SUPPLEMENTARY INFORMATION: Under the PRA (44 U.S.C. 3501–3521), Federal Agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of

information they conduct or sponsor. “Collection of information” is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes Agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3506(c)(2)(A)) requires Federal Agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, FDA is publishing notice of the proposed collection of information set forth in this document.

With respect to the following collection of information, FDA invites comments on these topics: (1) whether the proposed collection of information is necessary for the proper performance of FDA’s functions, including whether the information will have practical utility; (2) the accuracy of FDA’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the

collection of information on respondents, including through the use of automated collection techniques, when appropriate, and other forms of information technology.

Agency Information Collection Activities; Proposed Collection; Comment Request; Customer/Partner Customer Service Satisfaction Surveys

OMB Control Number 0910–0360—Extension

Under section 1003 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 393), FDA is authorized to conduct research and public information programs about regulated products and responsibilities of the Agency. Executive Order 12862, entitled “Setting Customer Service Standard,” directs Federal Agencies that “provide significant services directly to the public” to “survey customers to determine the kind and quality of services they want and their level of satisfaction with existing services.” FDA is seeking to extend OMB approval to conduct customer service satisfaction surveys to implement Executive Order 12862. Participation in the surveys is voluntary. This request covers customer/partner (including State and local governments) service satisfaction

surveys of regulated entities, such as food processors; cosmetic, drug, biologic, and medical device manufacturers; animal drugs, animal food and feed; tobacco products; and consumers and health professionals.

FDA will use the information from these surveys to identify strengths and weaknesses in service to customers/partners and to make improvements. The surveys will measure timeliness, appropriateness, clarity, and accuracy of information, courtesy, and problem resolution in the context of individual programs.

FDA estimates conducting approximately 20 customer/partner service satisfaction surveys per year, each requiring an average of 25 minutes for review and completion. We estimate respondents to these surveys to be between 100 and 20,000 customers/partners. Some of these surveys will be repeats of earlier surveys for purposes of monitoring customer/partner service and developing long-term data. Respondents to this collection of information cover a broad range of stakeholders who have experience with certain products regulated by or services provided by FDA.

FDA estimates the burden of this collection of information as follows:

Activity	Number of respondents	Number of responses per respondent	Total annual responses	Average burden per response	Total hours
Mail, telephone, web-based survey	85,000	1	85,000	.42 (25 minutes)	35,700

¹ There are no capital costs or operating and maintenance costs associated with this collection of information.

Based on a review of the information collection since our last request for OMB approval, we have made no adjustments to our burden estimate.

Grace R. Graham,

Deputy Commissioner for Policy, Legislation, and International Affairs.
