IV. Procedures for Withdrawal of Request

Registrants who choose to withdraw a request for cancellation should submit such withdrawal in writing to the person listed under **FOR FURTHER INFORMATION CONTACT**. If the products have been subject to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier cancellation action are controlled.

V. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products which are currently in the United States, and which were packaged, labeled, and released for shipment prior to the effective date of the cancellation action. Upon cancellation of the products identified in Table 1 of Unit II and Table 3 of Unit III, EPA anticipates allowing registrants to sell and distribute existing stocks of these products until January 15, 2027. Thereafter, registrants will be prohibited from selling or distributing the pesticides identified in Table 1 of Unit III, except for export consistent with FIFRA section 17 or for proper disposal. People other than registrants will generally be allowed to sell, distribute, or use existing stocks until such stocks are exhausted, provided that such sales, distribution, or use is consistent with the terms of the previously approved labeling on, or that accompanied, the canceled products.

SUPPLEMENTARY INFORMATION: *OMB*

Control Number: 3060–1314.

Title: Incarcerated People's Communications Services (IPCS) 2026 Mandatory Data Collection, WC Docket Nos. 23–62, 12–375, FCC 25–75.

Form Number(s): FCC Form 2303(a) and FCC Form 2303(b).

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents and Responses: 30 respondents; 30 responses.

Estimated Time per Response: 165 hours.

Frequency of Response: One-time reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this collection of information is contained in sections 1, 2, 4(i)–(j), 5(c), 201(b), 218, 220, 225, 255, 276, 403, and 716 of the Communications Act of 1934, as

amended, 47 U.S.C. 151, 152, 154(i)–(j), 155(c), 201(b), 218, 220, 225, 255, 276, 403, and 617, and the Martha Wright-Reed Act, Public Law 117–338, 136 Stat. 6156 (2022).

Total Annual Burden: 4,950 hours.

Total Annual Cost: No cost.

Needs and Uses: On November 6, 2025, the Commission released the *Incarcerated People's Communications Services; Implementation of the Martha Wright-Reed Act; Rates for Interstate Inmate Calling Services*, WC Docket Nos. 23–62, 12–375, Report and Order, Order on Reconsideration, Notice of Proposed Rulemaking and Order, FCC 25–75, 90 FR 56013 (Order) and 90 FR 56115 (Notice of Proposed Rulemaking or Notice), in which it established a regulatory framework that is faithful to the Martha Wright-Reed Just and Reasonable Communications Act of 2022, Public Law 117–338, 136 Stat. 6156 (the Act) and is also consistent with the record that has developed since its enactment. The Order created a durable, predictable, and lawful framework that properly balances the Commission's implementation of the dual statutory mandates of the Martha Wright-Reed Act—just and reasonable rates for consumers and fair compensation for providers—and thereby ensures the continued availability of IPCS to incarcerated people and preserves correctional officials' ability to provide safe and secure access to IPCS.

To ensure that it has the data needed to meet its responsibilities under the Act, the Commission reaffirmed its prior delegation of authority to the Wireline Competition Bureau (WCB) and the Office of Economics and Analytics (OEA) to conduct an additional data collection to enable the Commission to set permanent rate caps for both audio and video IPCS. The Commission

reiterated its delegation of authority to WCB and OEA to “make any appropriate modifications to the structure of the collection and the template and instructions for the collection necessary to provide the Commission an objective basis to establish permanent IPCS rate caps.”

Pursuant to their delegated authority, WCB and OEA drafted proposed instructions, a spreadsheet template, a word document template, and a certification form for the proposed 2026 Mandatory Data Collection, which collectively reduced significantly the burden of the data collection, available for download at <https://www.fcc.gov/sites/default/files/2026%20IPCS%20MDC%20proposed%20Instructions.docx>. IPCS providers would be required to submit the required data using a reporting template that would be filed through the Commission's electronic comment filing system. The proposed template would consist of a Word document (Appendix A to the instructions) for responses requiring narrative information, and Excel spreadsheets (Appendix B to the instructions) for responses that require specific numbers or information. IPCS providers would also be required to submit an audited financial statement or report for calendar year 2025, and a signed certification of truthfulness, accuracy, and completeness (Appendix C to the instructions). The instructions, template, and certification form would simplify compliance with, and reduce the burden of, this data collection. These proposed documents will be submitted to the Office of Management and Budget as FCC Form 2303(a) and FCC Form 2303(b).

On June 8, 2026, WCB and OEA released a Public Notice seeking comment on all aspects of the proposed instructions, template, and certification

form, available for download at <https://docs.fcc.gov/public/attachments/DA-26-567A1.pdf>. WCB and OEA will consider comments submitted in response to both the Public Notice and this Notice in finalizing the proposed data collection prior to submitting the documents to the Office of Management and Budget.

Item No.	Bureau	Subject
1	WIRELINE COMPETITION	<i>Title:</i> Build America: Eliminating Barriers to Wireline Deployments (WC Docket No. 25–253). <i>Summary:</i> The Commission will consider a Notice of Proposed Rule Making that would propose and seek comment on standards for when state and local statutes, regulations, and legal requirements have a prohibitive effect on the provision of wireline telecommunications services in violation of Section 253 of the Communications Act, particularly through the imposition of excessive delays and fees that impede infrastructure deployments and disincentivize investments in new infrastructure.
