

operating costs going forward. These amendments are appropriate and consistent with the Plans' previous language.

Finally, the Operating Committee stated that it "expects that implementation of the amendment will occur on December 6, 2026."⁴⁸ Pursuant to Rule 608(c) of Regulation NMS, the Participants must comply with the terms of any effective NMS plan of which it is a sponsor or participant and must enforce compliance with the terms of such a plan by its members and persons associated with its members.⁴⁹ The Participants have proposed amendments to the Plans to accommodate the move to overnight trading and have specified the date upon which the Operating Committee expects the changes to the operation of the Processor under the Plans can occur. Accordingly, under the Amended Proposal, the effective Plans that the Participants must comply and enforce compliance with will be the Plans as amended by the Amended Proposal starting December 6, 2026.⁵⁰

For the reasons discussed above, the Commission finds that the Amended Proposal is consistent with the requirements of the Act and the rules and regulations thereunder, and in particular, section 11A of the Act, and Rule 608 of Regulation NMS, in that the Amended Proposal is necessary or appropriate in the public interest, for the protection of investors and the maintenance of fair and orderly markets, to improve impediments to, and perfect the mechanisms of, a national market system.

IV. Conclusion

It is therefore ordered, pursuant to section 11A of the Act,⁵¹ and Rule 608(b)(2) thereunder,⁵² that the Amended Proposal to the CTA and CQ Plans (File No. SR-CTA/CQ-2026-01) is approved.

⁴⁸ See Amended Proposal, *supra* note 8 at 21565. Regarding the Participants' query about whether dissemination of real-time TRF information outside of Regular Trading Hours is a prerequisite for implementation, FINRA has announced its plans to amend its TRF reporting rules to extend the operating hours of the TRFs starting on December 6, 2026, which would align with the Amended Proposal. See FINRA, Extension of TRF Operating Hours (May 22, 2026), available at <https://www.finra.org/filing-reporting/technical-notice/extension-of-trf-operating-hours>.

⁴⁹ 17 CFR 242.608(c).

⁵⁰ To the extent that the Plans are unable to implement the Amended Proposal by December 6, 2026, the Participants must submit an amendment to the Plans pursuant to Rule 608 of Regulation NMS.

⁵¹ 15 U.S.C. 78k-1.

⁵² 17 CFR 242.608(b)(2).

By the Commission.
Sherry R. Haywood,
Assistant Secretary.

Please note that comments submitted in response to this Notice are public record. Before including any detailed personal information, you should be aware that your comments as submitted, including your personal information, will be available for public review.

Abstract of Proposed Collection

The Directorate of Defense Trade Controls (DDTC), located in the Political-Military Affairs Bureau of the Department of State, encourages voluntary disclosures of violations of the Arms Export Control Act (AECA) (22 U.S.C. 2751 *et seq.*), its implementing regulations, the International Traffic in Arms Regulations (ITAR) (22 CFR 120-130), and any regulation, order, license, or other authorization issued thereunder. The information disclosed is analyzed by DDTC to ultimately determine whether to take administrative action concerning any violation that may have occurred. Voluntary disclosures may be considered a mitigating factor in determining the administrative penalties, if any, that may be imposed. Failure to report a violation may result in circumstances detrimental to U.S. national security and foreign policy interests and will be an adverse factor in determining the appropriate disposition of such violations. Also, the activity in question might merit referral to the Department of Justice for consideration of whether criminal prosecution is warranted. In such cases, DDTC will notify the Department of Justice of the voluntary nature of the disclosure, but the Department of Justice

is not required to give that fact any weight.

ITAR § 127.12 describes the information which should accompany a voluntary disclosure. Historically, respondents to this information collection submitted their disclosures to DDTC in writing via hard copy documentation. However, as part of an IT modernization project designed to streamline the collection and use of information by DDTC, a discrete form has been developed for the submission of voluntary disclosures. This will allow both DDTC and respondents submitting a disclosure to more easily track submissions.

Methodology

This information will be collected by electronic submission.

Michael J. Vaccaro,

Deputy Assistant Secretary for Defense Trade Controls, U.S. Department of State.
