Analysis of Comments Received

All issues raised in the case and rebuttal briefs are listed in the appendix to this notice and addressed in the Issues and Decision Memorandum.

Changes Since the Preliminary Results

Based on a review of the record and comments received from interested parties regarding our *Preliminary Results*, we made no changes to the margin calculation for Colakoglu. For further discussion, see the Issues and Decision Memorandum.

Final Results of Review

As a result of this review, we determine the following estimated weighted-average dumping margin exists for the period July 1, 2023, through June 30, 2024:

Producer or exporter	Weighted-average dumping margin (percent)
Colakoglu Metalurji A.S.; Colakoglu Dis Ticaret A.S.	18.87

Disclosure

Normally, Commerce will disclose to the parties in a proceeding the calculations performed in connection with the final results within five days of any public announcement or, if there is no public announcement, within five days of the date of publication of this notice in the **Federal Register**, in accordance with 19 CFR 351.224(b). However, because Commerce made no changes to the *Preliminary Results* calculations, there are no new calculations to disclose.

Assessment Rates

Pursuant to section 751(a)(2)(C) of the Act, and 19 CFR 351.212(b)(1), Commerce has determined, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries of subject merchandise in accordance with the final results of this review.

Pursuant to 19 CFR 351.212(b)(1), because Colakoglu reported the entered value for its U.S. sales, we calculated importer-specific *ad valorem* antidumping duty assessment rates based on the ratio of the total amount of antidumping duties calculated for the examined sales to the total entered value of those same sales. Where an importer-specific assessment rate is zero or *de minimis*, we will instruct CBP to
