

from Brazil. This notice incorrectly listed the name of a non-examined company under review as Breyer & Via Ltda. at Appendix II. The correct name for this company is Breyer & Cia Ltda.

FOR FURTHER INFORMATION CONTACT: Braeden Lowe, AD/CVD Operations, Office V, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-9124.

SUPPLEMENTARY INFORMATION:

Background

On June 3, 2026, Commerce published in the **Federal Register** the final results¹ of the antidumping duty administrative review of raw honey from Brazil. In this notice, Commerce incorrectly listed the name of one of companies under review as Breyer & Via Ltda. at Appendix II.

Correction

In the **Federal Register** of June 3, 2026, in FR Doc 2026-11121, on page 33149, in the first column, correct the name from Breyer & Via Ltda. to Breyer & Cia Ltda.

Notification to Interested Parties

This notice is issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Tariff Act of 1930, as amended, and 19 CFR 351.221(b)(5).

Dated: June 23, 2026.

Scot Fullerton,

Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

[RTID 0648-XF819]

Mid-Atlantic Fishery Management Council (MAFMC); Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The Mid-Atlantic Fishery Management and New England Fishery Management Councils will hold a public meeting of their joint Northeast Trawl Advisory Panel.

¹ See *Raw Honey from Brazil: Final Results of Antidumping Duty Administrative Review; 2023-2024*, 91 FR 33147 (June 3, 2026).

DATES: The meeting will be held on Thursday, July 9, 2026, from 9 a.m.–5 p.m. For agenda details, see **SUPPLEMENTARY INFORMATION**.

ADDRESSES: This meeting will be conducted in person with a virtual option available. The meeting will be held at the New Bedford Port Authority (123 MacArthur Dr., New Bedford, MA 02740), telephone: 508-961-3000. Connection information will be posted to the Council's calendar prior to the meeting at <https://www.mafmc.org>.

Council address: Mid-Atlantic Fishery Management Council, 800 N State Street, Suite 201, Dover, DE 19901; telephone: (302) 674-2331; <https://www.mafmc.org>.

FOR FURTHER INFORMATION CONTACT: Christopher M. Moore, Ph.D., Executive Director, Mid-Atlantic Fishery Management Council, telephone: (302) 526-5255.

SUPPLEMENTARY INFORMATION: The Councils' Northeast Trawl Advisory Panel (NTAP) will meet to receive updates on recent Federal and cooperative surveys, as well as other communications from the Northeast Fisheries Science Center (NEFSC). The Panel will also review outcomes of the recently completed Regional Industry-Based Trawl Survey (RIBTS) Phase 1 pilot project. In addition, NTAP will discuss ongoing planning for the RIBTS Phase 2 pilot project being developed by the NTAP Working Group.

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Shelley Spedden, (302) 526-5251 at least 5 days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: June 24, 2026.

Rey Israel Marquez,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[RTID 0648-XF804]

Mid-Atlantic Fishery Management Council (MAFMC); Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The Scientific and Statistical Committee (SSC) of the Mid-Atlantic Fishery Management Council (Council) will hold a meeting.

DATES: The meeting will be held on Wednesday, July 15, 2026, starting at 9:30 a.m. and continue through 3 p.m. on Thursday, July 16, 2026. See **SUPPLEMENTARY INFORMATION** for agenda details.

ADDRESSES: This will be an in-person meeting with a virtual option. SSC members, other invited meeting participants, and members of the public will have the option to participate in person at the Westin Washington, DC City Center (1400 M Street Northwest, Washington, DC 2005) or virtually via Webex webinar. Webinar connection instructions and briefing materials will be available at: <https://www.mafmc.org/ssc>.

Council address: Mid-Atlantic Fishery Management Council, 800 N. State Street, Suite 201, Dover, DE 19901; telephone: (302) 674-2331; website: <https://www.mafmc.org>.

FOR FURTHER INFORMATION CONTACT: Christopher M. Moore, Ph.D., Executive Director, Mid-Atlantic Fishery Management Council, telephone: (302) 526-5255.

SUPPLEMENTARY INFORMATION: During this meeting, the SSC will make multi-year acceptable biological catch (ABC) recommendations for Ocean Quahog and Butterfish. The SSC will recommend new 2027–2028 ABC specifications for Ocean Quahog based on updated catch and projection information and 2027–2029 ABC specifications for Butterfish based on updated catch, survey, and projection information. The SSC will also review the most recent survey and fishery data and the previously recommended 2027 ABC for Atlantic Surfclam, Summer Flounder, Scup, Black Sea Bass, Bluefish, and Chub Mackerel. The SSC will address Terms of Reference and provide guidance on the results of a recently completed project evaluating the effectiveness of the Scup Gear Restricted Areas (GRAs). The SSC will also discuss the activities and initial outcomes of SSC work group meetings and regional and national stock assessment workshops. The SSC will also provide input on assessment timing and prioritization for Mid-Atlantic stocks. The SSC may take up any other business as necessary.

A detailed agenda and background documents will be made available on the Council's website (www.mafmc.org) prior to the meeting.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aid should be directed to Shelley Spedden, (302) 526–5251, at least 5 days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: June 24, 2026.

Rey Israel Marquez,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Taking and Importing Marine Mammals; Taking Marine Mammals Incidental to Geophysical Surveys Related to Oil and Gas Activities in the Gulf of America

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; issuance of letters of authorization.

SUMMARY: In accordance with the Marine Mammal Protection Act (MMPA), as amended, its implementing regulations, and NMFS' MMPA regulations for taking marine mammals incidental to geophysical surveys related to oil and gas activities in the Gulf of America (GOA), notification is hereby given that NMFS has issued three separate Letters of Authorization (LOAs) to TGS, for the take of marine mammals incidental to geophysical survey activity in the GOA.

DATES: One LOA issued to TGS is effective from August 15, 2026, through August 15, 2027. The other two LOAs issued to TGS are effective from September 1, 2026, through September 1, 2027.

ADDRESSES: The LOAs, LOA requests, and supporting documentation are available online at: <https://www.fisheries.noaa.gov/action/incidental-take-authorization-oil-and-gas-industry-geophysical-survey>. In case of problems accessing these documents, please call the contact listed below (see **FOR FURTHER INFORMATION CONTACT**).

FOR FURTHER INFORMATION CONTACT: Jenna Harlacher, Office of Protected Resources (OPR), NMFS, (301) 427–8401.

SUPPLEMENTARY INFORMATION:

Background

Sections 101(a)(5)(A) and (D) of the MMPA (16 U.S.C. 1361 *et seq.*) direct the Secretary of Commerce to allow, upon request, the incidental, but not intentional, taking of small numbers of marine mammals by U.S. citizens who engage in a specified activity (other than commercial fishing) within a specified geographical region if certain findings are made and either regulations are issued or, if the taking is limited to harassment, a notice of a proposed authorization is provided to the public for review.

An authorization for incidental takings shall be granted if NMFS finds that the taking will have a negligible impact on the species or stock(s), will not have an unmitigable adverse impact on the availability of the species or stock(s) for subsistence uses (where relevant), and if the permissible methods of taking and requirements pertaining to the mitigation, monitoring and reporting of such takings are set forth. NMFS has defined “negligible impact” in 50 CFR 216.103 as an impact resulting from the specified activity that cannot be reasonably expected to, and is not reasonably likely to, adversely affect the species or stock through effects on annual rates of recruitment or survival.

Except with respect to certain activities not pertinent here, the MMPA defines “harassment” as: any act of pursuit, torment, or annoyance which (i) has the potential to injure a marine mammal or marine mammal stock in the wild (Level A harassment); or (ii) has the potential to disturb a marine mammal or marine mammal stock in the wild by causing disruption of behavioral patterns, including, but not limited to, migration, breathing, nursing, breeding, feeding, or sheltering (Level B harassment).

On January 19, 2021, we issued a final rule with regulations to govern the unintentional taking of marine mammals incidental to geophysical survey activities conducted by oil and gas industry operators, and those persons authorized to conduct activities on their behalf (collectively “industry operators”), in U.S. waters of the GOA¹ over the course of 5 years (86 FR 5322, January 19, 2021). The rule was based on our findings that the total taking from the specified activities over the 5-year period will have a negligible impact on the affected species or stock(s) of marine mammals and will not have an unmitigable adverse impact on the availability of those species or stocks for subsistence uses, and became effective on April 19, 2021.

The regulations at 50 CFR 217.180 allow for the issuance of LOAs to industry operators for the incidental take of marine mammals during geophysical survey activities and prescribe the permissible methods of taking and other means of effecting the least practicable adverse impact on marine mammal species or stocks and their habitat (often referred to as mitigation), as well as requirements pertaining to the monitoring and reporting of such taking. Under 50 CFR 217.186(e), issuance of an LOA shall be based on a determination that the level of taking will be consistent with the findings made for the total taking allowable under these regulations and a determination that the amount of take authorized under the LOA is of no more than small numbers.

NMFS subsequently discovered that the 2021 rule was based on erroneous take estimates. We conducted another rulemaking using correct take estimates and other newly available and pertinent information relevant to the analyses supporting some of the findings in the 2021 final rule and the taking allowable under the regulations. We issued a final rule in April 2024, effective May 24, 2024 (89 FR 31488, April 24, 2024).

On August 28, 2025, NMFS' OPR received a request from NMFS' Office of Policy for reimplementation of the current Incidental Take Regulation (ITR) to avoid a lapse in ITRs offering incidental take coverage for GOA geophysical survey activities. On October 20, 2025, Bureau of Ocean Energy Management (the original petitioner for the current ITRs) submitted a request to be included in the process as a co-petitioner. In response to these requests, NMFS issued a new final rule, effective April 20, 2026, through April 19, 2031 (91 FR 20784, April 17, 2026).

The reimplementation of the regulations continues the established framework for authorization of incidental take through LOAs. The final rule made no changes to the specified activities or the specified geographical region in which those activities would be conducted, and there are no changes to the associated mitigation, monitoring, and reporting requirements.

Summary of Requests and Analysis

Amendment 3

TGS plans to conduct a three-dimensional (3D) ocean-bottom node (OBN) survey over 200 lease blocks in the Viosca Knoll, Mississippi Canyon, De Soto Canyon, and Atwater Valley protraction areas, with water depths ranging from approximately 50 to 2,100
