: “A single Digital Media Enterprise Fee allows subscribers to receive both NYSE Arca BBO and NYSE Arca Trades for distribution to an unlimited number of Users for information and non-trading purposes only.”

NYSE Arca BBO Enterprise and NYSE Arca BBO Digital Media

The Exchange currently charges an enterprise fee of \$22,000 per month for an unlimited number of professional and non-professional users for NYSE Arca BBO.⁶ A single Enterprise Fee applies to subscribers receiving both NYSE Arca BBO and NYSE Arca Trades.⁷ Accordingly, a subscriber currently pays a flat fee for an unlimited number of professional and non-professional users of both data feeds without having to report the number of such users on a monthly basis.⁸

With this proposed rule change, a data recipient that chooses to license for and pays the proposed NYSE Arca BBO Digital Media Enterprise Fee can also choose to license for enterprise use of NYSE Arca BBO at no additional cost. Such combined licensing would allow the subscriber to redistribute NYSE Arca BBO to an unlimited number of professional and non-professional users, and redistribute NYSE Arca BBO via television, website and mobile devices, without having to separately pay both the existing NYSE Arca BBO Enterprise Fee and the proposed NYSE Arca BBO Digital Media Enterprise Fee. A subscriber that chooses such combined licensing would pay a flat fee of \$20,000 per month (instead of \$42,000 per

⁶ See Securities Exchange Act Release No. 82099 (November 16, 2017), 82 FR 55702 (November 22, 2016) (SR-NYSEArca-2017-129).

⁷ See Securities Exchange Act Release No. 70213 (August 15, 2013), 78 FR 51796 (August 21, 2013) (SR-NYSEArca-2013-81).

⁸ As is the case currently, a data recipient, upon request, must provide the Exchange with a count of the total number of natural person users of NYSE Arca BBO, including both professional and non-professional users.

⁴ The Exchange originally filed to amend the Fee Schedule on March 2, 2026 (SR-NYSEARCA-2026-19). SR-NYSEARCA-2026-19 was withdrawn on March 16, 2026, and replaced by this filing.

⁵ See Securities Exchange Act Release Nos. 61937 (April 16, 2010), 75 FR 21378 (April 23, 2010) (SR-NYSEArca-2010-23) (notice—NYSE Arca BBO); and 62188 (May 27, 2010), 75 FR 31484 (June 3, 2010) (SR-NYSEArca-2010-23) (approval order—NYSE Arca BBO).
