Federal Register

Vol. 91, No. 122

Friday, June 26, 2026

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

NUCLEAR REGULATORY COMMISSION

10 CFR Chapter I

[NRC–2026–2278]

Sunset Provisions

AGENCY: Nuclear Regulatory Commission.

ACTION: Request for information.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) invites public input to inform its implementation of Executive Order (E.O.) 14270, “Zero-Based Regulatory Budgeting to Unleash American Energy.” The E.O. directs the NRC to offer the public opportunity to comment on the costs and benefits of certain regulations that the NRC has identified to be sunset.

DATES: Comments must be submitted electronically using <https://www.regulations.gov> by 11:59 p.m. eastern time on July 27, 2026.

ADDRESSES: Submit your comments, identified by Docket ID NRC–2026–2278, at <https://www.regulations.gov>. If your material cannot be submitted using <https://www.regulations.gov>, call or email the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document for alternate instructions.

Do not include any personally identifiable information (such as name, address, or other contact information) or confidential business information that you do not want publicly disclosed. All comments are public records; they are publicly displayed exactly as received, and will not be deleted, modified, or redacted. Comments may be submitted anonymously.

Follow the search instructions on <https://www.regulations.gov> to view public comments.

For additional direction on obtaining information and submitting comments, see “Obtaining Information and Submitting Comments” in the **SUPPLEMENTARY INFORMATION** section of this document.

FOR FURTHER INFORMATION CONTACT:

Cindy Bladley, Office of Nuclear Materials Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington DC, 20555–0001; telephone: 301–415–3280, email: Cindy.Bladley@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Obtaining Information and Submitting Comments

A. Obtaining Information

Please refer to Docket ID NRC–2026–2278 when contacting the NRC about the availability of information for this action. You may obtain publicly available information related to this action by any of the following methods:

- *Federal Rulemaking Website:* Go to <https://www.regulations.gov> and search for Docket ID NRC–2026–2278.

- *NRC’s Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select “Begin ADAMS Public Search.” For problems with ADAMS, please contact the NRC’s Public Document Room (PDR) reference staff at 1–800–397–4209, at 301–415–4737, or by email to PDR.Resource@nrc.gov.

- *NRC’s PDR:* The PDR, where you may examine and order copies of publicly available documents, is open by appointment. To make an appointment to visit the PDR, please send an email to PDR.Resource@nrc.gov or call 1–800–397–4209 or 301–415–4737, between 8 a.m. and 4 p.m. eastern time, Monday through Friday, except Federal holidays.

B. Submitting Comments

Comments must be submitted electronically using <https://www.regulations.gov> no later than 11:59 a.m. eastern time on July 27, 2026. Please include Docket NRC–2026–2278 in your comment submission.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at <https://www.regulations.gov> as well as enter the comment submissions into ADAMS. The NRC does not routinely edit comment

submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

Executive Order (E.O.) 14270, “Zero-Based Regulatory Budgeting to Unleash American Energy” (90 FR 15643; April 9, 2025), directed the NRC to issue a rule inserting a conditional sunset date into each of its regulations that were in effect as of the date of the E.O. and were issued in whole or in part pursuant to the following statutes, as amended: the Atomic Energy Act of 1954, the Energy Reorganization Act of 1974, and the Nuclear Waste Policy Act of 1982. The E.O. stated that sunset provisions must include a conditional sunset date that is one year after the effective date of the rule and that the agency could extend the cessation deadline to a date not more than 5 years in the future after offering the public an opportunity to comment on the costs and benefits of the regulations to be conditionally sunset prior to each provision’s sunset date.

On December 3, 2025, the NRC published “The Sunset Rule” (90 FR 55621), which amended regulations throughout chapter I of title 10 of the *Code of Federal Regulations* (CFR) to insert a sunset provision requiring the NRC to offer the public an opportunity to comment on the costs and benefits of the regulation and adding a conditional sunset date of January 8, 2027. This document provides opportunity for the public to comment on the costs and benefits of all 10 CFR chapter I regulations that are scheduled to sunset on January 8, 2027, with the exception of subpart F, “Licensee Testing Facilities,” to 10 CFR part 26, “Fitness for Duty Programs.” The public may provide comment on the costs and benefits of sunset provisions in subpart F to part 26 in the docket for the NRC’s proposed rule, “Modernizing Security

Requirements” (Docket ID NRC–2025–1303), which the NRC anticipates will publish on or about June 25, 2026.

This request is for information-gathering purposes and does not propose new regulations, requirements, or policies.

III. Request for Information

The NRC is requesting information on the costs and benefits of the regulations shown in Table 1. Please provide, to the extent possible, economic data to demonstrate the cost of complying with

the existing regulations, as well as any savings that eliminating the regulation might provide. If there are benefits that are difficult to calculate, include a qualitative discussion in any justification offered for not sunseting a particular regulation in Table 1.

V. Collection of Information Requirements

This document serves solely as a request for information. In accordance with the implementing regulations of the Paperwork Reduction Act of 1995 (PRA), specifically paragraph (h)(4) of 5 CFR 1320.3, this general solicitation is

exempt from the PRA. Facts or opinions submitted in response to general solicitations of comments from the public, published in the **Federal Register** or other publications, regardless of the form or format, provided that no person is required to supply specific information pertaining

to the commenter, other than information necessary for self-identification, as a condition of the agency’s full consideration, are not generally considered information collections and therefore not subject to the PRA.

Dated June 22, 2026.

For the Nuclear Regulatory Commission.

Araceli Billoch Colon,

Acting Director, Division of Guidance, Rulemaking, Economic Analysis, and Technical Editing, Office of Nuclear Material Safety and Safeguards.

SUPPLEMENTARY INFORMATION: As part of its implementation of Executive Orders issued by President Trump, including Executive Order 14192, “Unleashing Prosperity through Deregulation,” issued on January 31, 2025, and Executive Order 14219, “Ensuring Lawful Governance and Implementation of the President’s ‘Department of Government Efficiency’ Deregulatory Agenda,” issued on February 19, 2025, the U.S. Department of Transportation (DOT) sought comments and information to assist DOT in identifying existing regulations, guidance, paperwork requirements, and other regulatory obligations to be modified or repealed, consistent with law, to ensure that DOT administrative actions do not undermine the national interest and that DOT achieves meaningful burden reduction while continuing to meet statutory obligations and ensuring the safety of the U.S. transportation system. This request for information was published on April 3, 2025, titled *Ensuring Lawful Regulation; Reducing Regulation and Controlling Regulatory Costs*.¹ In response to the request for information, the Experimental Aircraft Association (EAA)² recommended FAA remove paragraphs (b) through (e) of 14 CFR 61.11 because certificates issued under these paragraphs would no longer be valid due to pilot age.

FAA agrees with EAA and proposes to remove and reserve § 61.11 *Expired pilot certificates and re-issuance* in its entirety. Section 61.11(a) prohibits pilots from acting as a pilot in command or as a required pilot flight crewmember of an aircraft of the same category or class that is listed on an expired pilot certificate or rating; however, §§ 61.2(a)(1) and 61.19(a)(1) also provide that no person may exercise the privileges of an expired certificate; therefore § 61.11(a) is redundant. Paragraphs (b) through (e) of § 61.11 refer to airman certificates and ratings issued to pilots prior to 1949 or certificates issued after 1949 containing an expiration date. The FAA Airman Certification Branch has verified that there are no remaining pilot certificate holders with expired pilot certificates issued under § 61.11(b) through (e). Accordingly, § 61.11 is deemed obsolete and may be removed.
