BILLING CODE 3410-KR-P

DEPARTMENT OF AGRICULTURE**Farm Service Agency**

[Docket ID: FSA-2026-0199]

**Information Collection Request;
Inventory Property Management**

AGENCY: Farm Service Agency, USDA.

ACTION: Notice; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, the Farm Service Agency (FSA) is requesting comments from all interested individuals and organizations on a revision of a currently approved collection associated with the Inventory Property Management. In the Inventory Property Management, the collected information is used to evaluate applicant requests to purchase inventory property, determine eligibility to lease or purchase inventory property, and ensure the payment of the lease amount or purchase amount associated with the acquisition of inventory property.

DATES: We will consider comments that we receive by June 12, 2026.

ADDRESSES: We invite you to submit comments on the notice. You may submit comments by any of the following methods:

- *Federal eRulemaking Portal:* Go to <http://regulations.gov> and search for docket ID FSA-2026-0199. Follow the online instructions for submitting comments.

- *Mail:* Lee Nault, Loan Servicing and Properties Management Division, USDA, FSA, Farm Loan Programs, 1400 Independence Ave. SW, Mail Stop 0523 Washington, DC 20250-00523.

Comments will be available for inspection online at <http://>

www.regulations.gov. Copies of the information collection may be requested by contacting Lee Nault (see **FOR FURTHER INFORMATION CONTACT** below).

You may also send comments to the Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Lee Nault, (202) 720-6834; email:

Lee.Nault@usda.gov. Persons with disabilities who require alternative means for communication should contact the USDA Target Center at (202) 720-2600 (voice).

SUPPLEMENTARY INFORMATION:**Description of Information Collection Request**

Title: Inventory Property Management.

OMB Number: 0560-0234.

Expiration Date of Approval: July 31, 2026.

Type of Request: Revision.

Abstract: FSA is requesting comments from all interested individuals and organizations on a revision of a currently approved information collection request associated with Inventory Property Management. FSA's Farm Loan Programs provide supervised credit in the form of loans to family farmers to purchase real estate and equipment and finance agricultural production. Inventory Property Management, as specified in 7 CFR part 767, provides the requirements for the management, lease, and sale of security property acquired by FSA. FSA may take title to real estate as part of dealing with a problem loan either by entering a winning bid to protect its interest at a foreclosure sale, or by accepting a deed of conveyance in lieu of foreclosure. Information collections established in the regulation are necessary for FSA to determine an applicant's eligibility to lease or purchase inventory property and to ensure the applicant's ability to make

payment on the lease or purchase amount. The number of responses and total burden hours increase in this request. While the overall number of inventory properties on hand has decreased by 20.45 percent since the last collection, the increase in responses and burden hours is due to a higher estimated number of inventory properties that will be sold annually. The projected number of properties to be sold has been revised upward because FSA has resumed the sale of inventory properties and due to the anticipated rate at which new properties are acquired.

For the following estimated total annual burden on respondents, the formula used to calculate the total burden hour is the estimated average time per responses hours multiplied by the estimated total annual responses.

Estimate of Respondent Burden:

Public reporting burden for this collection of information is estimated to average 0.56 hours per response.

Type of Respondents: Individuals or households, business or other for-profit, and farms.

Estimated Annual Number of Respondents: 202.

Estimated Number of Responses per Respondent: 1.

Estimated Total Annual Responses: 202.

Estimated Average Time per Responses: 0.56 hours.

Estimated Total Annual Burden on Respondents: 113 hours.

We are requesting comments on all aspects of this information collection to help us to:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of FSA, including whether the information will have practical utility;

(2) Evaluate the accuracy of FSA's estimate of burden including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected;

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All responses to this notice, including names and addresses when provided, will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

William Beam,

Administrator, Farm Service Agency.

BILLING CODE 3411-E2-P

DEPARTMENT OF AGRICULTURE

Forest Service

Information Collection: State Forest Law and Policy

AGENCY: Forest Service, Agriculture (USDA).

ACTION: Notice; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, the Forest Service is seeking comments from all interested individuals and organizations on a new information collection request (ICR), State Forest Law and Policy (OMB 0596-NEW). This collection will obtain information regarding how States and U.S. Territories regulate and incentivize forest management on private and State lands.

DATES: Comments must be received in writing on or before June 12, 2026 to be assured of consideration. Comments received after that date will be considered to the extent practicable.

ADDRESSES: Comments concerning this notice should be addressed to Gregory Frey, Research Forester, USDA Forest Service, Southern Research Station, 3041 East Cornwallis Rd., Durham, NC 27713. Comments also may be submitted by email to gregory.e.frey@usda.gov. Please include "Comments re: 'State Forest Law and Policy'" in the subject line.

Comments submitted in response to this notice may be made available to the public through relevant websites and upon request. For this reason, please do not include in your comments information of a confidential nature, such as sensitive personal information or proprietary information. If you send an email comment, your email address

will be automatically captured and included as part of the comment that is placed in the public docket and made available on the internet. Please note that responses to this public comment request containing any routine notice about the confidentiality of the communication will be treated as public comments that may be made available to the public notwithstanding the inclusion of the routine notice.

The public may request an electronic copy of the draft supporting statement and/or any comments received be sent via return email. Requests should be emailed to gregory.e.frey@usda.gov.

FOR FURTHER INFORMATION CONTACT:

Gregory Frey, Research Forester, USDA Forest Service, by phone at 919-549-4025, or by email at gregory.e.frey@usda.gov.

Individuals who are deaf, hard of hearing, or have a speech disability may call 711 to reach the Telecommunications Relay Service then provide the phone number of the person named as a point of contact for further information.

SUPPLEMENTARY INFORMATION:

Title: State Forest Law and Policy.

OMB Number: 0596-NEW.

Expiration Date of Approval: N/A.

Type of Request: New information collection.

Abstract: This new collection will address how States and U.S. Territories regulate and incentivize forest management on private and state lands. Congress has authorized the USDA Forest Service to collect and generate information including about how laws, public policies, regulations, and other factors influence and affect the use, ownership, and management of forest lands.

Legislation authorizing the development and dissemination of such science-based information includes the Forest and Rangeland Renewable Resources Planning Act of 1974, the National Agricultural Research, Extension, and Teaching Policy Act of 1977, and the Forest and Rangeland Renewable Resources Research Act of 1978. Further, the Cooperative Forestry Assistance Act of 1978 directs the Forest Service to coordinate and work cooperatively with state agencies, and such coordination and cooperation may be facilitated by having a greater understanding of the state-level policy context for forestry. Also, the Foundations for Evidence-Based Policymaking Act of 2018 directs agencies to evaluate how agency programs, policies, and regulations contribute to agency missions, and understanding state-level programs,

policies, and regulations can provide information relevant to this goal. The information proposed to be collected under this approval contributes to USDA Forest Service mission and strategic goals, including to sustain our Nation's forests.

Information will be collected on various topics, organized as "Modules," which are planned to be re-collected on multi-year cycles.

Modules include:

(1) State financial incentive payment programs for private forests

(2) State regulation of forest management and timber harvests, including Forest Practices Acts, rules, and voluntary practices

(3) Resilient forest management policies and practices

We will collect information from knowledgeable individuals at State or Territory forestry or natural resource agencies; State or Territory tax agencies; State or Territory Cooperative Extension services, or related organizations. These individuals will be identified through contacts and correspondence with State or Territory Foresters or their representatives.

This information is valuable for a number of purposes:

(1) As a basic dataset for researchers to evaluate the impact of policies.

(2) For forest users and managers to understand what is allowed in their State or Territory and opportunities to enhance productivity, economic returns, and provision of ecosystem services.

(3) For policymakers to understand how policies and programs differ from State to State.

(4) For the USDA Forest Service to generate a baseline of information and periodic monitoring updates for national and international reporting considerations.

Notably, some of this information is available by reading State statutory and administrative codes (laws and regulations). However, interpretation and implementation can be variable by State or laws and regulations can interact, which can lead people to misconstrue how forests are regulated, incentivized, and managed in practice. Knowledgeable in-state contacts can help verify researchers' interpretations or help identify and synthesize information from multiple sources in the state. Furthermore, considerations other than the law itself can impact how policies and programs work in practice. For example, a program might be authorized by a law but not funded through appropriations. Finally, various important aspects may not be easily discernible from the legislative, administrative, or other written record.
