

Exchange protocol and precedent. Further, the Exchange believes that the proposed changes to Rule 10.9557 and conforming changes to Rule 10.9559 provide a streamlined process for suspending members, if necessary, to address the potential risks posed by members experiencing financial or operational difficulties.<sup>25</sup>

#### *B. Self-Regulatory Organization's Statement on Burden on Competition*

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The proposed rule change is not intended to address competitive issues but rather is intended solely to stay the effectiveness of specified Exchange actions to permit Commission review, thereby providing greater harmonization with FINRA rules. In so doing, the Exchange is not imposing new or additional costs or impacts on permit holders or investors while allowing the Exchange to administer a fair procedure for disciplining permit holders consistent with the goals of investor protection.

#### *C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others*

No written comments were solicited or received with respect to the proposed rule change.

### **III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action**

The Exchange has filed the proposed rule change pursuant to Section 19(b)(3)(A)(iii) of the Act<sup>26</sup> and Rule 19b-4(f)(6) thereunder.<sup>27</sup> Because the proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative prior to 30 days from the date on which it was filed, or such shorter time as the Commission may designate, if consistent with the protection of investors and the public interest, the proposed rule change has become effective pursuant to Section 19(b)(3)(A) of the Act and Rule 19b-4(f)(6)(iii) thereunder.

A proposed rule change filed under Rule 19b-4(f)(6)<sup>28</sup> normally does not become operative prior to 30 days after the date of the filing. However, pursuant

to Rule 19b4(f)(6)(iii),<sup>29</sup> the Commission may designate a shorter time if such action is consistent with the protection of investors and the public interest.

At any time within 60 days of the filing of such proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings under Section 19(b)(2)(B)<sup>30</sup> of the Act to determine whether the proposed rule change should be approved or disapproved.
