

proposed Project to be constructed and operated on land under long-term lease¹ adjacent to the RGLNG Terminal, which is currently under construction, along the Brownsville Ship Channel in Cameron County, Texas.² RGLNG Train 6 states that the proposed Project will consist of a sixth liquefaction train, one new marine jetty, and associated facilities.³ RGLNG Train 6 further states that the Project will be operated on an integrated basis and also leverage certain supporting infrastructure as part of the RGLNG Terminal.⁴ According to RGLNG Train 6, the “Project will not result in any greenfield impacts, and all permanent impacts are on brownfield/ previously disturbed areas.”⁵

RGLNG Train 6 requests authorization to export the LNG in a volume equivalent to approximately 312.05 Bcf/yr of natural gas by ocean-going vessel on a non-additive basis to: (i) any country with which the United States has entered into a free trade agreement (FTA) requiring national treatment for trade in natural gas (FTA countries), and (ii) any other country with which trade is not prohibited by U.S. law or policy (non-FTA countries).⁶ This Notice applies only to the portion of the Application requesting authority to export LNG to non-FTA countries pursuant to section 3(a) of the NGA.⁷ DOE will review RGLNG Train 6’s request for authorization to export LNG to FTA countries separately pursuant to NGA section 3(c).⁸

RGLNG Train 6 seeks this authorization on its own behalf and as agent for other entities that will hold title to the LNG at the time of export. RGLNG Train 6 requests authorization for a term extending through the later of December 31, 2050, or twenty years, following the commencement of commercial operation of the Project.⁹

Additional details can be found in RGLNG Train 6’s Application, posted on the DOE website at <https://www.energy.gov/hgeo/articles/rio-grande-lng-train-6-llc-docket-no-26-67-lng>.

¹ Rio Grande LNG LandCo, LLC, an affiliate of RGLNG Train 6 would hold the longer-term lease.
