Abstract of Information Available

A total of 21 cultural items has been requested for repatriation. The 21 items have been identified as objects of cultural patrimony by the Tribe and include lithic flakes, a scraper, a perforator, points, blades and debitage. In 1988, Dr. Joseph Tiffany, Department of Social Sciences faculty member at Cal Poly Pomona, conducted an archaeological field school at CA-LAN-339, known as the Sassone site, located near the Big Dalton Wilderness Area in Glendora, California. The items were brought to Cal Poly Pomona where they remain. No known hazardous substances were utilized to treat the items.

Determinations

The Cal Poly Pomona has determined that:

- The 21 items identified and characterized by the Tribe as objects of cultural patrimony described in this notice have ongoing historical, traditional, or cultural importance central to the Native American group, including any constituent sub-group (such as a band, clan, lineage, ceremonial society, or other subdivision), according to the Native American traditional knowledge of an Indian Tribe or Native Hawaiian organization.
- There is a connection between the cultural items described in this notice and the Yuhaaviatam of San Manuel Nation (previously listed as San Manuel Band of Mission Indians, California).

Requests for Repatriation

Additional, written requests for repatriation of the cultural items in this notice must be sent to the authorized representative identified in this notice under **ADDRESSES**. Requests for repatriation may be submitted by any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or a culturally affiliated Indian Tribe or Native Hawaiian organization.

Repatriation of the cultural items in this notice to a requestor may occur on or after May 18, 2026. If competing requests for repatriation are received, the Cal Poly Pomona must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the cultural items are considered a single request and not competing requests. The Cal Poly Pomona is responsible for sending a copy of this notice to the Indian Tribes and Native Hawaiian organizations identified in this notice and to any other consulting parties.
