

Russell National School Lunch Act as amended by the Healthy, Hunger-Free Kids Act of 2010 (Pub. L. 111–296, Sec. 305) provides general statutory authority for this planned data collection.

Need and Use of the Information: This data collection will inform FNS about WIC operations among 32 Tribal Organizations and 5 U.S. territories administering the program as State agencies and 5 Tribally operated local agencies (collectively referred to as “case study agencies”). Although limited information is available about the experiences of Tribal Organizations and U.S. territories operating WIC, previous research shows that WIC programs in Tribal Organizations and U.S. territories have unique funding and administrative issues and typically have the highest costs across all State agencies. This study will help fill those knowledge gaps and improve FNS’s understanding of the strengths and challenges these agencies face when administering and implementing the program. Insights from this study can inform efforts to enhance the effectiveness of WIC program operations and services. This study will also provide FNS with the necessary information to determine WIC coverage rates (*i.e.*, the share of eligible people who receive WIC benefits). Currently, no other effort can address the research objectives of the proposed study.

Description of Respondents: State, local, and tribal governments, Individuals/households.

Number of Respondents: 210.

Frequency of Responses: Reporting: Once.

Total Burden Hours: 268.47.
