Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: Tennessee Valley Authority (TVA).

ACTION: 30-day notice of submission of information collection approval request to OMB.

SUMMARY: Tennessee Valley Authority (TVA) provides notice of submission of this information clearance request (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (PRA). The general public and other federal agencies are invited to comment. TVA previously published a 60-day notice of the proposed information collection for public review on March 17, 2026 and no comments were received.

DATES: The OMB will consider all written comments received on or before July 30, 2026.

ADDRESSES: Written comments for the proposed information collection should be sent within 30 days of publication of this notice to *www.reginfo.gov/public/do/PRAMain.* Find this particular information collection by selecting ''Currently under 30-day Review—Open for Public Comments'' or by using the search function.

SUPPLEMENTARY INFORMATION: New collection.

Title of Information Collection: TVA's Generic Clearance for the collection of qualitative feedback on agency service delivery, community engagement, and usability testing.

Frequency of Use: On occasion.

Type of Affected Public: Individuals and Households, Businesses and Organizations, State, Local and Tribal Governments.

Small Businesses or Organizations Affected: Yes.

Federal Budget Functional Category Code: 455.

Estimated Number of Annual Responses: 50,000.

Estimated Total Annual Burden Hours: 12,500.

Estimated Average Burden Hours per Response: 0.50

Need For and Use of Information: This information collection will enable TVA to obtain qualitative customer and stakeholder feedback on services and programs, as well as community needs and concerns, in an efficient, timely manner, in accordance with the Administration's commitment to improving service delivery and enhancing public engagement. It will also enable the public to register for public forums, events, and other opportunities, and participate in usability testing of forms, software, and websites designed for customer and stakeholder connections. The qualitative feedback requested provides useful insights on perceptions and opinions, but not statistical surveys that yield quantitative results that can be generalized to the population of study. The feedback and input will provide TVA with insights into customer or stakeholder perceptions, experiences, and expectations; help TVA quickly identify actual or potential problems with how the agency provides services to the public; focus attention on areas where communication, training, or changes in operations might improve TVA's delivery of its products or services; and engage the public on community needs and concerns to guide the direction of new products and services. These collections will allow for ongoing, collaborative, and actionable communication between TVA and its customers and stakeholders. It will also allow feedback and input to contribute directly to the improvement of program management. TVA will solicit feedback and input in areas such as timeliness, appropriateness, accuracy of information, courtesy, efficiency of service delivery, resolution of issues with service delivery, impacts of events, community needs and concerns, and interest in new programs and services. TVA will use the responses to plan and inform its efforts to improve or maintain the quality of service and programs offered to the public and chart the direction of new programs and offerings. TVA will use the registration information for logistical planning for public events, required access control to government property, and connection to service and program offerings; and the usability testing to ensure forms, software, and websites provide simple instructions and easy to navigate directions. If this information is not collected, TVA will not have access to vital feedback and input from customers and stakeholders about the agency's services and programs and the public will not have access to TVA-sponsored events, programs, or services.

TVA will only submit an information collection for approval under this Generic Clearance if it meets the following conditions:

- the collections are voluntary.
- the collections are low burden for respondents (based on considerations of total burden hours, total number of respondents, or burden hours per respondent) and are low-cost for both the respondents and the Federal Government.
- the collections are non-controversial and do not raise issues of concern to other Federal agencies.
- the collections are targeted for solicitation of feedback and input from respondents who have experience with the program or who may have future experience with the program.
- personally identifiable information (PII) is collected only to the extent necessary and will not be retained beyond immediate need.
- information gathered is intended to be used only internally for general service improvement and program management purposes and is not intended for release outside of the agency (if released, TVA will indicate the qualitative nature of the information).
- information gathered will not be used for the purpose of substantially informing influential policy decisions.
- information gathered will yield qualitative useful information and the collections will not be designed or expected to yield statistically reliable results or used as though the results are generalizable to the population of study.
- information collections will not result in any new system of records containing privacy information and will not ask questions of a sensitive nature.

SUPPLEMENTARY INFORMATION:

I. Background

AGOA (Title I of the Trade and Development Act of 2000, Pub. L. 106–200) (19 U.S.C. 2466a *et seq.*), as amended, and which currently is set to expire on December 31, 2026, authorizes the President to designate sub-Saharan African countries as beneficiaries eligible for duty-free treatment for certain additional products not included for duty-free treatment under the Generalized System of Preferences (GSP) (Title V of the Trade Act of 1974) (19 U.S.C. 2461 *et seq.*) (1974 Act), as well as for the preferential treatment for certain textile and apparel articles. The President may designate a country as a beneficiary sub-Saharan African country eligible for AGOA benefits if he determines that the country meets the eligibility criteria set forth in section 104 of AGOA (19 U.S.C. 3703) and section 502 of the 1974 Act (19 U.S.C. 2462).

Section 104 of AGOA includes requirements that the country has established or is making continual progress toward establishing, among other things:

- a market-based economy;
- the rule of law;
- political pluralism;
- the right to due process;
- the elimination of barriers to U.S. trade and investment;
- economic policies to reduce poverty;
- a system to combat corruption and bribery; and
- protection of internationally recognized worker rights.

In addition, the country may not engage in activities that undermine U.S. national security or foreign policy interests or engage in gross violations of internationally recognized human rights. Section 502 of the 1974 Act provides for country eligibility criteria under GSP. For a complete list of the AGOA eligibility criteria and a list of the GSP criteria, see section 104 of the AGOA and section 502 of the 1974 Act.

Section 506A of the 1974 Act requires the President to monitor and annually review the progress of each sub-Saharan African country in meeting the foregoing eligibility criteria in order to determine if a beneficiary sub-Saharan African country should continue to be eligible, and if a sub-Saharan African country that currently is not a beneficiary, should be designated as a beneficiary. If the President determines that a beneficiary sub-Saharan African country is not meeting the eligibility requirements, the President must terminate the designation of the country as a beneficiary sub-Saharan African country. The President also may withdraw, suspend, or limit the application of duty-free treatment with respect to specific articles from a country if the President determines that it would be more effective in promoting compliance with AGOA eligibility requirements than terminating the designation of the country as a beneficiary sub-Saharan African country.

For 2026, the President designated the following 33 countries as beneficiary sub-Saharan African countries:

1. Angola
2. Benin
3. Botswana
4. Cabo Verde
5. Chad
6. Comoros

27. Sao Tome & Principe
28. Senegal
29. Sierra Leone
30. South Africa
31. Tanzania
32. Togo
33. Zambia

USTR requests written comments with respect to the annual review of sub-Saharan African countries' eligibility for AGOA benefits. The Secretary of Labor may consider comments related to the child labor and forced labor criteria to prepare the U.S. Department of Labor's report on child labor as required under section 504 of the 1974 Act.

II. Hearing Participation

USTR will convene a public hearing to receive oral testimony related to sub-

Saharan African countries' eligibility for AGOA benefits on Thursday, July 23, 2026, beginning at 10:00 a.m. EDT at 1724 F Street NW, Washington DC. To ensure participation, you must submit requests to present oral testimony at the hearing and written testimony before midnight on July 9, 2026, via *Regulations.gov,* using Docket Number USTR–2026–0298. Instructions for submission are in sections III and IV below. Remarks at the hearing will be limited to no more than five minutes to allow for possible questions from the AGOA TPSC Subcommittee. Because the hearing will be public, testimony should not include any business confidential information (BCI).

USTR requests small businesses (generally defined by the Small Business Administration as firms with fewer than 500 employees) or organizations representing small business members that submit comments to self-identify as such, so that USTR may be aware of issues of particular interest to small businesses.
