The meeting will adjourn at 6:00 p.m. and will continue Thursday, May 14, 2026, at 8:00 a.m. The STIB members will meet to assess the feasibility and advisability of designating the Ronald Reagan Ballistic Missile War Test Site and United States Army Garrison Kwajalein Atoll as facilities and resources comprising the Major Range and Test Facility Base, including with respect to the availability and mission capability of such test site and garrison, with working lunch and periodic breaks. Next, Ms. Elizabeth Kowalski, DFO and Dr. Mitch Nikolich, STIB, will provide closing remarks regarding the day's classified overview of the objectives of FY 25 NDAA Section 245, Designation of Certain Facilities on Kwajalein Atoll as a Major Range and Test Facility Base. The meeting will adjourn at 6:00 p.m.

Meeting Accessibility: In accordance with 5 U.S.C. 1009(d) and 41 CFR 102–3.155, DoW has determined that this STIB meeting will be closed to the public. Specifically, the Under Secretary of War for Research and Engineering, in consultation with the DoW Office of General Counsel, has determined in writing that the meeting will be closed to the public because discussions fall under the purview of 5 U.S.C. 552b(c)(1). The determination is based on the consideration that discussions throughout will involve classified matters of national security concern. Such classified material is so intertwined with the unclassified material that it cannot reasonably be segregated into separate discussions without defeating the effectiveness and meaning of the overall meetings. To permit the meeting to be open to the

public would preclude discussion of such matters and would greatly diminish the ultimate utility of the STIB's findings and recommendations to the Secretary of War and to the Under Secretary of War for Research and Engineering.

Written Statements: In accordance with 5 U.S.C. 1009(a)(3) and 41 CFR 102–3.140(c) and 102–3.150(6) interested persons may submit a written statement for consideration by the STIB at any time, subject to such reasonable rules or regulations as the Administrator may prescribe. Individuals submitting a written statement must submit their statement to the STIB DFO at the email address provided above in the **FOR FURTHER INFORMATION CONTACT** section. If a written statement for consideration at a meeting is not received at least three days prior to the meeting, which is the subject of this notice, then it may not be provided to, or considered by, the STIB until a later date. Please note that all submitted comments and statements will be treated as public documents and will be made available for public inspection.

Date: April 9, 2026.

[Docket No. CP23-29-002]

Saguaro Connector Pipeline, LLC; Notice of Request for Extension of Time

Take notice that on April 1, 2026, Saguaro Connector Pipeline, LLC (Saguaro) requested that the Commission grant an extension of time, until February 15, 2030, to construct and place into service its Border Facility Project (Project) involving the construction of an approximately 1,000 foot-long, 48-inch-diameter pipeline from the United States-Mexico border at the center of the Rio Grande River to a point approximately 1,000 feet inland from the river, about 18 miles southwest of Sierra Blanca in Hudspeth County, Texas as authorized in the Order Issuing

Presidential Permit and Granting Authorization Under Section 3 of the Natural Gas Act (Order).¹ The Order required Saguaro to complete construction of the Project and make it available for service within three years of the date of the Order, or by February 15, 2027.

Saguaro states that since the issuance of the Order, the Project has been delayed and construction of the facilities has not yet commenced, due in large part to the uncertainty of the pending litigation, commercial negotiations, and a delay in the commencement of service of the downstream LNG terminal on the Mexican side of the border. Saguaro reiterates that the Project is part of an overall package of investment to supply a to-be-constructed LNG terminal in Mexico with access to supplies from the Waha Hub. Saguaro states that it prudently hesitated to proceed with a final investment decision and construction plans while the appeals process was ongoing. However, now that there is certainty regarding the section 3 authorization and Presidential Permit in place, Saguaro has been in negotiations with the original shipper as well as new shippers interested in utilizing the Project. Given the current interest in the Project after nearly a year and a half of pending litigation, Saguaro needs additional time to discuss its financing options with interested shippers.

This notice establishes a 15-calendar day intervention and comment period deadline. Any person wishing to comment on Saguaro's request for an extension of time may do so. No reply comments or answers will be considered. If you wish to obtain legal status by becoming a party to the proceedings for this request, you should, on or before the comment date stated below, file a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (NGA) (18 CFR 157.10).

As a matter of practice, the Commission itself generally acts on requests for extensions of time to complete construction for NGA facilities when such requests are contested before order issuance. For those extension
