Transmittal No. 26-0V

REPORT OF ENHANCEMENT OR UPGRADE OF SENSITIVITY OF TECHNOLOGY OR CAPABILITY (SEC. 36(B)(5)(C), AECA)

(i) *Prospective Purchaser:* Government of the United Arab Emirates  
(ii) *Sec. 36(b)(1), AECA Transmittal No.:* 19-37

Date: May 3, 2019

Implementing Agency: Army

Funding Source: National Funds

(iii) *Description:* On May 3, 2019, Congress was notified by congressional certification transmittal number 19-37 of the possible sale, under Section 36(b)(1) of the Arms Export Control Act, of up to four hundred fifty-two (452) Patriot Advanced Capability 3 (PAC-3) Missile Segment Enhancement (MSE). Also included were tools and test equipment; support equipment; publications and technical documentation; personnel training and training equipment; spare and repair parts; facility design; U.S. Government and contractor technical, engineering, and logistics support services; and other related elements of logistics and program support. The estimated total value was \$2.728 billion. Major Defense Equipment (MDE) constituted \$2.70 billion of this total.

On September 28, 2021, Congress was notified by congressional certification transmittal number 21-0C of the inclusion of an additional five hundred ten (510) PAC-3 MSE (included 10 fly-to-buy missiles). The following non-MDE items were also included: tools and test equipment; support equipment; publications and technical documentation; personnel training and training equipment; spare and repair parts; facility design; U.S. Government and contractor technical, engineering, and logistics support services; and other related elements of logistics, sustainment, and program support. The estimated MDE value was increased by \$2.728 billion to a revised \$5.428. The estimated total case value was increased by \$3.172 billion to a revised \$5.90 billion. MDE constituted \$5.428 billion of this total.

On March 19, 2026, Congress was notified by congressional certification transmittal number 25-0I of the increase in value due to cost increases. There were no additional MDE or non-MDE items reported with this notification. The estimated total value of MDE increased by \$5.532 billion for a revised estimated value of \$10.96 billion. The estimated total case value increased by \$5.56 billion to a revised total estimated case value of \$11.46 billion. MDE constituted \$10.96 billion of this total.

This transmittal notifies the inclusion of the following MDE items: six hundred (600) PAC-3 MSE; one hundred fifty (150) Patriot MIM-104E Guidance Enhanced Missiles (GEM-T) with canisters; and twenty-five (25) M903 launching stations. The following non-MDE items will also be included: tools and test equipment; support equipment; publications and technical

documentation; personnel training and training equipment; spare and repair parts; facility design; U.S. Government and contractor technical, engineering, and logistics support services; and other related elements of logistics and program support. The estimated total value of the new items is \$6.25 billion. The estimated MDE value will increase by \$6 billion to a revised \$16.96 billion. The estimated non-MDE value will increase by \$0.25 billion to a revised \$0.75 billion. The estimated total case value will increase by \$6.25 billion to a revised \$17.71 billion. MDE constitutes \$16.96 billion of this total.

(iv) *Significance*: This notification accounts for requested additional MDE and non-MDE items not included in the original notification. The inclusion of this MDE represents an increase in capability over what was previously notified. The proposed sale will support the United Arab Emirates' ability to maintain reserve stock of PAC-3 MSE and GEM-T to ensure adequate defense capabilities.

(v) *Justification*: This proposed sale will support the foreign policy and national security objectives of the United States by helping to improve the security of an important regional partner. The United Arab Emirates continues to be a vital U.S. partner for political stability and economic progress in the Middle East.

(vi) *Sensitivity of Technology*: The Sensitivity of Technology Statement contained in the original notification applies to the additional items reported here.

The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

(vii) *Date Report Delivered to Congress*: May 1, 2026

### POLICY JUSTIFICATION

(U) *Tunisia—Border Security Project Phase III*

(U) The Government of Tunisia has requested to buy the following non-major defense equipment items: Border Reaction Unit commercial vehicles; vehicular radios; base stations; border surveillance and relay tower thermal cameras; radars; microwaves; perimeter cameras; long-term evolution systems; shelters; environmental sensors; generators; solar systems; personal radiation detector "pagers"; explosive detector; Fido X3; chemical detector; Progeny ResQ; Radiation detector; Identifier R400-NGH; range finder; binoculars; search light; tow strap; jumper cables; road spikes; first aid kit; tactical thermal imagers; command and control hardware and software; common operating picture software; operations center hardware; spare parts; border surveillance site preparation; installation; configuration, integration and testing services; vehicular integration services; warranties; repair and return; and in-country training. The total estimated cost is \$95 million.

(U) This proposed sale will support the foreign policy and national security of the United States by helping to improve the defense capabilities and capacity of a major non-NATO ally, which is an important force for political stability and economic progress in North Africa.

(U) The proposed sale will improve Tunisia's long-term defense capacity to defend its sovereignty and territorial integrity, and to meet its national defense requirements. Tunisia will have no difficulty absorbing this equipment into its armed forces.

(U) The proposed sale of this equipment and support will not alter the basic military balance in the region.

(U) The principal contractors will be L3 Harris, located in Melbourne, FL; and Toyota, located in Plano, TX. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

(U) Implementation of this proposed sale will require temporary duty of seven (7) additional U.S. Government and fifteen (15) U.S. contractor representatives to Tunisia for the
