The method for collecting the required information varies depending on the status of the individual making the request and the length of time that they require access.**A. Privilege Management Program (PMP), DD Form 2249, Pentagon Access Enrollment Form**a. Personnel who require swipe access to the Pentagon or any of its leased facilities must enroll in the PMP. To enroll, personnel must electronically submit the DD Form 2249, Pentagon Access Enrollment Form to gain access via a Personal Identity Verification (PIV) Card or Common Access Card (CAC). The electronic submission is mandatory. The DD Form 2249 was a paper-based form that was printed and physically carried to the pass office for enrollment of the person’s CAC into PMP. As of November 1, 2024, PFPA requires the DD Form 2249 be submitted electronically by Authorizing Officials, using the Access Management Portal, located at <https://access.pfpa.mil/>. The same information contained on the hardcopy is now electronically submitted, stored, and processed using AMP and is commonly referred to as an “e2249” authorization.

b. For personnel who do not meet the criteria for a PIV card or a CAC but require swipe access into the Pentagon or any of its leased facilities, DD Form 2249 can also be used to request access.

**B. Visitor Management System (VMS) Registration Portal**a. The VMS is a component of the aforementioned PMP. Personnel who do not have swipe access into the Pentagon or its leased facilities are deemed visitors and must be registered by a sponsor. Sponsors initiate visits by submitting the visitor’s name and email address at <https://visitorsponsor.pfpa.mil/>. The visitor will then receive a link via the email provided, allowing the visitor to navigate to the VMS Registration Portal and complete the application for adjudication. Once it is complete and PFPA reviews the submission, the visitor and sponsor will receive a system-generated email on the adjudication decision. The system can also be used to request issuance of a Pentagon Facility Alternate Credential.**C. Alternative Methods for Submission**

a. Visitors may provide the required information in the body of a properly protected email when technical limitations prevent them from accessing the Visitor Management System’s Web Portal. Pentagon Pass Office personnel will enter this information in the Visitor Management Web Portal.

*Needs and Uses:* The United States Marine Corps is collecting this information to identify and notify individuals who may have been exposed to contaminated drinking water at Marine Corps Base Camp Lejeune between 1953 and 1987. This collection is necessary to comply with Section 315 of the 2008 Defense Authorization Act (Pub. L. 110–181), which mandates that the Secretary of the Navy notify all persons, including residents and workers, who were potentially affected.

The information is used to build and maintain the Camp Lejeune Notification Database. The Marine Corps uses this database to send an official notification letter and provide registrants with current information and research updates. The collected information may also be used by federal health agencies, such as the Department of Veteran Affairs and the Agency for Toxic Substances and Diseases Registry, to assist with future health studies related to exposure.

The respondents are former residents and workers of Camp Lejeune during the specified timeframe who voluntarily register for the database via the official website, email, or toll-free number. Without this information collection, the Marine Corps would be unable to fulfill its legal obligation to directly contact and inform this population about their potential exposure and related health information.
