

Animal and Plant Health Inspection Service

Title: Movement of Organisms Modified or Produced Through Genetic Engineering.

OMB Control Number: 0579–0085.

Summary of Collection: Under the Plant Protection Act (PPA, 7 U.S.C. 7703 *et seq.*) the Secretary of Agriculture is authorized to prohibit or restrict the importation, entry, or movement of interstate commerce of any plant, plant product, biological control organism, noxious weed, article, or means of conveyance if the Secretary determines that the prohibition or restriction is necessary to prevent the introduction or the dissemination of a plant pest into the United States. The Animal and Plant Health Inspection Service (APHIS) is charged with preventing the introduction of plant pest into the United States or their dissemination within the United States. The statutory requirements for the information collection activity are found in the PPA. The regulations in 7 CFR part 340 implement the provisions of the PPA by providing the information necessary to establish conditions for proposed introductions of certain genetically engineered organisms and products which present a risk of plant pest introduction. APHIS will collect information using several APHIS forms.

Need and Use of the Information: APHIS will collect the information through a permit procedure to ensure that certain genetically engineered organisms, when imported, moved interstate, or released into the environment, will not present a risk of plant pest introduction. The information collected through the permit procedure is used to determine whether a genetically engineered organism will pose a risk to agriculture or the environment if grown in the absence of regulations by APHIS. APHIS will also collect information through activities including marking and labeling, and processing appeals, reviews, and confirmation letters and exemption requests. The information is also provided to State departments of agriculture for review and made available to the public and private sectors to ensure that all sectors are kept informed concerning any potential risks posed using genetic engineering technology.

Description of Respondents: Business or other for profit; not-for-profit institutions; State, local or Tribal government.

Number of Respondents: 554.

Frequency of Responses: Recordkeeping; reporting: On occasion.

Total Burden Hours: 16,907.

Rachelle Ragland-Greene,
*Departmental Information Collection
Clearance Officer.*

Citric Acid and Certain Citrate Salts From India: Preliminary Affirmative Countervailing Duty Determination and Alignment of Final Determination With Final Antidumping Duty Determination

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The U.S. Department of Commerce (Commerce) preliminarily determines that countervailable subsidies are being provided to producers and exporters of citric acid and certain citrate salts (citric acid) from India. The period of investigation is January 1, 2025, through December 31, 2025. Interested parties are invited to

comment on this preliminary determination.

DATES: Applicable June 26, 2026.

FOR FURTHER INFORMATION CONTACT: Thomas Schauer or Erin Howard, AD/CVD Operations, Office I, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–0410 and (202) 482–3453, respectively.

SUPPLEMENTARY INFORMATION:

Background

This preliminary determination is made in accordance with section 703(b) of the Tariff Act of 1930, as amended (the Act). On February 10, 2026, Commerce published the notice of initiation of this countervailing duty (CVD) investigation.¹ On March 17, 2026, Commerce postponed the preliminary determination of this investigation, and the revised deadline is now June 22, 2026.²

For a complete description of the events that followed the initiation of this investigation, *see* the Preliminary Decision Memorandum.³ A list of topics discussed in the Preliminary Decision Memorandum is included as Appendix II to this notice. The Preliminary Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov>. In addition, a complete version of the Preliminary Decision Memorandum can be accessed directly at <https://access.trade.gov/frnotices>.

Scope of the Investigation

The products covered by this investigation are citric acid and certain citrate salts from India. For a complete description of the scope of this investigation, *see* Appendix I.
