

Title of Collection: 30 CFR part 1220, OCS Net Profit Share Payment Reporting.

OMB Control Number: 1012-0009.

Form Numbers: None.

Type of Review: Extension of a currently approved collection.

Respondents/Affected Public: Businesses.

Total Estimated Number of Annual Respondents: 3.

ONRR does not currently have any active NPSLs in its system because the leases have either expired, were terminated, or relinquished. However, because the authority to issue similar leases may still exist, ONRR does not anticipate—but also cannot entirely rule out—the possibility of future monthly sales reports. Furthermore, companies may still be within the allowable timeframe to adjust prior reporting. Between January 2022 and January 2026, ONRR received three adjustment royalty reports. For these reasons, the time burden associated with this ICR has decreased as ONRR expects only a minimal number of additional adjustments for NPSLs.

ONRR excluded estimates of certain requirements performed in the normal course of business that are considered usual and customary.

Total Estimated Number of Annual Responses: 3.

Total Estimated Number of Annual Burden Hours: 9 hours.

Estimated Completion Time per Response: 3 hours.

Respondent's Obligation: Mandatory.

Frequency of Collection: On occasion.

Estimated Annual Non-Hour Cost Burden: ONRR has identified no “non-hour” cost burden associated with the collection of information.

An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the PRA (44 U.S.C. 3501 *et seq.*).

April Lockler,

Acting Director of the Office of Natural Resources Revenue.

BILLING CODE 4335-30-P

INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 701-TA-761, 701-TA-763, 731-TA-1743 and 731-TA-1745 (Final)]

Silicon Metal From Angola, Laos, and Thailand

Determinations

On the basis of the record¹ developed in the subject investigations, the United States International Trade Commission (“Commission”) determines, pursuant to the Tariff Act of 1930 (“the Act”), that an industry in the United States is materially injured by reason of imports of silicon metal from Laos, provided for in subheadings 2804.69.10 and 2804.69.50 of the Harmonized Tariff Schedule of the United States, that have been found by the U.S. Department of Commerce (“Commerce”) to be sold in the United States at less than fair value (“LTFV”), and subsidized by the government of Laos.² The Commission also determines that a U.S. industry is threatened with material injury by reason of imports of silicon metal from Angola that are sold at LTFV.³ The Commission further determines that imports of silicon metal from Thailand found by Commerce to be subsidized by the government of Thailand are negligible and terminates the countervailing duty investigation concerning Thailand.⁴

Background

The Commission instituted these investigations effective April 24, 2025, following receipt of petitions filed with the Commission and Commerce by Ferroglobe USA, Inc., Beverly, Ohio, and Mississippi Silicon LLC, Burnsville, Mississippi. The final phase of the investigations was scheduled by the Commission following notification of preliminary determinations by Commerce that imports of silicon metal from Laos and Thailand were subsidized within the meaning of section 703(b) of the Act (19 U.S.C. 1671b(b)) and imports from Angola and Laos were sold at LTFV within the meaning of 733(b) of the Act (19 U.S.C. 1673b(b)). Notice of the scheduling of the final phase of the Commission’s investigations and of a public hearing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission,

Washington, DC, and by publishing the notice in the **Federal Register** on November 26, 2025 (90 FR 54365).⁵ The Commission conducted its hearing on February 19, 2026. All persons who requested the opportunity were permitted to participate.

The Commission made these determinations pursuant to §§ 705(b) and 735(b) of the Act (19 U.S.C. 1671d(b) and 19 U.S.C. 1673d(b)). It completed and filed its determinations in these investigations on April 6, 2026. The views of the Commission are contained in USITC Publication 5720 (April 2026), entitled *Silicon Metal from Angola, Laos, and Thailand: Investigation Nos. 701-TA-761, 701-TA-763, 731-TA-1743 and 731-TA-1745 (Final)*.

By order of the Commission.

Issued: April 6, 2026.

Lisa Barton,

Secretary to the Commission.
