

directly competitive articles in the United States, or United States consumers.

In particular, the Commission is interested in comments that:

(i) explain how the articles potentially subject to the recommended remedial orders are used in the United States;

(ii) identify any public health, safety, or welfare concerns in the United States relating to the recommended orders;

(iii) identify like or directly competitive articles that complainant, its licensees, or third parties make in the United States which could replace the subject articles if they were to be excluded;

(iv) indicate whether complainant, complainant's licensees, and/or third-party suppliers have the capacity to replace the volume of articles potentially subject to the recommended orders within a commercially reasonable time; and

(v) explain how the recommended orders would impact consumers in the United States.

Written submissions must be filed no later than by close of business on April 30, 2026.

Persons filing written submissions must file the original document electronically on or before the deadlines stated above pursuant to 19 CFR 210.4(f). Submissions should refer to the investigation number ("Inv. No. 337-TA-1452") in a prominent place on the cover page and/or the first page. (See Handbook for Electronic Filing Procedures, https://www.usitc.gov/secretary/fed_reg_notices/rules/handbook_on_electronic_filing.pdf). Persons with questions regarding filing should contact the Secretary (202-205-2000).

Any person desiring to submit a document to the Commission in confidence must request confidential treatment by marking each document with a header indicating that the document contains confidential information. This marking will be deemed to satisfy the request procedure set forth in Rules 201.6(b) and 210.5(e)(2) (19 CFR 201.6(b) & 210.5(e)(2)). Documents for which confidential treatment by the Commission is properly sought will be treated accordingly. Any non-party wishing to submit comments containing confidential information must serve those comments on the parties to the investigation pursuant to the applicable Administrative Protective Order. A redacted non-confidential version of the document must also be filed simultaneously with any confidential filing and must be served in accordance with Commission Rule 210.4(f)(7)(ii)(A)

(19 CFR 210.4(f)(7)(ii)(A)). All information, including confidential business information and documents for which confidential treatment is properly sought, submitted to the Commission for purposes of this investigation may be disclosed to and used: (i) by the Commission, its employees and Offices, and contract personnel (a) for developing or maintaining the records of this or a related proceeding, or (b) in internal investigations, audits, reviews, and evaluations relating to the programs, personnel, and operations of the Commission including under 5 U.S.C. Appendix 3; or (ii) by U.S. government employees and contract personnel, solely for cybersecurity purposes. All contract personnel will sign appropriate nondisclosure agreements. All nonconfidential written submissions will be available for public inspection on EDIS.

This action is taken under the authority of section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), and in Part 210 of the Commission's Rules of Practice and Procedure (19 CFR part 210).

By order of the Commission.

Issued: April 1, 2026.

Lisa Barton,

Secretary to the Commission.

Agency Information Collection Activities; Comment Request; Pre-Implementation Planning Checklist for State Unemployment Insurance Information Technology Modernization Projects

ACTION: Notice.

SUMMARY: The Department of Labor's (DOL) Employment and Training Administration (ETA) is soliciting comments concerning a proposed extension for the authority to conduct the information collection request (ICR) titled, "Pre-Implementation Planning Checklist for State Unemployment Insurance Information Technology Modernization Projects." This comment request is part of continuing Departmental efforts to reduce paperwork and respondent burden in accordance with the Paperwork Reduction Act of 1995 (PRA).

DATES: Consideration will be given to all written comments received by June 5, 2026.

ADDRESSES: A copy of this ICR with applicable supporting documentation, including a description of the likely respondents, proposed frequency of response, and estimated total burden, may be obtained free by contacting Jagruti Patel by email at OUI-PRA@dol.gov.

Submit written comments about, or requests for a copy of, this ICR by mail or courier to the U.S. Department of Labor, Employment and Training Administration, Office of Unemployment Insurance, Room S-4524, 200 Constitution Avenue NW, Washington, DC 20210; by email: OUI-PRA@dol.gov.

FOR FURTHER INFORMATION CONTACT: Contact Jagruti Patel by email at OUI-PRA@dol.gov.

SUPPLEMENTARY INFORMATION: DOL, as part of continuing efforts to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies an opportunity to comment on proposed and/or continuing collections of information before submitting them to the Office of Management and Budget (OMB) for final approval. This program helps to ensure requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements can be properly assessed.

Building on lessons learned from previous State Workforce Agency (SWA) implementations of modernized Unemployment Insurance (UI) Information Technology (IT) systems, ETA facilitated the development of a UI IT Modernization Pre-Implementation Planning Checklist in 2018, and revised again in 2020 and 2023, for SWAs to use prior to launching a new system. The checklist is intended to function as a validation that all necessary system functions will be available and/or that alternative workarounds have been developed prior to the production launch of a new UI IT system. The goal of the checklist is to help SWAs avoid major disruption of services to UI customers and to prevent delays in making UI benefit payments when due. This comprehensive checklist denotes critical functional areas that SWAs must certify prior to launching new UI IT systems including, but not limited to, technical IT functions and UI business processes that interface with the new system. In this revision, ETA has revised 4 sub-elements of the checklist

to meet administration's priorities. The list of critical areas identified in the checklist includes:

- Functionality and Workarounds;
- External Alternate Access Options and Usability Issues Addressed;
- Policies and Procedures;
- Technical Preparation for System Implementation;
- Call Center/Customer Service Operations;
- Business Process;
- Help Desk;
- Management Oversight;
- Vendor Support/Communications;
- Communication Processes and Procedures; and
- Labor Market Information Federal Reporting Functions.

This information includes the UI IT Modernization project title (e.g., SWA project or Consortium name) and the associated report on Pre-Implementation Planning Checklist results. For each sub-element identified in the ETA 9177 report, the SWA is to provide:

- An overall status report;
- A brief report explaining the status of the project as it relates to the particular sub-element;
- Attached explanations of any workarounds concerning the processes in the sub-element;
- Attached explanations if implementation of the new system concerning specific processes for the sub-element will be delayed or deferred;
- Attached explanations for added clarity and/or to support a narrative;
- Mitigation proposals for addressing any problems;
- New project timelines if applicable; and/or
- Any discussion of identified technical assistance needs for the successful completion of the project.

ETA requires the use of this checklist report to help SWAs ensure the availability of mission critical functions as the SWA prepares for the launch of a new system and following the launch of a new system. In addition, the collection will enable ETA to identify and provide appropriate technical assistance on issues in the checklist and ensure SWAs have plans for addressing critical issues prior to launching a new UI IT system. DOL continues to engage with SWAs on possible improvements to the UI IT Modernization Pre-Implementation Planning Checklist. This proposed revision does not reflect that work. Should any changes be proposed as part of that effort, an additional **Federal Register** Notice will be published. Section 303(a)(6) of the Social Security Act, codified at 42 U.S.C. 503(a)(6), authorizes this information collection.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6.

Interested parties are encouraged to provide comments to the contact shown in the **ADDRESSES** section. Comments must be written to receive consideration, and they will be summarized and included in the request for OMB approval of the final ICR. In order to help ensure appropriate consideration, comments should mention OMB control number 1205–0527.

Submitted comments will also be a matter of public record for this ICR and posted on the internet, without redaction. DOL encourages commenters not to include personally identifiable information, confidential business data, or other sensitive statements/information in any comments.

DOL is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, (e.g., permitting electronic submission of responses).
