Centers for Disease Control and Prevention

[30Day-26-1335]

Agency Forms Undergoing Paperwork Reduction Act Review

In accordance with the Paperwork Reduction Act of 1995, the Centers for Disease Control and Prevention (CDC) has submitted the information collection request titled “Maritime-related Public Health Activities” to the Office of Management and Budget (OMB) for review and approval. CDC previously published a “Proposed Data Collection Submitted for Public Comment and Recommendations” notice on January 15, 2026 to obtain comments from the public and affected agencies. CDC received one comment related to the previous notice. This notice serves to allow an additional 30 days for public and affected agency comments.

CDC will accept all comments for this proposed information collection project. The Office of Management and Budget is particularly interested in comments that:

(a) Evaluate whether the proposed collection of information is necessary

for the proper performance of the functions of the agency, including whether the information will have practical utility;

(b) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(c) Enhance the quality, utility, and clarity of the information to be collected;

(d) Minimize the burden of the collection of information on those who are to respond, including, through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses; and

(e) Assess information collection costs.

To request additional information on the proposed project or to obtain a copy of the information collection plan and instruments, call (404) 639-7570. Comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function. Direct written comments and/or suggestions regarding the items contained in this notice to the Attention: CDC Desk Officer, Office of Management and Budget, 725 17th Street NW, Washington, DC 20503 or by fax to (202) 395-5806. Provide written comments within 30 days of notice publication.

Proposed Project

Maritime-related Public Health Activities (OMB Control 0920-1335)—Reinstatement—National Center for Emerging and Zoonotic Infectious Diseases (NCEZID), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

The goal of this information collection is to ensure that, consistent with the

authorities in the Public Health Service Act and CFR parts 70 and 71, CDC is able to prevent the introduction, transmission and spread of communicable diseases from foreign countries into the United States or from one state or possession into any other state or possession.

This information collection focuses on: (1) ensuring ill travelers and deaths on maritime conveyances (operating or intending to operate in U.S. waters) are reported to CDC as required under regulation; and (2) gathering information needed to help CDC, ships, and state and local health departments understand if they need to conduct public health response and follow-up in the event a traveler on a ship is known to be infectious (confirmed case) or potentially infectious (suspected case), presenting a risk of disease spread to others. Travelers would include ship’s passengers or crew, as well as travelers who have disembarked or were removed from the ship due to illness or death.

Historically, some of these maritime-related information collection activities were approved under different OMB control numbers including Maritime Illness and Death Reporting (OMB Control No. 0920-0134, Exp. 3/31/2026), and Outcome Reporting information collections (OMB Control No. 0920-0900, Exp. 9/30/2027). With this current submission, CDC is requesting a Revision that will consolidate maritime-related information collections in CDC’s National Center for Emerging and Zoonotic Infectious Diseases (NCEZID) under one OMB Control Number, thereby, improving efficiency of CDC’s maritime activities PRA submission process. As such, CDC is recommending revising the previous title from “Phased Approach to the Resumption of Cruise Ship Passenger Operations,” to “Maritime-related Public Health Activities.” CDC requests OMB approval for an estimated 836 annual burden hours.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondents	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)
Maritime Vessel Operator/Ship Clinician ..	Report of Death Illness from Ship (42 CFR 71.21 (a)) Verbal-No Form.	50	1	7/60
Maritime Vessel Operator/Ship Clinician ..	Report of Death Illness During Stay in Port (42 CFR 71.35) (Verbal-No Form).	5	1	30/60
Maritime Vessel Operator/Ship Clinician ..	Maritime Conveyance Illness or Death Investigation Form (42 CFR 71.21 (a)) [Sections 1-4].	500	1	10/60
Maritime Vessel Operator/Ship Clinician ..	Maritime Conveyance Illness or Death Investigation Form (42 CFR 71.21 (a)) [Section 5].	100	1	5/60

ESTIMATED ANNUALIZED BURDEN HOURS—Continued

Type of respondents	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)
Ship Clinician	Cruise Ship Cumulative Acute Respiratory Illness (ARI) Reporting Form (submitted once per voyage, within 24 hours before arrival in U.S.).	100	40	10/60
Ship Clinician	Cruise Ship Cumulative ARI Reporting Form (submitted sooner than 24 hours before arrival in U.S because 3% or more of the voyage's passengers or crew have ARI).	100	3	10/60
Ship Clinician	TB Maritime Contact Investigation Worksheet	3	1	30/60
Ship Clinician	Varicella Outbreak Enhanced Data Collection Form—Maritime	18	1	30/60
Ship Clinician	General Maritime Contact Investigation Outcome Reporting Form (former 0920–0900).	15	1	30/60

BILLING CODE 4163–18–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[60Day–26–0164; Docket No. CDC–2026–0595]

Proposed Data Collection Submitted for Public Comment and Recommendations

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice with comment period.

SUMMARY: The Centers for Disease Control and Prevention (CDC), as part of its continuing effort to reduce public burden and maximize the utility of government information, invites the general public and other Federal agencies the opportunity to comment on a proposed information collection, as required by the Paperwork Reduction Act of 1995. This notice invites comment on a proposed information collection project titled the National Center for Health Statistics (NCHS) Data Detectives Camp. The goal of this proposed activity is to facilitate outreach efforts in the fields of math and science to middle school-aged children and those who support them.

DATES: CDC must receive written comments on or before June 15, 2026.

ADDRESSES: You may submit comments, identified by Docket No. CDC–2026–0595 by either of the following methods:

- *Federal eRulemaking Portal:* www.regulations.gov. Follow the instructions for submitting comments.

- *Mail:* Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS H21–8, Atlanta, Georgia 30329.

Instructions: All submissions received must include the agency name and Docket Number. CDC will post, without change, all relevant comments to www.regulations.gov.

Please note: Submit all comments through the Federal eRulemaking portal (www.regulations.gov) or by U.S. mail to the address listed above.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the information collection plan and instruments, contact Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS H21–8, Atlanta, Georgia 30329; Telephone: 404–639–7570; Email: omb@cdc.gov.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501–3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. In addition, the PRA also requires federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each new proposed collection, each proposed extension of existing collection of information, and each reinstatement of previously approved information collection before submitting the collection to the OMB for approval. To comply with this requirement, we are publishing this notice of a proposed data collection as described below.

The OMB is particularly interested in comments that will help:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including

whether the information will have practical utility;

2. Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

3. Enhance the quality, utility, and clarity of the information to be collected;

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses; and

5. Assess information collection costs.

Proposed Project

National Center for Health Statistics (NCHS) Data Detectives Camp—New—National Center for Health Statistics (NCHS), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

NCHS is authorized to collect data under Section 306 of the Public Health Service Act (42 U.S.C. 242k). Federal statistical agencies are tasked with disseminating relevant and timely statistical information nationwide. To engage students and promote statistical literacy, new strategies may be needed, including STEM-focused enrichment opportunities. NCHS has a history of reaching out to young people to encourage their interest in Science, Technology, Engineering and Math (STEM). Examples of past involvement include adopting local schools, speaking at local colleges, conducting a Statistics Day for high school students, and conducting the NCHS Data Detectives Camp for middle school students.

In prior years, these activities have been approved under a Generic Information Collection titled Youth Outreach Generic Clearance for the National Center for Health Statistics
