SUPPLEMENTARY INFORMATION:

Title: Virus-Serum-Toxin Act and Regulations.

OMB Control Number: 0579–0013.

Type of Request: Revision to and extension of approval of an information collection.

Abstract: Under the Virus-Serum-Toxin Act (21 U.S.C. 151–159), the Animal and Plant Health Inspection

Service (APHIS) is authorized to promulgate regulations designed to prevent the importation, preparation, sale, or shipment of harmful veterinary biological products. These regulations are contained in 9 CFR parts 102 through 124.

Veterinary biological products include viruses, serums, toxins, and analogous products of natural or synthetic origin such as vaccines, antitoxins, or the immunizing components of microorganisms intended for the diagnosis, treatment, or prevention of diseases in domestic animals.

APHIS issues licenses to qualified establishments that produce veterinary biological products and issues permits to importers seeking to import such products into the United States. APHIS also enforces regulations concerning production, packaging, labeling, and shipping of these products, and sets standards for the testing of these products. These regulations ensure that veterinary biological products used in the United States are not worthless, contaminated, dangerous, or harmful.

To help ensure that veterinary biological products used in the United States are pure, safe, potent, and effective, APHIS requires certain information collection activities, including, among other things, information needed to issue establishment and product licenses and track personnel qualifications; product permits; packaging and labeling; requests for materials; shipment authorizations; product and test reports; preparation and usage requests; development and field study summaries; stop distribution and sale notifications and inventories; due diligence petitions; and recordkeeping.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities, as described, for an additional 3 years. APHIS has amended this information collection by decreasing the Estimated Annual Number of Responses per Respondent and the Estimate of Burden, and increasing the Estimated Annual Number of Respondents, Estimated Annual Number of Responses, and Annual Burden on Respondents.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

- (1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public burden for this collection of information is estimated to average 0.001 hours per response.

Respondents: Veterinary biological product developers and producers, foreign government officials, State government officials, and private individuals.

Estimated annual number of respondents: 1,231.

Estimated annual number of responses per respondent: 640,342.

Estimated annual number of responses: 788,260,796.

Estimated total annual burden on respondents: 53,859 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 24th day of June 2026.

Kelly Moore,

Administrator, Animal and Plant Health Inspection Service.

CIVIL RIGHTS COLD CASE RECORDS REVIEW BOARD

[Agency Docket Number: CRCCRRB–2026–0014–N]

Notice of Formal Determination on Records Release

AGENCY: Civil Rights Cold Case Records Review Board.

ACTION: Notice.

SUMMARY: The Civil Rights Cold Case Records Review Board received 4,247 pages of records from the National Archives and Records Administration (NARA) related to two civil rights cold case incidents to which the Review Board assigned the unique identifiers 2024–003–010 and 2024–003–022. The

agencies proposed 519 postponements including postponements of sealed federal grand jury information in the records. On June 26, 2026, the Review Board met and approved all 519 postponements and determined that 3,775 pages in full and 32 pages in part should be publicly disclosed in the Civil Rights Cold Case Records Collection. The Review Board has requested that

the Attorney General petition the relevant court to unseal the federal grand jury information in the records. By issuing this notice, the Review Board complies with the Civil Rights Cold Case Records Collection Act of 2018 that requires the Review Board to publish in the **Federal Register** its determinations on the disclosure or postponement of

records in the Collection no more than 14 days after the date of its decision.

CENTRAL INTELLIGENCE AGENCY

Privacy Act of 1974; System of Records

AGENCY: Central Intelligence Agency.
ACTION: Notice of a new system of records.

SUMMARY: Pursuant to the Privacy Act of 1974, as amended, and Office of Management and Budget (OMB) Circular No. A-108, notice is hereby given that the Central Intelligence Agency (“CIA”) is submitting to the **Federal Register** one (1) new System of Records Notice (SORN), CIA-46 Sexual Harassment/Assault Response and Prevention Office (SHARP) Records. This new SORN covers records related to CIA’s assessment, processing, and tracking of sexual harassment and sexual assault inquiries, allegations, and reports, which includes case management, dispositions, guidance, and reporting to CIA leadership, stakeholders, and oversight bodies.

DATES: In accordance with 5 U.S.C. 552a(e)(4) and (11), this notice is effective upon publication, subject to a 30-day period in which to comment on the routine uses, described below. Please submit any comments by July 31, 2026.

ADDRESSES: Comments may be submitted by the following methods: By mail to Mark Mouser, Privacy and Civil Liberties Officer, Central Intelligence Agency, Washington, DC 20505; or by email to *FedRegLiaison@uce.cia.gov*. Please include “NOTICE OF NEW CIA SORN” in the subject line of the message.

FOR FURTHER INFORMATION CONTACT: Mark Mouser, Privacy and Civil Liberties Officer, Central Intelligence Agency, Washington, DC 20505, (571) 280-2700.

SUPPLEMENTARY INFORMATION: CIA created the Sexual Harassment/Assault Response and Prevention (SHARP) Office to centralize handling and documentation of sexual harassment and sexual assault matters to comply with 50 U.S.C. 3531 to 3533: *Sexual Assault and Sexual Harassment Within the Agency; Reporting and Investigation of Allegations of Sexual Assault and Sexual Harassment*; and *Special Victim Investigator*. The SHARP Office provides an enterprise service responsible for responding to and preventing sexual harassment and sexual assault through a balance of education, trauma-informed care, and victim-centered advocacy. Under 50 U.S.C. 3532, the SHARP Office serves as the primary point of contact and entry point for Agency employees to make “Restricted” or “Unrestricted” reports of sexual harassment and sexual assault. “Restricted” reports are those reports of sexual harassment or sexual assault that are kept confidential and are made to SHARP without notifications or investigation. “Unrestricted” reports are those reports of sexual harassment or sexual assault that are kept confidential, but include notification to management and appropriate investigators. The SHARP Office is also responsible for various notification, reporting, policy setting, training, and data analysis related to reports of sexual harassment and sexual assault by CIA personnel.

CIA proposes a new System of Record Notice (SORN), CIA-46, Sexual Harassment/Assault Response and Prevention (SHARP) Office Records, to cover all records maintained by the SHARP Office related to its official responsibilities, including records used to assess, inquire into, and efficiently

manage allegations of sexual harassment and sexual assault.

In addition to incorporating by reference the “Statement of General Routine Uses for the Central Intelligence Agency,” set out at 87 FR 73198, November 28, 2022, revised and republished at 91 FR 1743 (January 15, 2026), CIA-46, SHARP Records, will include three new routine uses for the records maintained in this system of records. First, consistent with the SHARP Office’s responsibilities, records may be disclosed to individual victims, alleged offenders, Senior Management Official Point of Contacts, witnesses, security officers such as the Special Victim Investigator, and other individuals to the extent necessary to respond to, or to update such individuals on the response regarding Restricted or Unrestricted reports relating to an allegation of sexual harassment, sexual assault, or retaliation/reprisal.

Second, records may be disclosed to any victim or other appropriate individual to the extent necessary to comply with the Agency’s common perpetrator notification requirements, in accordance with all applicable laws and internal Agency regulations. “Common perpetrator notification requirements” generally refer to the laws and internal Agency regulations that require CIA to provide specific notifications upon receipt of an incident report containing an allegation of sexual harassment or sexual assault against an individual known to be the subject of at least one allegation of sexual harassment or sexual assault by another reporter.

Finally, records may be disclosed to a federal, state, local, or Tribal law enforcement agency, or other appropriate entity or individual, when the Special Victim Investigator determines the disclosure is necessary and relevant to conducting inquiries, investigations, or other fact-finding
