SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for extension of a currently approved information collection. The current Code of Federal Regulations (CFR) at Title 50, part 600, subpart Q, sets forth the requirements for Enhanced Mobile Transceiver Units (EMTUs) to be type-approved by NMFS for use in federal fisheries programs. These EMTUs can either be satellite-linked systems or cellular-based hardware and software. Respondents for type-approval of vessel monitoring system (VMS) satellite- or cellular-based systems must submit a written type-approval request and electronic copies of supporting materials that include certain required information. The National Marine Fisheries Service (NMFS) Office of Law Enforcement (OLE) uses the information submitted to assess whether an EMTU or EMTU-C meets minimum technical specifications and can be approved for use in the NMFS VMS program. The information currently required to accompany an application for type-approval of VMS satellite-based systems is set forth at 50 CFR 600.1502 through 600.1507.

Information requested in the type-approval application for EMTU-Cs and EMTUs includes the information
