SUPPLEMENTARY INFORMATION:

Title: Movement of Plants and Plant Products from Hawaii and the Territories.

OMB Control Number: 0579-0346.

Type of Request: Revision to and extension of approval of an information collection.

Abstract: The Plant Protection Act (PPA, 7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture to restrict the importation, entry, or interstate movement of plants, plant products, and other articles to prevent the introduction of plant pests into the United States or their dissemination within the United States. This authority has been delegated to the Animal and Plant Health Inspection Service (APHIS), which administers regulations to implement the PPA.

In 7 CFR part 318, under the regulations in "Subpart A—Regulated Articles from Hawaii and the Territories" (§§ 318.13-1 through 318.13-17), APHIS prohibits or restricts the interstate movement of fruits and vegetables into the continental United States from Hawaii, Puerto Rico, the U.S. Virgin Islands, Guam, and the Commonwealth of the Northern Mariana Islands to prevent plant pests and noxious weeds from being introduced into and spread within the continental United States.

The regulations contain requirements for a performance-based process for approving the interstate movement of commodities that, based on the findings of a pest risk analysis, can be safely imported subject to one or more designated phytosanitary measures and for acknowledging pest-free areas. These requirements involve information collection activities, including limited permits, inspections to issue limited permits, inspections of production areas, transit permits, compliance agreements, inspection and certification, labeling for fruits and vegetables produced in pest-free areas, written requests for facility approvals, trapping and surveillance, and recordkeeping. In addition, the activities of packaging, marking, identification, and certification of sweet potatoes from Hawaii are also included.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for 3 years. APHIS has amended this information collection due to a decrease in the number of Respondents reporting; however, the number of Responses and the Total Burden Hours reported for the collection has increased.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies, *e.g.*, permitting electronic submission of responses.

Estimate of burden: The public burden for this collection of information is estimated to average 0.151 hours per response.

Respondents: Wholesalers and producers of fruits and vegetables; growers, shippers, and exporters in Hawaii, U.S. Territories, and State plant regulatory officials; and irradiation facility personnel.

Estimated annual number of respondents: 73.

Estimated annual number of responses per respondent: 301.
Estimated annual number of responses: 21,950.
Estimated total annual burden on respondents: 3,304 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)
 All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 2nd day of April 2026.

Kelly Moore,
 Administrator, Animal and Plant Health Inspection Service.

[Agency Docket Number: CRCCRRB-2026-0009-N]

The Review Board previously issued its determinations on these records except for 18 proposed postponements of sealed federal grand jury information which required additional review and coordination with the agencies. On March 27, 2026, the Review Board met and decided to approve these postponements. It declined to request that the Attorney General petition the relevant court to unseal this information at this time though it may choose to do so in the future. The Review Board also received 1,197 pages of records from NARA related to another three civil rights cold case incidents to which the Review Board assigned the unique identifiers 2024-003-017, 2024-003-047, and 2024-004-001. NARA proposed 44 postponements including postponements of sealed federal grand

jury information in the records. On March 27, 2026, the Review Board met and determined that 1,187 pages in full and 10 pages in part should be publicly disclosed in the Civil Rights Cold Case Records Collection. The Review Board will not request that the Attorney General petition the relevant court to unseal the federal grand jury information in these records at this time though it may choose to do so in the future. By issuing this notice, the Review Board complies with the Civil Rights Cold Case Records Collection Act of 2018 that requires the Review Board to publish in the **Federal Register** its determinations on the disclosure or postponement of records in the Collection no more than 14 days after the date of its decision.
