

published. 44 U.S.C. 3507(b) and (c); 5 CFR 1320.12(d); *see also* 60 FR 44978, 44983 (Aug. 29, 1995). The 30-day notice informs the regulated community of their opportunity to file relevant comments and affords the agency adequate time to consider public comments before it renders a decision. 60 FR 44983 (Aug. 29, 1995). Therefore, respondents should submit their respective comments to OMB within 30 days of publication to best ensure having their full effect.

Comments are invited on the following ICR regarding: (1) whether the information collection activities are necessary for FRA to properly execute its functions, including whether the information will have practical utility; (2) the accuracy of FRA's estimates of the burden of the information collection activities, including the validity of the methodology and assumptions used to determine the estimates; (3) ways for FRA to enhance the quality, utility, and clarity of the information being collected; and (4) ways to minimize the burden of information collection activities on the public, including the use of automated collection techniques or other forms of information technology.

The summary below describes the ICR that FRA will submit for OMB clearance as the PRA requires:

*Title:* Bad Order and Home Shop Card and Stenciling Reporting Mark.

*OMB Control Number:* 2130-0519.

*Abstract:* Under 49 CFR part 215, railroads are required to inspect freight cars placed in service and take remedial action when defects are identified. Under 49 CFR 215.11, a railroad must also maintain a record for each of the designated persons qualified to inspect railroad freight cars for part 215 compliance. A railroad freight car with a part 215 defect may be moved to another location for repair only after the railroad has complied with the process under 49 CFR 215.9. Section 215.9 requires railroads to affix a "bad order" tag (or card) describing each defect to each side of the freight car. It is imperative that a defective freight car be tagged "bad order" (or "home shop for repairs") so it can be readily identified and moved to another location for repair purposes only, and so that the maximum speed and other restrictions necessary for safely conducting the movement are known. At the repair location, the "bad order" tag serves as a notification of the defective condition of the freight car. Railroads must retain each tag for 90 days to verify that proper repairs were made at the designated location. When inspecting freight cars, FRA and State inspectors review all

pertinent records to determine railroads' compliance with the movement restrictions of § 215.9.

In addition, § 215.301 requires railroads and private car owners to stencil or otherwise display identification marks on freight cars, including a car number and build date. FRA uses identification marks to help obtain certain information related to a car's compliance with Federal safety requirements. The marks are used consistently across railroad records to identify the car and show: the type of car, what it is carrying, its movement history, and current maintenance schedule. Using the marks to identify the car helps FRA determine the application of Federal safety requirements to that car and who is responsible for compliance. FRA also uses this information to determine if the freight car qualifies for dedicated service and is excluded from the requirements of part 215. Railroads use the required information to provide identification and control so that dedicated cars remain in the prescribed service.

*Type of Request:* Extension without change of a currently approved collection.

*Affected Public:* Businesses.

*Form(s):* N/A.

*Respondent Universe:* 754 railroads.

*Frequency of Submission:* On occasion.

*Total Estimated Annual Responses:* 285,000.

*Total Estimated Annual Burden:* 38,000 hours.

*Total Estimated Annual Burden Hour Dollar Cost Equivalent:* \$2,789,580.

FRA informs all interested parties that it may not conduct or sponsor, and a respondent is not required to respond to, a collection of information that does not display a currently valid OMB control number.

*Authority:* 44 U.S.C. 3501-3520.

**Christopher S. Van Nostrand,**

*Deputy Chief Counsel.*

## DEPARTMENT OF TRANSPORTATION

### Federal Railroad Administration

[Docket Number FRA-2026-0563]

#### Petitions for Special Approval of One-Person Train Crew Operations

**AGENCY:** Federal Railroad Administration (FRA), Department of Transportation (DOT).

**ACTION:** Notice.

**SUMMARY:** This document provides the public notice that Georgia Central Railway (GC) petitioned FRA for special approval to operate with a one-person train crew.

**DATES:** *Comments:* FRA must receive comments on the petition by May 14, 2026. FRA will consider comments received after that date to the extent practicable.

**ADDRESSES:** *Comments:* You may submit comments identified by the docket number FRA-2026-0563 via the *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the online instructions for submitting comments.

- *Instructions:* All submissions must include the agency name and docket number. All comments received will be posted without change to <https://www.regulations.gov>; this includes any personal information. Please see the Privacy Act heading in the **SUPPLEMENTARY INFORMATION** section of this document for Privacy Act information related to any submitted comments or materials.

- *Docket:* For access to the docket to read background documents or comments received, go to <https://www.regulations.gov> and follow the online instructions for accessing the docket.

**FOR FURTHER INFORMATION CONTACT:** Christian Holt, Staff Director, Operating Practices Division, FRA, telephone: 202-366-0978, email: [FRAOPCERTPROG@dot.gov](mailto:FRAOPCERTPROG@dot.gov); or Alan Nagler, Attorney Adviser, FRA, telephone: 202-657-2848, email: [alan.nagler@dot.gov](mailto:alan.nagler@dot.gov).

**SUPPLEMENTARY INFORMATION:** Under title 49 Code of Federal Regulations (CFR) part 218, subpart G, this document provides the public notice that by letter dated November 7, 2025 GC petitioned FRA for special approval of a one-person train crew operation in Docket Number FRA-2026-0563.

Specifically, GC seeks special approval under 49 CFR 218.135, *Special approval procedure*, to initiate a one-person train crew operation in two locations: the Macon Subdivision and the Savannah Subdivision. FRA's preliminary review indicates that the special approval petition included the information required in 49 CFR 218.131(b). GC must not implement the operation until it receives FRA's approval that the petition is as safe or safer than a two-person minimum train crew.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at [www.regulations.gov](http://www.regulations.gov). Interested parties

are invited to participate in these proceedings by submitting written views, data, or comments.

FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested parties desire an opportunity for oral comment and a public hearing, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

Communications received by May 14, 2026 will be considered by FRA before final action is taken. Comments received after that date will be considered if practicable.

**Privacy Act:** Anyone can search the electronic form of any written communications and comments received into any of FRA's dockets by the name of the individual submitting the comment (or signing the document, if submitted on behalf of an association, business, labor union, etc.). Under 5 U.S.C. 553(c), DOT solicits comments from the public to inform its processes. DOT posts these comments, without edit, including any personal information the commenter provides, to [www.regulations.gov](http://www.regulations.gov), as described in the system of records notice (DOT/ALL-14 FDMS), which can be reviewed at <https://www.transportation.gov/privacy>. See also <https://www.regulations.gov/privacy-notice> for the privacy notice of [www.regulations.gov](http://www.regulations.gov). Whether or not commenters identify themselves, all timely comments will be fully considered. If you wish to provide comments containing proprietary or confidential information, please contact the agency for alternate submission instructions.

Issued in Washington, DC.

**John Karl Alexy,**

*Associate Administrator for Railroad Safety,  
Chief Safety Officer.*

## DEPARTMENT OF TRANSPORTATION

### Federal Railroad Administration

[Docket No. FRA-2026-0034]

#### Proposed Agency Information Collection Activities; Comment Request

**AGENCY:** Federal Railroad Administration (FRA), Department of Transportation (DOT).

**ACTION:** Notice of information collection; request for comment.

**SUMMARY:** Under the Paperwork Reduction Act of 1995 (PRA) and its

implementing regulations, this notice announces that FRA is forwarding the Information Collection Request (ICR) summarized below to the Office of Management and Budget (OMB) for review and comment. The ICR describes the information collection and its expected burden. On January 30, 2026, FRA published a notice providing a 60-day period for public comment on the ICR. FRA received no comments in response to the notice.

**DATES:** Interested persons are invited to submit comments on or before May 14, 2026.

**ADDRESSES:** Written comments and recommendations for the proposed ICR should be sent within 30 days of publication of this notice to <https://www.reginfo.gov/public/do/PRAMain>. Find the particular ICR by selecting "Currently under Review—Open for Public Comments" or by using the search function.

**FOR FURTHER INFORMATION CONTACT:** Ms. Joanne Swafford, Information Collection Clearance Officer, at email: [joanne.swafford@dot.gov](mailto:joanne.swafford@dot.gov) or telephone: (757) 897-9908.

**SUPPLEMENTARY INFORMATION:** The PRA, 44 U.S.C. 3501-3520, and its implementing regulations, 5 CFR part 1320, require Federal agencies to issue two notices seeking public comment on information collection activities before OMB may approve paperwork packages. See 44 U.S.C. 3506, 3507; 5 CFR 1320.8 through 1320.12. On January 30, 2026, FRA published a 60-day notice in the **Federal Register** soliciting public comment on the ICR for which it is now seeking OMB approval. See 91 FR 4164. FRA received zero comments related to the proposed collection of information.

Before OMB decides whether to approve this proposed collection of information, it must provide 30 days' notice for public comment. Federal law requires OMB to approve or disapprove paperwork packages between 30 and 60 days after the 30-day notice is published. 44 U.S.C. 3507(b) and (c); 5 CFR 1320.12(d); see also 60 FR 44978, 44983 (Aug. 29, 1995). The 30-day notice informs the regulated community of their opportunity to file relevant comments and affords the agency adequate time to consider public comments before it renders a decision. 60 FR 44983 (Aug. 29, 1995). Therefore, respondents should submit their respective comments to OMB within 30 days of publication to best ensure having their full effect.

Comments are invited on the following ICR regarding: (1) whether the information collection activities are necessary for FRA to properly execute

its functions, including whether the information will have practical utility; (2) the accuracy of FRA's estimates of the burden of the information collection activities, including the validity of the methodology and assumptions used to determine the estimates; (3) ways for FRA to enhance the quality, utility, and clarity of the information being collected; and (4) ways to minimize the burden of information collection activities on the public, including the use of automated collection techniques or other forms of information technology.

The summary below describes the ICR that FRA will submit for OMB clearance as the PRA requires:

**Title:** Remotely Controlled Switch Operations.

**OMB Control Number:** 2130-0516.

**Abstract:** 49 CFR 218.30 and 218.77 require that remotely controlled switches be properly lined to protect workers as they inspect or service rolling equipment or occupied camp cars on track. These sections require the operators of the remotely controlled switches to remove the locking device controlling the switches only once they have been informed by the person in charge of the workers that it is safe to do so. In addition, these operators are required to maintain a record of each protection request for 15 days. Operators of remotely controlled switches use the information in this record to document protection of workers or camp cars. This record also serves as a valuable resource for railroad supervisors as well as FRA and State inspectors monitoring regulatory compliance.

**Type of Request:** Extension without change (with changes in estimates) of a currently approved collection.

**Affected Public:** Businesses.

**Form(s):** N/A.

**Respondent Universe:** 53 railroads.

**Frequency of Submission:** On occasion.

**Total Estimated Annual Responses:** 1,837,850.

**Total Estimated Annual Burden:** 22,973 hours.

**Total Estimated Annual Burden Hour Dollar Cost Equivalent:** \$1,656,812.76.

FRA informs all interested parties that it may not conduct or sponsor, and a respondent is not required to respond to, a collection of information that does not display a currently valid OMB control number.

**Authority:** 44 U.S.C. 3501-3520.

**Christopher S. Van Nostrand,**  
*Deputy Chief Counsel.*
