

SIP. Forms included within subsections 62–210.900(5) and (6) would be included in the SIP. The form adopted by reference within 62–210.900(5) is entitled *Annual Operating Report for Air Pollutant Emitting Facility [Including Title V Source Emission Fee Calculation], Form and Instructions (DEP Form No. 62–210.900(5), Effective 6–22–17*. The form adopted by reference within 62–210.900(6) is entitled *Facility Relocation Notification Form (DEP Form No. 62–210.900(6), Effective 7–3–18*. Florida has also added web addresses within Rule 62.210.900 for these forms.

Under Florida's proposal, existing forms currently adopted into the SIP at subparagraphs 1, 2, 3, and 4 of Rule 62–210.900 would be removed, including air permit application forms. The State explains that these forms are not necessary for SIP purposes because they do not relate directly to emission limits, emission control standards, or substantive requirements relating to air emissions or the potential to emit air emissions.

For the reasons discussed above, these proposed changes to the SIP would not interfere with any applicable requirement concerning attainment and reasonable further progress, or any other applicable requirement of the CAA. See CAA section 110(l). Therefore, EPA is proposing to approve the aforementioned changes to Rule 62–210.900 into the Florida SIP.

III. Incorporation by Reference

In this document, EPA is proposing to include in a final EPA rule regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, and as discussed in Sections I and II of this preamble, EPA is proposing to incorporate by reference Florida Rule 62–210.370, *Emissions Computation and Reporting*, state effective August 25, 2014, and Rule 62–210.900, *Forms and Instructions*, with the exception of numbered paragraphs 1 through 4 and 7, state effective July 3, 2018; which add, update, and rename forms; renumber and update the effective dates of various forms to reflect programmatic changes; update the process for submitting forms in several of Florida's rules; and make other minor revisions.³ Also in this document, EPA is proposing to remove Florida Rule 62–210.360, *Administrative Permit Corrections*, state effective November 23, 1994, from the Florida SIP, which is incorporated by

³ If this rulemaking is finalized, the SIP-approved version of Rule 62–210.900 will only contain numbered paragraphs 5 and 6 and the preceding unnumbered paragraph, state effective July 3, 2018.

reference in accordance with the requirements of 1 CFR part 51. EPA has made and will continue to make the State Implementation Plan generally available at the EPA Region 4 Office (please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section of this preamble for more information).

IV. Proposed Action

For the reasons discussed above, EPA is proposing to approve the August 15, 2023, SIP revision submitted by Florida consisting of changes to Rule 62–210.370, *Emissions Computation and Reporting*, state effective August 25, 2014, and Rule 62–210.900, *Forms and Instructions*, state effective July 3, 2018. EPA is also proposing to remove Rule 62–210.360, *Administrative Permit Corrections*, state effective November 23, 1994, from the Florida SIP. EPA is proposing to approve these changes pursuant to the CAA.

V. Statutory and Executive Order Reviews

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the CAA and applicable Federal regulations. See 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this proposed action merely proposes to approve state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this proposed action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
- Is not an Executive Order 14192 (90 FR 9065, February 6, 2025) regulatory action because this action is not significant under Executive Order 12866;
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
- Does not have federalism implications as specified in Executive

Order 13132 (64 FR 43255, August 10, 1999);

- Is not subject to Executive Order 13045 (62 FR 19885, April 23, 1997) because it approves a state program;
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001); and
- Is not subject to requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA.

In addition, the SIP is not approved to apply on any Indian reservation land or in any other area where EPA or an Indian Tribe has demonstrated that a Tribe has jurisdiction. In those areas of Indian country, the rule does not have Tribal implications and will not impose substantial direct costs on Tribal governments or preempt Tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Incorporation by reference, Intergovernmental relations, Nitrogen dioxide, Ozone, Particulate matter, Reporting and recordkeeping requirements, Sulfur oxides.

Significant New Use Rules on Certain Chemical Substances (26–2); Extension of Comment Period

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule; extension of comment period.

SUMMARY: EPA issued significant new use rules (SNURs) under the Toxic Substances Control Act (TSCA) on April 24, 2026, for chemical substances subject to an Order issued pursuant to TSCA. The SNURs require persons to notify EPA at least 90 days before commencing the manufacture (defined by statute to include import) or processing of any of these chemical

substances for an activity that is designated as a significant new use in the SNUR. The required notification initiates EPA's evaluation of the conditions of that use for that chemical substance. In addition, the manufacture or processing for new use may not commence until EPA has conducted a review of the required notification; made an appropriate determination regarding that notification; and taken such actions as required by that determination. This document extends the comment period, which was scheduled to end on May 26, 2026, for 45 days.

DATES: The comment period for the document published on April 24, 2026 at 91 FR 22075 (FRL-13085-01-OCSP) is extended. Comments must be received on or before July 10, 2026.

ADDRESSES: Submit your comments, identified by ID number EPA-HQ-OPPT-2025-2932, online at <https://www.regulations.gov>. Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Additional instructions on commenting and visiting the docket, along with more information about dockets generally, is available at <https://www.epa.gov/dockets>.

FOR FURTHER INFORMATION CONTACT:

For technical information: James Yan, New Chemicals Division (7405M), Office of Pollution Prevention and Toxics, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460-0001; telephone number: (202) 564-2138; email address: yan.james@epa.gov.

For general information on SNURs: William Wysong, New Chemicals Division (7405M), Office of Pollution Prevention and Toxics, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460-0001; telephone number: (202) 564-4163; email address: wysong.william@epa.gov.

For general information on TSCA: The TSCA Assistance Information Service Hotline, Goodwill Vision Enterprises, 422 South Clinton Ave., Rochester, NY 14620; telephone number: (800) 471-7127 or (202) 554-1404; email address: TSCA-Hotline@epa.gov.

SUPPLEMENTARY INFORMATION: To give stakeholders additional time to review materials and prepare comments, EPA is hereby extending the comment period established in the **Federal Register** document of April 24, 2026 at 91 FR 22075 (FRL-13085-01-OCSP) for 45 days, from May 26, 2026 to July 10, 2026. More information on the action

can be found in the **Federal Register** of April 24, 2026.

To submit comments or access the docket, please follow the detailed instructions provided under **ADDRESSES**. If you have questions, consult the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Authority: 15 U.S.C. 2604, 2607, and 2625(c).

Dated: May 15, 2026.

Mary Elissa Reaves,

Director, Office of Pollution Prevention and Toxics.

RIN 0648-BN67

Fisheries of the Caribbean, Gulf of America, and South Atlantic; Puerto Rico Fishery Management Plan; Amendment 4

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Announcement of availability of fishery management plan amendment; request for comments.

SUMMARY: The Caribbean Fishery Management Council (Council) submitted Amendment 4 to the Puerto Rico Fishery Management Plan (Puerto Rico FMP) for review, approval, and implementation by NMFS. If approved, Amendment 4 would reclassify rainbow runner from a reef fish to a pelagic fish under the Puerto Rico FMP. Amendment 4 would result in revised management measures for rainbow runner based on the pelagic fish classification, including sector annual catch targets (ACTs) and accountability measures (AMs). The sector-specific annual catch limits (ACLs) would be retained after the reclassification. The purpose of Amendment 4 is to ensure that rainbow runner is managed consistent with its life history characteristics, fishing patterns, and the Council's management of other pelagic species.

DATES: Written comments on Amendment 4 must be received by July 20, 2026.

ADDRESSES: You may submit comments on Amendment 4, identified by

“NOAA-NMFS-2025-0471,” by either of the following methods:

- **Electronic Submission:** Submit all electronic public comments via the Federal e-Rulemaking Portal. Visit <https://www.regulations.gov> and enter “NOAA-NMFS-2025-0471” in the Search box. Click on the “Comment” icon, complete the required fields, and enter or attach your comments.

- **Mail:** Submit all written comments to Maria Lopez-Mercer, Southeast Regional Office, NMFS, 263 13th Avenue South, St. Petersburg, FL 33701.

Instructions: Comments sent by any other method, to any other address or individual, or received after the end of the comment period, may not be considered by NMFS. All comments received are a part of the public record and will generally be posted for public viewing on <https://www.regulations.gov> without change. All personal identifying information (*e.g.*, name, address, *etc.*), confidential business information, or otherwise sensitive information submitted voluntarily by the sender will be publicly accessible. NMFS will accept anonymous comments (enter “N/A” in the required fields if you wish to remain anonymous).

Electronic copies of Amendment 4, which includes a fishery impact statement, a regulatory impact review, and a Regulatory Flexibility Act analysis, may be obtained from the Southeast Regional Office website at <https://www.fisheries.noaa.gov/action/amendment-4-puerto-rico-fishery-management-plan-reclassification-rainbow-runner-pelagic-fish>.

FOR FURTHER INFORMATION CONTACT: Maria Lopez-Mercer, 727-824-5305, maria.lopez@noaa.gov.

SUPPLEMENTARY INFORMATION: Rainbow runner is currently managed under the Puerto Rico FMP as a reef fish. The FMP was prepared by the Council and NMFS, approved by the Secretary of Commerce, and is implemented by NMFS through regulations at 50 CFR part 622 under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act). The Magnuson-Stevens Act requires each regional fishery management council to submit any FMP or FMP amendment to the Secretary of Commerce for review and approval, partial approval, or disapproval. The Magnuson-Stevens Act also requires that NMFS, upon receiving an FMP or FMP amendment, publish an announcement in the **Federal Register** notifying the public that the FMP or amendment is available for review and comment.
