The Exchange does not believe that this proposed change imposes any burden on inter-market competition because other options exchanges would be free to adopt similar rules for early terminating their auctions.

The Exchange's proposal to not offer the Strategy Protections in Options 3, Section 16(b) to a complex strategy with a non-conforming ratio does not impose an undue burden on intra-market competition because these risk protections will not be available for any Member.

The Exchange's proposal to not offer the Strategy Protections in Options 3, Section 16(b) to a complex strategy with a non-conforming ratio does not impose an undue burden on inter-market competition because other options markets may similarly elect to offer or not offer certain risk protections to certain types of options orders.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995 (44

The OMB has promulgated regulations describing what must be included in such a document. Under OMB's regulation (at 5 CFR 1320.8(d)), an agency must ask for public comment on the following—(a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) how to enhance the quality, utility, and clarity of the information to be collected; and (d) how to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.* permitting electronic submission of responses.
