

description of the likely respondents, proposed frequency of response, and estimated total burden may be obtained free by contacting Nora Hernandez by telephone at (202) 693-8633 (this is not a toll-free number), or by email at [DOL\\_PRA\\_PUBLIC@dol.gov](mailto:DOL_PRA_PUBLIC@dol.gov). Submit written comments about, or requests for a copy of, this ICR by mail or courier to the U.S. Department of Labor, Office of the Assistant Secretary for Administration and Management, Room N1301, 200 Constitution Avenue NW, Washington, DC 20210; by email: [DOL\\_PRA\\_PUBLIC@dol.gov](mailto:DOL_PRA_PUBLIC@dol.gov).

All submissions received must include the agency name and OMB Control Number 1225-0087.

**FOR FURTHER INFORMATION CONTACT:** Nora Hernandez, Departmental Clearance Officer by telephone at 202-693-8633 (this is not a toll-free number), or by email at [DOL\\_PRA\\_PUBLIC@dol.gov](mailto:DOL_PRA_PUBLIC@dol.gov).

**SUPPLEMENTARY INFORMATION:**

**I. Background**

Consistent with 40 U.S.C. 581(h)(2), Federal Management Regulation (FMR) Part 102, Public Law 102-74, Subpart D, and the GSA Delegation under which the Department of Labor (DOL) operates the Frances Perkins Building (FPB), DOL allows the use of public space within the FPB for non-commercial purposes. As provided by FMR 102-74, Subpart D, (41 CFR 102-74-460) any person or entity that wishes to use public space in a Federal building is required to submit an application for a permit. To capture the nature of the request, information such as the requester, description of event, date, time, and approvals are collected in order to review the appropriateness of the request and make a determination of the availability of the requested public space.

DOL experience shows that the agency receives fewer than 10 non-DOL Agency requests to use FPB public space in any given year; however, as the information is contained in a rule of general applicability, the information collection is deemed to involve 10 or more persons. See 5 CFR 1320.3(c)(4)(ii). DOL, consequently, must maintain PRA authority to conduct this information collection.

**II. Desired Focus of Comments**

OASAM is soliciting comments concerning the proposed information collection related to the Application for Use of Public Space by Non-DOL Agencies in the Frances Perkins Building. OASAM is particularly interested in comments that:

- Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information has practical utility;
- Evaluate the accuracy of OASAM's estimate of the burden related to the information collection, including the validity of the methodology and assumptions used in the estimate;
- Suggest methods to enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the information collection on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Background documents related to this information collection request are available at <https://regulations.gov> and at DOL-OASAM, located at Office of the Assistant Secretary for Administration and Management, Room N1301, Washington, DC 20210. Questions about the information collection requirements may be directed to the person listed in the **FOR FURTHER INFORMATION CONTACT** section of this notice.

**III. Current Actions**

This information collection request concerns Application for Use of Public Space by Non-DOL Agencies in the Frances Perkins Building. OASAM has updated the data with respect to the number of respondents, responses, burden hours, and burden costs supporting this information collection request from the previous information collection request.

*Type of Review:* Extension.

*Agency:* DOL—OASAM.

*Title of Collection:* Application for Use of Public Space by Non-DOL Agencies in the Frances Perkins Building.

*Form:* Application for Use of Public Space by Non-DOL Agencies in the Frances Perkins Building (Form DL1-6062B).

*OMB Number:* 1225-0087.

*Affected Public:* Private Sector, not-for-profit institutions.

*Number of Respondents:* 10.

*Number of Responses:* 10.

*Annual Burden Hours:* 1 hour.

*Annual Respondent or Recordkeeper Cost:* \$0.

Comments submitted in response to this notice will be summarized in the request for Office of Management and Budget approval of the proposed information collection request; they will become a matter of public record and will be available at <https://www.reginfo.gov>.

(Authority: 44 U.S.C. 3507(a)(1)(D))

**NUCLEAR REGULATORY COMMISSION**

[Docket Nos. 50-275 and 50-323; NRC-2023-0192]

**Pacific Gas and Electric Company; Diablo Canyon Nuclear Power Plant, Units 1 and 2; License Renewal and Record of Decision**

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Notice; issuance.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC) has issued Renewed Facility Operating License Nos. DPR-80 and DPR-82 to Pacific Gas and Electric Company (PG&E) for Diablo Canyon Nuclear Power Plant (Diablo Canyon), Units 1 and 2, respectively. In addition, the NRC has prepared a record of decision (ROD) that supports the NRC's decision to issue Renewed Facility Operating License Nos. DPR-80 and DPR-82.

**DATES:** Renewed Facility Operating License Nos. DPR-80 and DPR-82 were issued on April 2, 2026.

**ADDRESSES:** Please refer to Docket ID NRC-2023-0192 when contacting the NRC about the availability of information regarding this document. You may obtain publicly available information related to this document using any of the following methods:

- *Federal Rulemaking Website:* Go to <https://www.regulations.gov> and search for Docket ID NRC-2023-0192. Address questions about Docket IDs in [Regulations.gov](https://www.regulations.gov) to Bridget Curran; telephone: 301-415-1003; email: [Bridget.Curran@nrc.gov](mailto:Bridget.Curran@nrc.gov). For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin ADAMS Public Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, at 301-415-4737, or by email to [PDR.Resource@nrc.gov](mailto:PDR.Resource@nrc.gov). For the convenience of the reader, instructions about obtaining materials referenced in

this document are provided in the “Availability of Documents” section.

- *NRC’s PDR*: The PDR, where you may examine and order copies of publicly available documents, is open by appointment. To make an appointment to visit the PDR, please send an email to [PDR.Resource@nrc.gov](mailto:PDR.Resource@nrc.gov) or call 1–800–397–4209 or 301–415–4737, between 8 a.m. and 4 p.m. eastern time (ET), Monday through Friday, except Federal holidays.

**FOR FURTHER INFORMATION CONTACT:**

Vaughn Thomas, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001; telephone: 301–415–5897; email: [Vaughn.Thomas@nrc.gov](mailto:Vaughn.Thomas@nrc.gov).

**SUPPLEMENTARY INFORMATION:**

**I. Discussion**

Notice is hereby given that the NRC has issued Renewed Facility Operating License Nos. DPR–80 and DPR–82 to PG&E for Diablo Canyon, Units 1 and 2, respectively. PG&E is the operator of the facility. Renewed Facility Operating License Nos. DPR–80 and DPR–82 authorize PG&E to operate Diablo Canyon, Units 1 and 2, respectively, at reactor core power levels not in excess of 3,411 megawatts thermal, in accordance with the provisions of the Diablo Canyon licenses and technical specifications. Notice is also given that the ROD that supports the NRC’s decision to issue Renewed Facility

Operating License Nos. DPR–80 and DPR–82 is available, and its location is listed in the “Availability of Documents” section of this document.

As discussed in the ROD and the final supplemental environmental impact statement (SEIS), published as NUREG–1437, Supplement 62, “Generic Environmental Impact Statement for License Renewal of Nuclear Plants Regarding License Renewal of Diablo Canyon Nuclear Power Plant, Units 1 and 2, Final Report,” dated June 2025, the final SEIS documents the NRC staff’s environmental review, including the recommendation that the adverse environmental impacts of license renewal (LR) for Diablo Canyon are not so great that preserving the option of LR for energy-planning decisionmakers would be unreasonable. This recommendation is based on (1) the analysis and findings in the NRC’s Generic Environmental Impact Statement for License Renewal of Nuclear Plants, (2) information provided in the environmental report submitted by PG&E, (3) the NRC staff’s consultation with Federal, State, Tribal, and local agencies, (4) the NRC staff’s independent environmental review, and (5) the NRC staff’s consideration of public comments received during the scoping process and on the draft SEIS.

Diablo Canyon consists of two pressurized-water reactors located in San Luis Obispo County, California, approximately 12 miles west-southwest

of San Luis Obispo. PG&E submitted its LR application for Diablo Canyon on November 7, 2023, which it supplemented by letters through February 11, 2026 (see “Availability of Documents” section of this document). The NRC staff has determined that PG&E’s LR application complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the NRC’s regulations. As required by the Act and NRC regulations in title 10 of the *Code of Federal Regulations* (10 CFR), the NRC has made appropriate findings, which are set forth in the renewed licenses.

A public notice of the NRC’s acceptance for docketing of the LR application and an opportunity to request a hearing was published in the *Federal Register* on December 19, 2023 (88 FR 87817).

For further details with respect to this action, see: (1) PG&E’s LR application for Diablo Canyon, dated November 7, 2023, as supplemented by letters through February 11, 2026; (2) the NRC’s safety evaluation, dated June 2025; (3) the NRC’s final SEIS, dated June 2025; and (4) the NRC’s ROD, dated April 2, 2026.

**II. Availability of Documents**

The documents identified in the following table are available to interested persons through ADAMS, as indicated.

Document description	ADAMS accession No.
Diablo Canyon Nuclear Power Plant, Units 1 and 2, License Renewal Application, dated November 7, 2023 .....	ML23311A154.
Record of Decision, License Renewal Application for Diablo Canyon Nuclear Power Plant, Units 1 and 2, dated April 2, 2026.	ML26022A077.
Safety Evaluation Related to the License Renewal of Diablo Canyon Nuclear Power Plant, Units 1 and 2, dated June 2025.	ML25153A508.
NUREG–1437, Supplement 62, “Generic Environmental Impact Statement for License Renewal of Nuclear Plants Regarding License Renewal of Diablo Canyon Nuclear Power Plant, Units 1 and 2, Final Report,” dated June 2025.	ML25156A357.
NUREG–1437, Revision 2, Volumes 1, 2, and 3, Generic Environmental Impact Statement for License Renewal of Nuclear Plants, dated August 2024.	ML24087A133 (Package).
Diablo Canyon Nuclear Power Plant, Units 1 and 2, License Renewal Application—Supplement 1, dated October 14, 2024.	ML24289A118.

BILLING CODE 7590-01-P

## NUCLEAR REGULATORY COMMISSION

[Docket No. 50-615; NRC-2024-0146]

### Tennessee Valley Authority; Clinch River Nuclear Site, Unit 1; Final Supplemental Environmental Impact Statement

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Notice; issuance.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC), in cooperation with the U.S. Army Corps of Engineers, is issuing a final supplemental environmental impact statement (SEIS), “Environmental Impact Statement for a Construction Permit Application at the Clinch River Nuclear Site: Final Report.” The NRC is issuing this final SEIS as part of its review of the application submitted by Tennessee Valley Authority (TVA) for a construction permit (CP) for one GE Vernova Hitachi BWRX-300 small modular reactor (SMR) at a site in Roane County, Tennessee, designated as Clinch River Nuclear Site, Unit 1 (CRN-1). TVA plans to construct and operate CRN-1 to demonstrate the feasibility of constructing and operating the BWRX-300 SMR. The final SEIS evaluates the environmental impacts of the proposed action of issuing a CP that would allow the construction of CRN-1, as well as the environmental impacts of alternatives to the proposed action.

**DATES:** The final SEIS is available as of April 1, 2026.

**ADDRESSES:** Please refer to Docket ID NRC-2024-0146 when contacting the NRC about the availability of information regarding this document. You may obtain publicly available information related to this document using any of the following methods:

- *Federal Rulemaking Website:* Go to <https://www.regulations.gov> and search for Docket ID NRC-2024-0146. Address questions about Docket IDs in *Regulations.gov* to Bridget Curran; telephone: 301-415-1003; email: [Bridget.Curran@nrc.gov](mailto:Bridget.Curran@nrc.gov). For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC’s Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select “Begin ADAMS Public Search.” For problems with ADAMS, please contact the NRC’s Public Document Room (PDR) reference staff at 1-800-397-4209, at 301-415-4737, or by email to [PDR.Resource@nrc.gov](mailto:PDR.Resource@nrc.gov). The final SEIS is available in ADAMS under Accession No. ML26035A285. The ADAMS accession number for each document referenced (if it is available in ADAMS) is provided the first time that it is mentioned in this document.

- *NRC’s PDR:* The PDR, where you may examine and order copies of publicly available documents, is open by appointment. To make an appointment to visit the PDR, please send an email to [PDR.Resource@nrc.gov](mailto:PDR.Resource@nrc.gov) or call 1-800-397-4209 or 301-415-4737, between 8 a.m. and 4 p.m. eastern time, Monday through Friday, except Federal holidays.

- *Project Website:* The final SEIS will also be available online at the CRN-1 project website at <https://www.nrc.gov/reactors/new-reactors/advanced/who-were-working-with/applicant-projects/clinch-river.html>.

**FOR FURTHER INFORMATION CONTACT:** Madelyn Nagel, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-3470; email: [Madelyn.Nagel@nrc.gov](mailto:Madelyn.Nagel@nrc.gov).

#### SUPPLEMENTARY INFORMATION:

##### I. Background

By letters dated April 28, 2025 (ADAMS Accession No. ML25118A209) and May 20, 2025 (ADAMS Package Accession No. ML25140A062), TVA submitted to the NRC, pursuant to section 103 of the Atomic Energy Act of 1954, as amended, and part 50 of title 10 of the *Code of Federal Regulations* (10 CFR), “Domestic Licensing of Production and Utilization Facilities,” an application for a CP that would allow the construction of CRN-1 in Roane County, Tennessee. The proposed facility would house one GE Vernova Hitachi BWRX-300 SMR. This submission initiated the proposed Federal action of determining whether to issue the requested CP. A notice of receipt and availability of the CP application was published in the **Federal Register** on June 10, 2025 (90 FR 24425). A notice of acceptance for docketing of the complete application

and opportunity to request a hearing was published in the **Federal Register** on July 15, 2025 (90 FR 31709). A notice of intent to prepare a supplement to the early site permit environmental impact statement (EIS) was published on July 18, 2025 (90 FR 34015).

As set forth in 10 CFR 51.20(b), issuance of a CP to construct a nuclear power reactor is an action that requires an EIS or a supplement to an EIS. This notice is being published in accordance with the National Environmental Policy Act of 1969, as amended (NEPA), and the NRC’s regulations implementing NEPA at 10 CFR part 51, “Environmental Protection Regulations for Domestic Licensing and Related Regulatory Functions.” In addition, pursuant to section 800.8(c) of title 36 of the *Code of Federal Regulations* (36 CFR), the NRC used the process and documentation for the preparation of the SEIS to comply with section 106 of the National Historic Preservation Act of 1966, as amended, in lieu of the procedures set forth in 36 CFR 800.3 through 800.6.

A notice of availability and request for comment on the draft SEIS was published in the **Federal Register** on November 7, 2025 (90 FR 50498). The public comment period on the draft SEIS ended on December 22, 2025, and the comments received on the draft SEIS are addressed in the final SEIS.

##### II. Discussion

As discussed in the final SEIS, after weighing the environmental, economic, technical, and other benefits against environmental and other costs, and considering reasonable alternatives, the recommendation is, unless safety issues mandate otherwise, that the NRC issue the requested CP to TVA. This recommendation is based on the CP application, information gathered during the environmental audit, and responses to requests for clarifying information; consultation with Federal, State, Tribal, and local agencies; the independent environmental review and assessment summarized in the final SEIS; and consideration of public comments received on the draft SEIS. In addition, no environmentally preferable alternatives that meet the purpose and need for the proposed action were identified; therefore, there is no obvious superior alternative to the proposed action from an environmental perspective.

Dated: April 1, 2026.
