NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

[NARA–2026–012]

Consent To Make Inquiries and Release of Information and Records

AGENCY: National Archives and Records Administration (NARA).

ACTION: Notice.

SUMMARY: NARA is proposing to request that the Office of Management and Budget (OMB) renew approval of a form used by the Office of Government Information Services (OGIS): NA Form 10003, *Consent to Make Inquiries and Release of Information and Records*. Known as the “FOIA Ombuds,” OGIS, an office within NARA, provides mediation services to resolve disputes between agencies and persons making Freedom of Information Act (FOIA) requests, and reviews agency FOIA policies, procedures, and compliance, as part of its statutory mission. 5 U.S.C. 552(h). When customers contact OGIS seeking assistance with a particular FOIA request and/or appeal, OGIS may need to contact agencies for further information regarding that FOIA request and/or appeal in order to provide that assistance. The Privacy Act of 1974 requires prior written consent from an individual to permit federal agencies to share records and information related to FOIA requests and appeals, unless the agency has a published routine use that includes release to OGIS for that purpose. 5 U.S.C. 552a(b). OGIS uses NA Form 10003 to collect that written consent when necessary, because it cannot currently collect it via online submission. OGIS is hopeful that once it is able to add online submission technology to a future case management system, it will be able to collect intake information and consent forms online.

DATES: We must receive written comments on or before May 31, 2026.

ADDRESSES: Send comments to Paperwork Reduction Act Comments (HS); National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740–6001, or email them to *Forms@nara.gov*.

FOR FURTHER INFORMATION CONTACT: Contact Matthew Sutton by telephone at 301–837–1878 with requests for additional information or copies of the proposed information collection and supporting statement.

SUPPLEMENTARY INFORMATION: Pursuant to the Paperwork Reduction Act of 1995 (Pub. L. 104–13), we invite the public and other Federal agencies to comment on proposed information collections. The comments and suggestions should address one or more of the following points: (a) whether we need the proposed information collection to properly perform our agency functions; (b) our estimate of the burden of the proposed information collection and its accuracy; (c) ways we could enhance the quality, utility, and clarity of the information we collect; (d) ways we

could minimize the burden on respondents of collecting the information, including through information technology; and (e) whether this collection affects small businesses. We will summarize any comments you submit and include the summary in our request for OMB approval. All comments will become a matter of public record. In this notice, we solicit comments concerning the following information collection:

OGIS uses NA Form 10003 to collect that written consent when necessary, because it cannot currently collect it via online submission.

NA Form 10003 is available online at OGIS’s website in a fillable pdf form with electronic signature option, so customers can submit signed copies of the consent form by email without printing first, or may print and mail it to OGIS. OGIS is hopeful that once it is able to add online submission technology to a future case management system, it will be able to collect intake information and consent forms online. SUPPLEMENTARY INFORMATION:

I. Introduction

On May 15, 2025, Southern Nuclear Operating Company, Inc. (SNC) submitted an application to the NRC for the subsequent renewal of Renewed Facility Operating License Nos. DPR–57 and NPF–5, which authorize SNC to operate HNP, Units 1 and 2. The subsequent renewed licenses would authorize SNC to operate HNP, Units 1 and 2 for an additional 20 years.

II. Summary of Environmental Assessment

Description of the Proposed Action and the Need for the Proposed Action

The current renewed facility operating licenses for HNP, Units 1 and 2 (Nos. DPR–57 and NPF–5, respectively) are set to expire at midnight on August 6, 2034, and June 13, 2038, respectively. Pursuant to SNC’s submittal of an SLR application dated May 15, 2025, the NRC’s proposed Federal action is to determine whether to issue subsequent renewed facility operating licenses for HNP, Units 1 and 2 for an additional 20 years of operation. If renewed, these licenses would authorize SNC to operate HNP, Units 1 and 2 until August 6, 2054, and June 13, 2058, respectively. The proposed action also includes the granting of an exemption from the NRC’s requirements
