Connect America Fund Phase II Auction

The Commission is requesting the Office of Management and Budget (OMB) approval for this revised information collection. On November 18, 2011, the Commission released the USF/ICC Transformation Order and Further Notice of Proposed Rulemaking, WC Docket No. 10–90 et al., FCC 11–161 (USF/ICC Transformation Order and/or FNPRM), which comprehensively reformed and modernized the high-cost program within the universal service fund to focus support on networks capable of providing voice and broadband services. Among other things, the Commission created the CAF and concluded that support in price cap areas would be provided through a combination of “a new forward-looking model of the cost of constructing modern multi-purpose networks” and a competitive bidding process (CAF Phase II auction or Auction 903). The Commission also sought comment in the accompanying USF/ICC Transformation FNPRM on proposed rules governing the CAF Phase II auction, including basic auction design and the application process.

In the CAF Phase II auction, service providers competed to receive support of up to \$1.98 billion over 10 years to offer voice and broadband service in unserved high-cost areas. The information collection requirements reported under this collection are the result of several Commission decisions to implement the reform adopted in the *USF/ICC Transformation Order* and move forward with conducting the CAF Phase II auction. In the *April 2014 Connect America Order*, WC Docket No. 10–90 et al., FCC 14–54, the Commission adopted various rules regarding participation in the CAF Phase II auction, the term of support, and the eligible telecommunications carrier (ETC) designation process. In the *Phase II Auction Order*, WC Docket No. 10–90 et al., FCC 16–64, the Commission adopted rules to govern the CAF Phase II auction, including the adoption of a two-stage application process, which includes a pre-auction short-form application to be submitted by parties interested in bidding in the CAF Phase II auction and a post-auction long-form application that must be submitted by winning bidders seeking to become authorized to receive CAF Phase II auction support. The Commission concluded, based on its experience with auctions and consistent

with the record, that this two-stage application process balances the need to collect information essential to conducting a successful auction and authorizing CAF Phase II support with administrative efficiency.

On January 30, 2018, the Commission adopted a public notice that established the final procedures for the CAF Phase II auction, including the long-form application disclosure and certification requirements for winning bidders seeking to become authorized to receive CAF Phase II auction support. *See Phase II Auction Procedures Public Notice*, WC Docket No. 17–182 et al., FCC 18–6. The Commission also adopted the *Phase II Auction Order on Reconsideration*, WC Docket No. 10–90 et al., FCC 18–5, which modified the Commission’s letter of credit rules to provide some additional relief for CAF Phase II auction support recipients by reducing the costs of maintaining a letter of credit. On January 19, 2023, WCB released a public notice announcing that the Commission had concluded its review of CAF Phase II auction long-form applications. *See WCB Concludes CAF II Application Review, Long-Forms Made Public*, AU Docket No. 17–182 et al., DA 23–49.

The Commission eliminated the information collection requirements related to the CAF Phase II auction FCC Form 683 now that its review of CAF Phase II auction long-form applications has concluded.

Rural Digital Opportunity Fund Auction

On February 7, 2020 the Commission released the *Rural Digital Opportunity Fund Order*, WC Docket Nos. 19–126, 10–90, FCC 20–5 which will commit up to \$20.4 billion over the next decade to support up to gigabit speed broadband networks in rural America. Funding was allocated through a multi-round, reverse, descending clock auction that favored faster services with lower latency and encouraged intermodal competition in order to ensure that the greatest possible number of Americans will be connected to the best possible networks, all at a competitive cost.

To implement the Rural Digital Opportunity Fund auction (or Auction 904), the Commission adopted new rules for the Rural Digital Opportunity Fund auction, including the adoption of a two-stage application process. Like with the CAF Phase II auction, this process included a pre-auction short-form application submitted by parties interested in bidding in the Rural Digital Opportunity Fund auction (FCC Form 183) and a post-auction long-form application that must be submitted by

winning bidders (or their designees) seeking to become authorized to receive Rural Digital Opportunity Fund support (FCC Form 683). The Commission received approval for the short-form application (FCC Form 183) in a separate collection under the OMB control number 3060–1252.

On September 30, 2025, the Commission adopted an order that conducted a comprehensive review of legacy requirements and determined that certain high-cost program rules no longer serve any operational purpose. *Delete, Delete Delete; Removal of Obsolete Regulations*; GN Docket No. 25–133, FCC 25–68 (rel. September 30, 2025) (*Delete, Delete, Delete*). This requested change results from the Commission’s decision in that proceeding. The Commission determined that 47 CFR 54.315(a) and (b) and 47 CFR 54.804(a) and (b) are outdated and obsolete, and unnecessary because all associated proposals using FCC Form 683 have concluded.

Therefore, the Commission proposes to remove the application requirement and retains only the limited ongoing requirements related to the annual maintenance of letters of credit under 47 CFR 54.315(c) CAF Phase II and 54.804(c) RDOF.
